6 to 2m Salisbury Brass Band, AND ORCHESTRA WERE ESTABLISHED January 1866, with Wm. H. NEAVE, Musical Director, and Ed. B. NEAVE, Leader.

This will be a permanent and first class Band for North Carolina, if properly established and maintained, by being engaged at all points in the State, on occasions where "string music" should be a marked feature.

Music composed and arranged for any required number of parts for Brass Band, Orchestra, Band, &c. Musical purposes, to order. Make fact—Dunn—H. B. Dodworth, Moss, Kent, Bethesda, of New York, warm personal friends of Mr. Neave, select and send him all the music for Piano that is new, when intrinsically good, as well as winning and popular; for beginners, medium players and advanced musicians. This carefully select and highly approved music, will be sold as cheaply here, as the mixed article is retained in New York.

The far-famed Dodworth Band instruments can be got through Mr. Neave, tested and approved. Salisbury, N. C., April 23, 1866.

The Weekly Old North State Published every Friday at \$3. per annum.

Bolting Cloths. We keep constantly on hand the very best kinds of Bolting Cloths. McCUBBINS, FOSTER & CO. Oct 6 to 2m

Officers of the Company: PRESIDENT—Peter Adams, Vice President—Ezekiel P. Jones, Counsel—John A. Gilmer, Superintendent—Frank P. Cavanaugh. DIRECTORS—Peter Adams, E. P. Jones, Dr. E. N. Hutcheson, James P. Jones, C. P. Mendenhall, I. H. Routzahn, Frank P. Cavanaugh, Marcus Witty.

Capital Stock, \$500,000.00 Par Value of Shares Each, 500 Number of Shares, 100,000 Fifty thousand shares reserved by company for working capital. No shares to be assessed!

This company has secured over fourteen thousand acres of mineral lands, situate in the counties of Chatham, Moore, Rockingham and Stokes, in North Carolina, which abound in plentiful deposits of bituminous coal, copper, iron, salt, and there is every reason to believe from general and surface indications, petroleum or mineral oil.

The services of two practical and efficient men, experienced in boring for oil, and stimulated by a long course of success in Venango county, Pennsylvania, were secured by the company several months since, and they are now on the lands, with the requisite force, tools, steam engine, tubing and machinery, boring a well with every flattering prospect of success. The organization of this company effected, some time since has now been perfected in legal form, by act of incorporation, with a capital of \$500,000, divided into 100,000 shares of \$5 each, 500,000 shares of which, or an amount of stock equivalent, par value, to \$250,000, have been reserved and set aside for a working capital.

It is well known that a superior article of bituminous coal is now being mined in the Deep River coal region, where a portion of the lands are situated, and this company owns property known to be equal if not superior to any on which shafts have been sunk. Copper, iron and salt also abound, and the attention of capitalists has already been directed to this section on account of its value for the above minerals.

In order to have sufficient means to develop this valuable property in such a manner as to insure success, the Directors have authorized 100,000 shares of the capital stock to be sold to raise a working capital, and subscriptions for that number or any part thereof will be received.

An opportunity uncommonly favorable for investment is thus afforded, one advantage being that all who choose to buy stock under this offer will obtain it upon far more reasonable terms than can be looked for in a short time, after the immense value and mineral resources of these lands become known to the public.

As there are most favorable reasons for believing that petroleum will be found at no great depth, and in profitable quantities, it would be advisable for all who propose investing to do so at once, and embark in an enterprise, which, after the example of the immense profits realized in those of a similar character in other States gives reasonable assurance of the most lucrative results.

In other States nearly all companies of a similar character have based their operations upon small tracts of land, in many instances even as small an area as one acre has been deemed sufficient, but "The North Carolina Petroleum and Mining Company" has secured no less than fourteen thousand acres, (most of which abound in bituminous coal of a rich quality) acquired at no little expense, and selected with great care and skill from the choicest mineral lands in the State.

Frequently it has been the case in less favorable oil localities that shares have advanced in a few days from \$2 or \$5 to \$15 \$20, and even \$50, and persons of slight means who made small investments, realized fortunes.

Actual boring has now commenced and a considerable depth has already been reached. So far, the prospects of success are fair, and scientific men seem to entertain no doubt as to the probability of finding oil. Nevertheless, should the company ultimately fail in getting oil, of which no fears are entertained, they are still safe in having secured valuable tracts of Coal, Copper and Salt lands.

For further particulars apply at the Company, in Greensboro, N. C. and Dr. E. Nye Hutcheson, Salisbury, the disinterested certificates of stock can be informally complete obtained giving his information of every oil and other interest connected with the Company. All communications to Adams, Mendenhall, & Co., President.
