## Cotton Report

Cotton holds up well, December closing yesterday at 12.70. Spot cotton is beginning to move freely and a big break is looked for soon, as the spinners are not willing to come in to the market at this high level. It has never failed to go below 10 cents between this time and December 1 in any year for the past 20 years. We do not think this will prove an exception. One thing we are glad to learn, the crop in North Carolina is above the average, and the farmers will get good prices, provided, they take advantage of the high market and sell now. If they wait, it will be the same old story—somebody else will get the coin.

### CAMPBELL CREEK NOTES.

Old man hard times took his de-  
parture from Campbell's Creek soon  
last Monday morning. Cotton picking  
got a hustle on him.

Mr. J. W. Mayo is treating his  
house on his Overton lot with a coat  
of paint, which improves its appear-  
ance very much.

Messrs. Charlie and J. B. Overton  
are sick with mumps.

Mr. C. D. Jones went to Vande-  
mere Monday evening.

Mr. Demos Wheaton, of this place,  
is visiting relatives and friends at  
Messie, in Pamlico county.

Our boys continue to go deer hunt-  
ing. Mr. W. H. Mayo has been the  
successful man so far, having killed  
two out of four.

It looks as if the fall Irish potato  
crop is going to be almost a failure  
here.

Last year our county commissioners  
spent considerable money in  
building a road from Campbell's  
Creek to Jones Bay. With a little  
more work Beaufort county's part  
of this road could be completed. In our  
judgment the building of this road is  
a very important matter, by building  
about six miles of road it would con-  
nect the lower part of Pamlico with  
this section of Beaufort, whereas the  
present land route is fifty or sixty  
miles. The citizens of Campbell's  
Creek and this section generally de-  
sire to see this road completed. Let  
Beaufort and Pamlico counties move  
forward one more time and complete  
this good work.

### ENGINEER RESIGNS.

Mr. W. A. Woolard, who has been  
employed by the Crystal Ice Com-  
pany, this city, for the past five years  
as engineer, has tendered his resig-  
nation to take effect September 20,  
by the request of Mr. Woolard, the  
News gives space below to the fol-  
lowing letter of recommendation  
over the signature of Mr. R. L. Bon-  
ner, the manager of the company:

"This is to certify that Mr. W. A.  
Woolard, has been steadily employed  
by the Crystal Ice Company, of  
Washington, N. C., for ever five years,  
and it gives me great pleasure to  
recommend him in the highest terms  
as a most worthy and competent per-  
son to be entrusted with the powers  
and duties involved upon him in the  
general management and care of the  
machinery entrusted to his charge.  
Being strictly temperate in his hab-  
its, thoroughly reliable in every re-  
spect. He can always be depended  
upon to more than fulfill his obliga-  
tions and duties whenever any oc-  
casion for same arises. He is a good  
mechanic and equally as good an en-  
gineer. I will say from my own  
standpoint and experience, anyone  
may consider themselves most fortu-  
nate in securing such a worthy man  
in every respect he is.

Yours truly,

R. L. BONNER,  
Manager Crystal Ice Co.

## STATE NEWS

Condensed Items of Interest hap-  
pening Throughout the State.

The Corporation Commission an-  
nounces that there are in North Car-  
olina 4,407 miles of railway; in-  
creases over last year, 56. The South-  
ern has 1,322; Atlantic Coast Line,  
947; Seaboard Air Line, 617; Nor-  
folk and Southern, 488. The com-  
mission, acting under orders of the  
legislature, notifies the freight depart-  
ments of all railroads to appear Sep-  
tember 15, when it will investigate  
rates, so as to establish the same  
relative rates for North Carolina  
cities, towns and industries from  
North Carolina points as Virginia  
and South Carolina inland points  
have from these ports. The com-  
mission will report to the next Leg-  
islature all facts disclosed by this  
most important investigation.

Never before was there such inter-  
est in good roads as there is at pre-  
sent in this State. Work is being  
pushed on the eastern or capital au-  
tomobile highway route between  
Washington and Columbia. Vance  
county has a large force engaged in  
building its link of this line, part of  
this being quite near the Seaboard  
Air Line railway and in plain view.  
State Geologist Pratt has been and  
is doing remarkably fine missionary  
work for good roads in the western  
counties, and the result of his work  
will be shown at the Asheville good  
roads convention, October 5-7. The  
array of speakers there is certain to  
be a notable one, and including the  
governors of this State, South Caro-  
lina and Tennessee, and perhaps oth-  
er governors, including Georgia; Sec-  
retary of Agriculture Wilson and  
other United States officials. A fea-  
ture will be a discussion of gravel  
and sand clay roads by Highway En-  
gineer W. L. Spoonman. A notable  
railway official, President George S.  
Carter, of the Carolina, Clinchfield  
and Ohio Railway, will be heard as  
will also be Mr. Leonard Tufts, the  
owner of Pinehurst; President L. R.  
Spears, of the American Automobile  
Association, and Industrial Agent  
Richards, of the Southern Railroad.  
Commissioner of agriculture will  
talk about the good roads to the  
farmer.

Two certificates of incorporation  
were filed with the Secretary of State  
yesterday. The Vass Cotton Mill  
Company, of Vass, Moore county, was  
incorporated with an authorized cap-  
ital stock of \$250,000, and will be-  
gin business with \$26,100. Angus  
Cameron, J. A. Leslie, W. J. Camer-  
on et al., incorporators. The Apple  
Gin Company, of Apple, Greene coun-  
ty, filed a certificate of incorporation  
with an authorized capital stock of  
\$10,000, and will begin business with  
\$3,500. W. R. Herring, John C.  
Daniel, and A. R. Darden, all of Wa-  
stonburg, and James S. Bynum, of  
Wilson, incorporators.—News and  
Observer.

For sometime past Greenville has  
had two white fire companies, Hope  
and Volunteer. Hope was the first  
company organized, but at one time  
practically disbanded and the volun-  
teer started. Hope later reorgan-  
ized, and since then the two com-  
panies existed. Looking to a union  
of the companies and an improve-  
ment of the fire department, the  
members of Volunteer company made  
application for membership in Hope  
company, and this union having been  
made, the Volunteer company will  
cease to exist.—Greenville Reflector.

There's Always a "Best Place" in  
Which to Buy It!

Store-competition would be an  
empty phrase, indeed, if it were not  
true that there is always a best place  
to buy a particular thing. If the  
contemplated purchase is of any im-  
portance, the question of where to  
go is of equal importance; and the  
question can best be settled—and  
usually very quickly—by reading the  
ads.

IF ALL OF THE PURCHASES  
YOU MAKE IN THE COURSE OF A  
YEAR were made AFTER CONSID-  
ERING THE ADS, and made—in  
consequence—to "the best advan-  
tage" store-competition would then  
become a valuable thing to you. And  
you would be amazed at the amount  
of money realized as a direct com-  
pensation to you for your labor in  
"reading the ads."

## POMPEIAN Massage Cream

CLEANSES WHERE SOAP  
AND WATER FAIL

Washing with soap and  
water makes the face look  
clean, but it cleans the  
surface only. It does not  
clean out the impurities  
in the skin that make  
it muddy and sallow.  
Pompeian Massage Cream  
goes through the surface.  
It sinks into every pore—  
reaches and loosens all  
foreign dirt and impuri-  
ties that lodge in the  
pores.  
It is the only facial cream  
free from grease and that  
keeps the face free from  
it. Does not—cannot—  
promote the growth of  
hair on the face.
