

DESCRIPTION OF LIBRARY BUILDING

The entire building is to be set on a raised base. Handsome marble-faced columns will grace a wide veranda encircling the entire building. This veranda will be landscaped and will provide attractive outdoor reading-study space. Adjacent to the lobby just inside the main entrance will be an "Antiquities Room" for the preservation of rare books and items connected with the history of Chowan College. The main reading room on the first floor level will also have a mezzanine and will seat about 300 students. At the rear of the building there will be a daylight basement which will provide stack space for about 75,000 volumes.

\$900,000 Development Program

(See story on page three.)

DESCRIPTION OF CLASSROOM-ADMINISTRATION BUILDING

This building will be a three story structure. It will have two wings projecting forward from the main body of the building on the ground level. The wing on the left will contain administrative offices and conference areas, as well as a faculty lounge-meeting room. In the wing on the right will be the larger lecture halls. The second and third floors of the building will contain lecture halls of various sizes and a number of faculty offices. Entrances to the building will face onto a large open air concourse. In the center of this concourse there will be a beautiful memorial fountain which will be lighted at night.
