

**Grades K-12**

**All Students Must Comply With New Immunization Law**

All pupils in grades K-12 in public, private or parochial schools must comply with the new Immunization Law when they enter school in the fall. The Law required that all pupils have 3 DPT, 3 Oral Polio, 1 Red Measles given on or after the first birthday and 1 Rubella. It is very important for parents to understand that proof of these immunizations will be required on the first day of school in the fall. Those children who cannot show

proof of the required immunizations will not be allowed to attend school until proof is shown. The health records of all pupils enrolled in school last year have been checked and parents of those lacking immunizations were notified repeatedly. The final notice to parents of pupils who would not meet the new legal immunization requirements was sent home with the last report cards and will not be repeated.

Some pupils in elementary and junior high school were suspended last year because they failed to meet even minimal immunization requirements. There are still 1,000 pupils in elementary and junior high schools who lack one or more of the immunizations required in the fall. These pupils will face suspension when they attempt to enroll on the first day of school along with the 4,000 senior high school pupils who either lack immunizations or

have not presented a vaccination record. Because of diminished resources, the Health Department will not be able to provide additional emergency immunization clinics in September as was done last year when suspensions in elementary and junior high schools took place. This will mean that children seeking their immunizations from the Health Department may have to wait a long time for appointments in regular im-

munization clinics in the fall. Unless they can get their shots from their private doctor, they will remain suspended for several days or weeks. Parents are thus urged to act early if they plan to use the free

immunization clinics at the Health Department. At this moment it is easy to get a clinic appointment, but they will become more difficult to get as the summer progresses. For an appointment call 392-4121, Ext. 218.

Mr. Charles, R.B.

**QUESTION:** Mr. Charles, why is it so hard to reach you personally or get an appointment with you?

**ANSWER:** It should be easy, because we have a full-time receptionist to take all appointments. It would be very unfair to a person who has an appointment and the stylist starts to wait on people who don't have an appointment. One rule is be patient. We will take the same time and care with you that we're taking with the person ahead of you. If it's a conference, leave name and number. Generally the call is returned within 24 hours.
