BUYER'S GUIDE

How to Choose Siding

Fiber-Cement Siding

Fiber-reinforced cement construction is durable and stable.

- Limited transferrable warranty
- Will not rot, decay, crack or delaminate
- Withstands termite attacks

Wood Siding

Choose wood for the height of natural beauty.

- Can be sealed, stained, or painted for protection from decay, insects, and weathering.

Hardboard Siding

Get the look of expensive solid wood siding at a fraction of the cost.

- Available in many sizes, patterns and textures
- Easy to install using normal woodworking tools
- Will not split, crack or warp

3/8"-4'x8' SmartPanel II™ Engineered Wood Siding

Edge and groove coating adds moisture resistance. 8" on center. 30-year limited warranty.

(509095) **\$1775** each

1 1/32"-4'x8' Pine Plybead® Panel

Get the look of beaded board planking without the cost. Classic 1.6" pattern with sanded face ready for painting.

(178424) **\$2399** each

3/8"(1 1/32")-4'x8' Premium T1-11 Plywood Siding
