Lauch Henry helped find the missing ingredient to educate minority engineers. Money.

Lauchland Henry is a teacher. And a scientist. And an engineer. He's genuinely concerned about other people. And he has expressed some of that concern in his participation with the National Fund for Minority Engineering Students.

The fund is a non-profit organization attempting to increase the number of Blacks, Puerto Ricans, Chicanos, Mexicans, Americans and American Indians enrolled in engineering schools. These under-represented minorities constitute a rich untapped resource to help fill the growing need for engineers, a need that is expected to continue through the mid-1980's.

IBM's social leave program enabled Dr. Henry to take a year's leave to assist the fund. And IBM continued to pay him his full salary.

The National Fund for Minority Engineering Students is a very worthwhile program. We think so. Lauchland Henry thinks so. But most important of all, lots of minority engineering students enrolled at colleges and universities all over the country think so. **IBM.**
