

## New Staff Elected For The Chowanian

EACH YEAR, at mid-term, new staff members are elected to direct and promote The Chowanian for the following two semesters. Election of freshmen staffers at mid-term assures a carry-over through the first semester of the following year.

Three of the old staff members (sophomores) were appointed as student advisors. They are Audrey Marriner, Raymond James and John Griffin. During the last semester of the 1958-59 term, as well as the first semester of 1959-60, Raymond James and Wayne Alford put in many extra hours working on The Chowanian. Other retiring staffers are also commended for the parts played by them in making this newspaper a creditable publication. The many letters of commendation from numerous sources testify to the good work of these student staffers on The Chowanian.

The college newspaper is not only distributed among the faculty, staff and students here, but more than 1000 copies go out to college presidents, ministers, and others, carrying news of Chowan College in words and pictures. Consequently this extra-curricular work of The Chowanian staffers plays an important part in

public relations—publicizing Chowan College very favorably.
