A man from the factory will be in attendance to show this new triumph in cooking efficiency, and explain its many interesting details. We specially invite you to come and see for yourself how completely the problem of efficient, convenient home cooking has been solved in Coal and Wood Ranges. It is easy to have a beautiful, cool and modern kitchen without changing over to expensive fuels.

The NEW  
ALL-ENAMEL

# Majestic Range

IN IVORY, APPLE GREEN, GRAY, WHITE OR BLUE

No matter what fuel you use, the same amount of heat is always necessary to cook or bake. Cool, clean cooking is never a matter of the fuel, but of the Range. The New Majestic uses the good old reliable fuels that everybody is accustomed to, but it uses them with a new efficiency. It holds the heat inside, around the cooking compartments, instead of wasting it outside, in the room. With it you obtain the utmost in cooking and baking ability, together with real fuel economy and a cool, comfortable kitchen to work in. Results like these have been sought for years in coal ranges, but have only recently been obtained.

### Makes a Cool, Clean Kitchen

Every woman knows how an ordinary range "heats up" a kitchen, especially in summer, and how uncomfortable it is to work under such conditions. Yet this is all unnecessary. With a Majestic there is all the difference in the world. The heat is concentrated on the work; the room is comparatively cool; the cleanliness and the convenience and practical features of this modern aid to

good housekeeping are equal to those in any range of any type. And you have with it a beautiful kitchen, too—for the New Majestic is a handsome creation of bright enamel color and gleaming nickel—as easy to keep clean as it is wonderful to work with.

### "Pay as you use it"

You can get one of these modern high-efficiency Ranges for your home so easily! By special arrangement with the Majestic factory we are able to offer a most attractive "pay-as-you-use-it" plan. Just a little down; the balance spread over many months. No interest, no carrying charges, no advance in price! Come in, this Next Week, and let the demonstrator from the factory show you how this beautiful New Majestic will lighten your work, and how easily you can obtain one!

FREE—Next Week only—while the special Majestic Demonstration is going on—a full set of these heavily nickled, copper cooking utensils will be given to every purchaser of a New Majestic Range!
