

**A First Aid for "Weak Circulation"**

Keep the favorite windows warm and safe

Many well-lighted parts of the house are not only uncomfortable but unsafe as well when a cold, raw wind is blowing outside. Cold drafts do get in, somehow. But you can turn them into warm ones with a Perfection Oil Heater.

There are some corners that you just can't seem to warm up with your regular coal heater. A Perfection will do it and save "rushing" the furnace for hours at a time.

Too much heat is almost as bad as not enough. Keep the chill out of the house with your regular heating device and then supply the rooms you use most with the cheery warmth of a glowing Perfection.

The Perfection is remarkably light and durable. Put it just where grandmother wants it. It burns for about ten hours with a single filling.

Economize on coal this year by using more kerosene for heating. The price of Aladdin Security Oil is only about half what it was a year ago.

Almost all hardware, housefurnishing and department stores sell the Perfection Heater.

Ask your dealer about the Perfection Oil Heater Contest—\$5,000.00 in prizes.

**Sanford Defeat Elate Springs**

The game of football here last Friday between the Elate Springs and Sanford teams resulted in a score of 68 to 0 in favor of the latter. The visitors were outclassed by the home boys in every phase of the game. Soon after the game started the Sanford boys began to make gains and soon had the visitors at their mercy, plugging through the line, dashing around the ends to intercept passes at will. After the local team had made a touchdown in the first quarter, Elate Springs began an aerial attack which was promptly "nipped in the bud" by Sanford. Capt. Oliver Ingram received a pass and ran 80 yards for a touchdown. Holland on receiving punts and having perfect interference made two touchdowns; McAuley ploughed the line for two touchdowns, that showed form and coolness of play worthy of highest praise. Frazer, the speedy line backer, might be called the invisible. He dived hard and fast, coming up always with a smile. In the last two quarters the second string men were put in and they did good work, scoring two touchdowns in short order. Frazer, a tend, intercepted a pass running for 30 yards making a touchdown possible, when Davis carried it over.

Mrs. Rogers with Mrs. C. C. Cheek graciously received the guests. Miss Ernestine Matthews served punch in the hall. For amusement the hostess had cut pieces for two quilts, these were distributed and a merry party it was, sewing and chatting, some reminiscences, others radiant with anticipation, all to the music of an Edison. This was too good to last. A typical "Black Mammy" (Miss Flora Wooten) excitedly announced, "Lawdy chillun, a showers she is comin' I got to get out or here quick or I fetch in dem close." She hurried back with a large hamper heaped up with packages and placed it by the bride-elect saying, "Rem ain't at all." Sure enough she brought in two more "turns". Miss Willie May could hardly open them fast enough and was beaming with happiness as one lovely gift after another was admired and passed along.

Assisted by Mrs. Cheek, Misses Ernestine Matthews and Vera Wooten, Mrs. Rogers served a delightful salad course and minis.

Among the guests were Mrs. Hemphill, Mrs. McKeithen, Mrs. Wooten, Miss Muse and Miss Ruth Wooten all from Cameron.

**SCHOOL NOTES**

The past school week closed very fittingly with a most enjoyable entertainment given by the members of the high school and literary societies. The evening was one of "stunts," the program consisting of acrobatic feats, original stunts by individuals and groups. The opening number was rendered in the form of a wedding, "Tying the Unkissable Knot," given in mock array, thus combining the ridiculous with the sublime. After a number of other interesting features which brought hearty laughs from both old and young, the evening program concluded with several selections rendered on the pipe organ, the large paper pipes of which, concealed the musicians who produced the rich, resonant tones.

The large auditorium of the East Sanford school building was filled with an appreciative audience which heartily acclaimed each number. A small admission fee was charged and the proceeds given to the school improvement fund.

The chapel exercises on Wednesday morning were led by Section A of the eighth grade. The program was very interesting and well rendered, exhibiting real talent. The program follows:

Song, by entire school.  
Scripture Reading, James McIver.  
Prayer, school.  
Reading, Ethel Josephs.  
Story, Mary Tullock.  
Chorus, Eighth Grade.

The school at Tramway is making fine progress. The number of students has passed the hundred mark. There seems to be a deeper interest in school this year than ever before.

Much interest has been shown in putting the grounds in good shape for athletics. One of the rooms is being painted, and there is hoping the building may be painted at an early date.

November 11, will be observed as Armistice Day and North Carolina Day. An interesting program has been arranged and the public will be cordially invited to attend.

Mr. J. D. Gunter and Miss Ruth Gunter visited us Tuesday and Mr. Gunter made a lecture to the 6, 7 and 8 grades which everyone enjoyed very much.

**At one moment idling—  
at the next the full power load**

IT IS fine to be sure of quick response when you want to jump your car ahead. It is just as necessary to be able to idle on a low throttle.

It is not so difficult to make a gasoline that will do either of these things well. But to produce a balanced gasoline that does both, that combines power, economy, clean burning and big mileage, took years of experience in refining, experiments with crudes from every producing field, innumerable tests in chemical and physical laboratories, and with thousands of automobiles of all types and under all conditions of service.

This balanced motor fuel is "Standard" Motor Gasoline of surpassing goodness. It is wonderful in volatility, flame speed, completeness of combustion and mileage; It assures quick starts, rapid acceleration and unusual pulling power up heavy grades. Even in cold weather, when less perfectly conditioned gasoline is sluggish, you can operate on a lean, clean-burning, economical mixture of "Standard" Motor Gasoline. Why try your temper with others "just as good"?

And when you need oil say POLARINE. Made with the same care—always right.
