You can enjoy career strides that will reflect your contributions in the team oriented environment at ALLIED FIBERS. We're a leader in the production of industrial quality polyester fibers and we owe much of our success to our employees. Our rapidly growing corporation offers a wide range of assignments that will appeal to versatile and creative engineers. As a result of our recently announced plant expansion, our Monroeville, North Carolina (25 miles southwest of Raleigh) operation is seeking the following Engineers:

PROJECT ENGINEER
Requires BSEE Degree with 5 years related experience. This position is responsible for project engineering and maintenance engineering support for process measurement and control instrumentation, electrical services and power distribution systems and electrical apparatus and controls. Total project engineering responsibilities includes scoping, design, specification, procurement, fabrication and installation of capital and expensive projects. Maintenance engineering support includes problem solving, hands-on troubleshooting, methods improvement, and reliability improvements in plant electrical and instrument equipment.

FIBERS ENGINEER
Requires BS Degree in Chemical, Mechanical or Textile Engineering and a minimum of 3 years polyester fibers manufacturing experience. Primary responsibility will be to maintain the unique physical properties of our products while defining and monitoring processes to achieve maximum high quality yields. Scope will include translating production control requirements into spindraw processing specs, establishing processing specs for new products based on marketing requirements and maintaining liaison between plant and research center personnel during inplant process and equipment evaluation.

For prompt and confidential consideration, please send resume and salary history to: Richard O. Mark, Personnel Supervisor, ALLIED CORPORATION, P.O. Box 166, Monroeville, N.C. 27359.
