### TEACHER ADVISES HIGH GRADUATES OF FUTURE PLANS

After High School, the Question of Future Looms Up Before All

MAKE A LIFE; NOT

College Education Can Be Secured If You Made Genuine Efforts

My Dears: you should be making a life. You can make a far better living if you have a college education than if you do not, it is true, but that is not the purpose of education; for your life must be broadened by the extension of your sympathies, deepened by your preception of truth, elevated by your aspirations and ideals, lengthened by your service, if you fulfill the

by your service, if you fulfill the promise of your present. And this symmetrical life, this life 'DRAMA OF NUMBERS' four-square, the associations, contacts, studies, discipline offered by a good college will help you to Do you have the will to pursue your studies? Then you can keep on. There are always altruistic

and good—and your life will grow steadily richer and more serene.

Truly, my dears, "The best is yet to be," if you keep the upward to be," if you keep the upward fractions, the zero, the irrational to be the life base year than every before, and the retiring officers deserve the praise. Through the negative numbers, the common fractions, the zero, the irrational to be the life before, and the retiring officers of the efficient president, each of the life base year. Lovingly and understandingly

Your friend, A COLLEGE TEACHER.

#### Rev. R. B. Lineberry Made Inspiring Talk During Chapel Hour

The Baptist ministers of the West Chowan Association held their regular monthly meeting at the college Tuesday, April 3, at MERELY A LIVING which time R. B. Lineberry made a very interesting talk during the chapel hour.

Mr. Lineberry took as his topic "Jesus At the Marriage Feast." "Christ does not want to deprive My Dears:

You are graduating from High School in a few weeks, but you have not yet reached the top of the hill, and you will miss the broad outlook, the perspective, the sight of the far horizon, if you stop now. There is so much of the true and beautiful which you have not yet discovered—so much of power in you yet undeveloped, so much that you will need all the rest of your life—science, history, literature, art, information, training, culture. Do not cheat your mind and heart and circumscribe your personality by stopping to make a living, when you should be making a life. You can make a far better living if us of pleasure which is profitable
