

LOCAL BRIEFS.

Work has begun on the new garage which is being built on Carriage street by Mr. Frank Snipes.

Mrs. Dewitt A. McNeill, of this county, accompanied by her husband, left a few days ago for Baltimore, where she will take hospital treatment.

The old saying that "politics make strange bedfellows" has been clearly demonstrated in Sanford and Lee county since the campaign opened.

Miss Annie Brown, who took a course at the Sanford Business College, has accepted a position with the superintendent of schools of Harnett county at Lillington.

Mr. W. F. Loyd, one of Lee county's most successful farmers, has sold \$110.00 worth of cabbage this season. Only about half of his crop of cabbage has been gathered.

There were more people on the streets of Sanford under the influence of liquor Saturday night than we have seen here in many a day. Everything seemed to be wide open.

Mr. J. L. Phillips, of the Lee Furniture Company, left Tuesday for New York to attend the Edison Phonograph Dealer's Convention. He was accompanied as far as Richmond by his two children, Ruth and Joe Phillips, who will visit relatives in that city.

While the Fourth of July was not celebrated at this, yet if a stranger had visited the town Saturday he would have been almost tempted to believe we were celebrating it from the number of people in the place. Had we put on a regular Fourth of July program the town would have been crowded with people.

The Woman's Missionary Union of the Fayetteville District Conference is being held at Camp Ground Church, eight miles from Fayetteville, this week. The delegates from Steele Street church are, Mrs. W. R. Royall, Mrs. L. P. Wilkins and Mrs. B. Cole.

Ellison, the young son of Mr. and Mrs. Chas. Campbell, of Pocket, was bitten on the ankle last Saturday by a snake. He fell a stinging sensation as the snake struck him after which he saw him crawl off. It was a spotted snake and it is thought that it was a pilot.

Did you ever go to a wireless station, pick up the receiver and hear the messages as they were sent from some distant station? When Mr. R. O. Holland moved from Greensboro to this place and opened the Sanford Tire and Storage Battery Company, having learned something about wireless, he built a station in connection with his business.

Understand hundreds of crates of dewberries spoiled in the fields around Cameron on account of the growers not being able to get labor to gather them. Labor was not only scarce, but there was an unusually large crop of berries raised.

It would be interesting to know how much the berry crop of Lee and Moore counties brought this year.

observed in Sanford on Monday. The banks and many of the shops and factories were closed and some of the merchants gave their salesmen a half holiday and the rural route carriers did not make their rounds.

The movement which was started a few months ago to build a new hotel in Sanford has failed to produce the desired result. Mr. W. A. Crabtree, who was made chairman of the committee appointed to solicit stock, has made a hard drive to get the necessary stock subscribed, but failed to get up the required amount.

The last car shipments of dewberries were made from Jonesboro last week. The growers finished gathering the crop this week, but shipped the berries in small lots. As has already been stated in these columns, the crop sold at good prices and the producers realized a nice profit from the sales.

We are informed that the receipts from the crop amounted to about \$80,000. This industry circulates money in the community at a time when there comes in little money from other crops. This sum of money was realized from a crop which grew on a comparatively small acreage.

While driving through that section to the county over about Rosser station last Sunday afternoon we noticed some fine young cotton, corn and tobacco along the way. Some of the tobacco was about as high as one's waist and ready to be topped. Cotton is small for this season, but has a good color and has taken good start to grow.

The farmers seem to be well up with their work and the crops are clean. There are some good well cultivated farms in that section. The land is well adapted to small grain as well as cotton, corn and other crops.

One gets a fine view of the surrounding country from the elevation on the improved highway just east of Wallace creek. The panoramic view produced by the hills that loom up in the distance reminds of the mountain ranges in western North Carolina. The improved highway extends only a short distance east of Rosser station. That section is well stocked with rabbits if we are to judge by the number that we saw along the road.

We believe this was near the Chatham county old line, if not in Chatham, before Lee county was created.

The Sanford Commercial Club will give a basket picnic to its members and their families Friday afternoon at Likewick. Every family is expected to carry a basket. There will be a game of ball between the Sanford and Camp Bragg teams and other amusements.

Mr. J. McN. Johnson and daughter, Miss Nell Johnson, of Aberdeen, left last week for New York, where they joined a party of half a dozen or more who sailed on a three months' tour of England, Scotland, France and other countries across the waters. The party will be personally conducted by Mr. Johnson. Among the places of interest that will be visited by these tourists will be the battlefields of the World War. It will be remembered by readers of The Express that Mr. Johnson spent the summer in Scotland some four or five years ago. He wrote a series of descriptive and entertaining articles on his trip for The Express. Readers of this paper would read with interest articles by Mr. Johnson on his present trip.

The United States Civil Service Commission has announced an examination for Lee county to be held at Sanford on July 24, to fill the position of rural carrier at Camacook and vacancies that may later occur on rural routes from other postoffices in this county. The examination will be open only to citizens who are actually domiciled in the territory of a postoffice in the county and who meet the other requirements set forth in Form No. 1977. Both men and women, if qualified, may enter the examination, but appointing officers have the legal right to specify the sex desired in requesting certification of eligibles.

