

SIMPLIFY!

DELPHI Automotive Systems now brings its six divisions, 17 technical centers, 190 locations and 170,000 employees around the world under one banner to provide simplified global automotive systems solutions.

Designing and assembling vehicles is complex enough. DELPHI Automotive Systems can help you simplify the process by providing one source for all your component, module and system needs.

The fact is, no other company in the world has the depth of expertise and experience to partner with you in designing and producing a complete range of automotive systems and automotive components.

You can expect affordable, timely and quality solutions when you partner with DELPHI.
