

**IMPORTANT CONFERENCE
IN RALEIGH RECENTLY**

**Doctors Weaver and Clark At-
tend Meeting in Behalf
75 Million Movement**

On March 14th Drs. Weaver and Clark met in the Recorder Building at Raleigh with Secretary Maddry, Dr. R. T. Vann, President W. Louis Poteat of Wake Forest, President Charles E. Brewer of Meredith, and a number of prominent educators from Baptist institutions throughout the State, to consider ways and means of enlisting all of our educational forces for the purpose of raising North Carolina's allotment of the 75 Million campaign. Secretary Maddry said his purpose was two-fold, first that of fully arousing the teachers to see and feel the great burden and opportunity resting upon them in the aid of so momentous an undertaking; and second, that the teaching staff of the denomination can infuse an additional life and momentum to this great cause. He urged those present to put forth their best effort at once, lest Christian education and the denomination in the State suffer an irreparable loss.

Various schemes were proposed for the raising of our quota of the 75 Million Campaign. One is for each loyal Baptist in the State to add six dollars and some cents to his original subscription. Another scheme was that proposed by Dr. Weaver, which is for all the Baptist colleges throughout the State to put on an enlistment campaign within our colleges and

train our young men and women to do organized work for the cause among their own people when they return home for the summer vacation. By this means a large band of zealous students will prove a powerful means of recruiting our regular army of campaigners. Other schemes were proposed of which more shall be known in the near future.

**Y. W. A. PROGRAM A
FEATURE OF THE SOCIAL**

**Entertainment Was Given By
W. M. S. At Murfreesboro
Baptist Church, March 17**

On Monday night, March 17, the faculty and entire student body of Chowan College were entertained at the Baptist Church by the Woman's Missionary Society. After a program rendered by the college Y. W. A., the members of the W. M. S. invited the guests into the church dining room where a delicious ice course and mints were served.

The program was especially good. The first number was a talk given by Miss Gladiola Parker on the Student Volunteer Conference at Queens College, Charlotte, North Carolina. The second number was a quartette, "I'll Go Where You Want Me to Go" by Misses Ila Leary, Mildred Riggs, Letha Carter, and Janice Ballentine. After this Miss Helen Brett gave an interesting talk on the phases of the Conference pertaining to the work of the Y. W. A. Following that was a pageant, "The Hope of North Carolina". It pictured Christianity,

Christian Education, Orphanage work, and ministry of healing with the aid of the W. M. U. driving out Ignorance, Destitution, Crime, Anarchy, and Disease. The W. M. U. which is the real hope of North Carolina, gave a brief sketch of its work in showing how it could help lift North Carolina.

**WINTER BRINGS CHILDREN
FOR A VISIT TO CHOWAN**

**Snow, Sleet, and Ice Responsi-
ble for Persistent Stay of
Cold Radiators**

The faculty and students of Chowan College were favored with a visit last week from Mr. Winter's children, who frequently accompany him. We are sorry to say that their reception was not what it should have been, and we fear that their visit caused a great deal of unpleasantness to both parties.

The girls, however, (and part of the faculty even) gave Mr. Snow, the youngest son, a most pleasing welcome. Mr. Snow is a very attractive young man and always wears a perfectly white sports outfit. There was no time for studying while Mr. Snow stayed because all the girls, adorned in their sweaters, caps, gloves and overshoes, eagerly went snowballing and kodaking with him. Shouts of laughter could be heard either on the roof garden or on the campus the evening, Mr. Snow ventured into the dining room. Much to their error, how-

company with Miss Cream.

The older sons, Ice and Wind, and the daughter, Miss Cold Radiators were received very differently from Mr. Snow. The college members did all they could to keep them from entering, but to no avail. However, since Mr. Winter is a constant visitor, they could not afford to be so discourteous to his children. They were allowed to wander about wherever they wished and all the faculty and students were forced to recognize them whether or not they wished to.

Miss Cold Radiator was the most persistent of all the visitors. She made herself quite at home, and it seems that she does not yet consider that her visit is over or that everybody would be more comfortable if she were gone. She visits every room, whether it belongs to a girl or one of the faculty members. One is able to find her anywhere and everywhere.

Dr. Weaver recognized the situation under which the students were placed and succeeded in getting some wood, as it is impossible to get coal. He thought to make it too hot for Miss Cold Radiators, for a time at least, because she can not survive in hot climates. The girls, as well as Dr. Weaver and the faculty, realize that this is not good manners, but thought it the best way to cope with the situation. We hope the next time Mr. Winter brings his children to visit us that we will have plenty of coal to show our appreciation of their absence—all except Mr. Snow, for we would like to keep him here all the time.
