TAR HEEL SCRAP BOOK

(Continued From Page One.) The book, also indulges in descriptive and informational data regarding these names. A copy may be procured from the Supt. of Documents, Washington, D. C., for the sum of eighty cents.

We have not lamped a copy, but would like to—and incidentally did you know we have a place here in the Old North State yclept Hanging Dog, and likewise one named Maggie? The former is near Murphy, the latter is about ten miles this side of Black Camp Gap—which is reached by a tram road owned by the Champion Fibre Company.

Texas though, we have always thought, obeyed her slightest whim and showed the most hilarious sense of humor, in picking names for her small towns.

Florida has towns sedate enough, named Christmas, Kissimmee and Cocoa. For the most part the Land of Flowers selected names of great beauty which came either from the Spanish or from the Seminole people.

Did you know Miami is a Seminole word which means Sweet Water? Seven extraordinarily fine springs of ancient supply Miami and her sister city, Miami Beach, with a vast abundance of the very purest water. These springs are in a lovely natural grove around which Miami has built a big, beautiful golf course.

When we realize that the ancient Seminoles long, long ago repaired to these springs at certain seasons, and realize that these unbending, unconquered Seminoles were driven finally even from this remote retreat on into the fastness of the Everglades, there to wrest their living as best they could, in a section thick with alligators and at certain seasons inundated, we marvel that we have not met with worse than the sales tax and a several fear scourge of kidnappings.

Color—color—everywhere, says the Rotating Tar Heel, but tell me, have you yet seen a lovelier hue than the perfect turquoise blue sent up by a burning hickory log on a native hearth.