Women will not be considered for rural carrier appointment unless they are the widows of U. S. soldiers, sailors, or marines, or the wives of U. S. soldiers, sailors, or marines who are physically disqualified for examination by reason of injuries received in the line of military duty. Form No. 1977 and application blanks may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date.

Did you ever go to a wireless station, pick up the receiver and hear the messages as they were sent from some distant station? When Mr. R. O. Holland moved from Greensboro to this place and opened the Sanford Tire and Storage Battery Company, having learned something about wireless, he built a station in connection with his business.

Mr. Holland made much of the equipment that went in his station himself. The other day just before the noon hour he asked us to go to his station and hear the message sent from the government wireless station giving the time of day. This is done every day at noon. One can distinctly catch the sounds produced from the vibrations of the electric waves and one who understands wireless can read the messages sent out. Soon after the noon message is sent out from Washington, one picks up the code message sent to the battleship fleet and other war vessels out at sea.

As this is a secret code no one understands it except the sender and receiver on the ships. At night all kinds of messages are picked up—baseball news, political news and much other news matter that interest the public. One can get the weather report by wireless hours before it is sent out from Washington to be posted in the postoffices all over the country.

Mr. Holland picks up messages from wireless stations all along the Atlantic coast from Washington to Key West, Fla. Often he catches messages from ships out on the Atlantic. The sound of the wireless message produces a peculiar sensation to one not accustomed to hearing it. A scene in Sanford: A wireless station receiving the news from the outside world; the sound of an airplane above; the sound of sweet music from a phonograph near by, and the constant throng of the automobiles and motor trucks as the pass. This should convince you that Sanford is in the lime-light of this progressive and stirring age.

The Fayetteville Methodist District Conference, which was held at Goldston last week, adjourned to hold its next meeting at Carthage.

The closing sermon was by Rev. J. C. Cummings of Glendon. The session, which was presided over by Presiding Elder J. D. Bundy, of the Fayetteville District, was a highly successful one from every view point. The financial record for the past year was unusually good. On Thursday every one of the 21 pastors in the conference, representing as many districts, was present.

A feature of the conference was the annual introductory sermon by Pastor Mann, of Roseboro. Rev. P. D. Woodall, of Pittsboro, preached Thursday. Rev. H. B. Porter, of Silver City, was made recording secretary.

The Peach Crop in the Sandhills Mr. J. M. Leach, of Southern Pines, who spent the week-end in Sanford, tells The Express that the fruit grower in the Sandhill section, closed a deal for the sale of 221 cars of peaches, delivered at the cars at \$3.00 per crate. It is estimated that these peaches will bring something like \$331,000.00. It is said that this is more money than the cotton, corn and all other crops raised in that entire section would have brought ten years ago.

Mr. Leach also tells us of some big developments planned for that section in the near future. A year or two ago Mr. Henry Page, Jr., of Aberdeen, bought a large tract of land near Southern Pines, and recently sold it to a company of capitalists for \$250,000.00. This company is composed of some ten men of great wealth. Several of them live in New York. They propose to develop this property and build a chain of hotels and golf links. Work on this proposition is to begin at once. It is expected that during the next few years millions of dollars will be spent in resort hotels on this big purchase. The Sandhill country is now in the limelight as never before.

Women everywhere will be delighted to know that "this Monday" need never come again. Throw away your scrubbing boards—forget your tired knuckles and back—and learn how easy, quick and pleasant.

It sounds like a dream, doesn't it? But it's true. No, there's no need to buy expensive automatic washers—just a case of Clean Easy Washing Soap. Wash Soap that will last for two weeks!

Clean Easy isn't merely a soap. It's more than a soap. It's a regular household worker—the best friend you ever had because it does the hard work and never gets tired or cross. Just pour it on and it looks for itself.

The Clean Easy method is very simple. All you do is soak the clothes overnight. Let the water do the scrubbing. Bring it to a boil. Put in the soap—rinse, blue and dry—and presto!—it's as clean and fresh as if you had scrubbed and rubbed for hours over a miserable washboard.

Wonderful, isn't it? So simple and so pleasant. Why, hundreds of women have written us the most enthusiastic letters about Clean Easy. We know you will appreciate it as you experience for Clean Easy—the soap—today. Follow the directions on the inside of the wrapper.

Washing Done in Ten Minutes and for Only a Few Cents

Yourex Silver

We carry a complete line of Yourex Silver that stays bright, does not rust or turn black like other silver.

VICTIMS RESCUED

Kidney, liver, bladder and uric acid troubles are most dangerous because of their insidious attacks. Heed the first warning they give that they need attention by taking GOLD MEDAL MAARLEM OIL

Do Yours Look Like These Ruddy-cheeked, vigorous, healthy youngsters—sickness never troubles them. Their glowing health is a joy to everyone. Nourishing food keeps their little bodies sturdy and strong, but the waste product of this food is dangerous, if not gotten rid of thoroughly and effectively. Nujol is particularly valuable for relieving constipation in children as well as in grown-ups, as it does not upset the stomach, cause diarrhoea or form a habit. Nujol works on an entirely new principle. Instead of forcing or irritating the system, it simply softens the food waste. This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along so that it passes naturally out of the system. Nujol thus prevents constipation because it helps Nature maintain easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Nujol is absolutely harmless and pleasant to take. Try it.

The Modern Method of Treating an Old Complaint Nujol For Constipation
