#### Restoration of Civil Authority in the South.

The following is the essential portion of the Proclamation of the President issued and published on Monday.

And whereas, subsequently to the said second day of April, one thousand eight hundred and sixty-six, the insurrection in the State of Texas has been completely and everywhere suppressed and ended and the authority of the United "tates has been successfully and completely established in the said State of Texas, and now remains therein unrestricted and undisputed, and such of the proper United States officers as have been duly commissioned within the limits of the said State are now in the undisturbed exercise of their official functions;

And whereas, the laws can now be sustained and enforced in the said State of Texas by the proper civil authority, State press of Mexico denies the report. or Federal, and the people of the said State of Texas, like the people of other States before named, are well and loyally disposed and have conformed or will conform in their legislation to the condition of affairs growing out of the amendment of the Constitution of the United States prohibiting slavery with the limits and jurisdiction of

the United States;
And whereas, all reasons and conclu-Texas, as well as to the other States which had been involved in insurrection;

And whereas adequate provision has been made by military orders to enforce the execution of the acts of Congress and the civil authorities, and secure obedience to the Constitution and laws of the United States within the State of Texas, if a resort at any time become necessary;

Now, therefore, I, Andrew Johnson, President of the United States, do hereby proclaim and declare that the insurrection which heretofore existed in the State of Texas is at an end, and is to be henceforth so regarded in that State, as in the other States before named in which the said insurrection was proclaimed to be at an end, by the aforesaid proclamation of the second day of April, one thousand eight hundred and sixty-six.

And I do further proclaim that the said insurrection is at an end, and that peace, order and tranquility and civil authority now exist in and throughout the whole of the United States of America.

. In testimony whereof, I have hereunto set my hand, and caused the seal of the United States to be affixed.

GENERALS OF THE UNITED STATES ARMY.—The Generals of the regular army now rank in order of their names in the following list: Gen. Ulysses S. Grant; Lieutenant General William T. The adress declares it to be the duty of each State, as well as their right, to participate in the government; that the signer of the call believe that the South is sincere in its declarations, and they are unwilling that its people should be denied representation in Congress by a plain violation of the Constitution. The address, in conclusion,

"When the restoration of the Union, and the preservation of our form of government, are in issue, however much we may regret to sever cherished associations and to co-operate with former enemies, we must prefer to act with those who have been wrong and are now right, rather than with those who were right and are now wrong "

#### A PLAN TO RESTORE THE HALL SERVICE OF THE SOUTH.

To the People of Virginia, North Carolina, South Carolina Geor-sis, Alabama, Mississippi, Louisiana, Tennes-ser, Arbansas, Missouri, Plorida, and Texas: Ifaving recently returned from the South, I am well aware of the great inconvenience to which the Southern people are subjected on account of lack of mail facilities. This is, to a very great extent owing to the oath with being but few men in the South who can take it. Having conferred with the proper authorities, fand obtained their approval, I find that this difficulty can be obviated and the mails established. tablished upon every route at the South, and at the highest rates admissible for the people of either North or South. Being a National Union man. (late of North Carolina.) by which I mean one that is alike opposed to the here-sies of the Extremists North and South, I can take this oath and thus form the connecting take this oath and thus form the connecting link between the Southern people and the Uni-ted States Government. This I propose to do and to establish math on every route at the South now destitute of them, as follows: Any person who is desirous of becoming a contractor will address me at once, stating the route or routes for which he wishes to become

contractor, (stating the extreme points to be connected, which of course, should be on some route heretofore established.) I will then contract for such route or routes in my own name and let the parties have them at a discount of 24 per cent., on the annual amount for carrying the mails on said route or routes. This arrangement will secure the route to the subcontractor substantially the same as if it were his own contract, and frequently at a better price than could be obtained in the usual way there there is so much competition.

My percentage or mileage as above, will not be required until the end of the first quarter. The first applicant for a route or routes, judging by the post-mark on the letter of ap-plication, will have the preference, other things being equal.

Persons when making application should send a guaranty signed by at least two guar-antoes. The guaranty should be certified to by a postmaster or a judge of a court of record. + Applicants can, if they desire, obtain blank forms, printed by the Government, by addressing either the undersigned or the 2d Assistant Postmaster General, Geo. W. Mcupon the Domestic Department, and also on the Sleeping Apartments, with the new of rendering the College in every respect pleasure.

As I am recognized as principal in this matter, payment must necessarily come through

me. I can, however give the parties drafts on the sixth Auditor of the Unifed States Treasury for all the quarter for which the contract may have been awarded, and these can be presented one at a time as they full due, and money drawn substantially the same as if the parties were bona fide contractors. In this case the expenses [two and half per cent] should cie or be paid by or before the expiration of the first quarter after the commencement of service; otherwise payment for this quarter will be drawn by the undersigned, expenses deducted, and the residue, with drafts for the remaining 25 00 guarters, forwarded to the parties carrying the
25 00 mails. If persons prefer, I will draw and for20 00 ward their money at the end of every quarter.
20 00 fer that they accept the drafts, in order that they may have the matter in their hands.

It would be a source of much gratification to me if I be the means of extending mail facilities to the Southern people. Their attention is therefore respectfully called to this matter. As I am not required to cut down, through competition, it would doubtless be to their interest to make speedy application, before any modification is made in the test oath in order that they may obtain these routes at the highest rates admissible.

Persons confiding to my care may rely on fair dealing. All accepted bids will be en-tered upon the books of the Post Office Department, where they will be open for inspec-
