TOWN TALK

Mr. George W. Bible, of Belhaven, an old member of the craft, is in the city today on business.

Mr. Joe Laughinghouse passed through the town this morning on route to Raleigh.

Mrs. Lafayette Oden, of Belhaven, is visiting her parents, Mr. and Mrs. Jno. Smith, on North Harvey street.

The Perplexities of a Pursued Pup

It's hard to get the better of a "yaller dog," be he large or small. A certain big yellow dog which was sitting on the express truck down at the N. & S. station yesterday afternoon attracted attention by his meek and resigned expression. On the approach of anyone he would put out a huge tentative paw. Indeed, he looked as though it was a usual thing for him to travel that way. But later on, after the train had come into the station was beheld the phenomenon of a hurrying expressman! Yes, two of them, assisted by several shouting colored boys were wildly pursuing the formerly passive pup down Water street. But for naught were made those massive legs, for great creature left his pursuers far behind in a cloud of dust, and all that was left in the hands of the expressmen were fragments of chain and the express receipts and a tag. At this hour the dog has not been captured. He is large and yellow and of benign expression, generally associated with the St. Bernard species.

Milwaukee Gets the President

Milwaukee, Sept. 17.—Extraordinary precautions were taken today to insure the safety of President Taft during his visit to the Wisconsin State Fair. The authorities are so positively that they were not admitting any trouble, but the immense crowd expected at the fair grounds to hear the president's address, orders requiring special precautions were issued. The instructions were that no person should be allowed about the judges' stand, the point from which the president delivered his remarks, who could not be accounted for and who was not personally known to the officials. A special escort was furnished the president while he made a brief inspection of some of the principal exhibits of the fair.

The presidential special reached Milwaukee over the Northwestern road at 5 o'clock this morning. At 8 o'clock the reception committee met the president and he was taken for a drive about the principal streets, all of which were profusely decorated with flags and bunting. Brief visits were paid to Marquette university and the Soldiers' Home. At 10 a. m. the president reached the State Fair grounds, where he was greeted with a presidential salute of 21 guns by Battery A, Wisconsin N. G. The grounds were filled with an immense crowd gathered to hear the president's address. Following the conclusion of his address the president made a brief tour of the main buildings of the fair. In the dairy building he was shown a life-size bust of himself in butter, the work of students at the dairy school of the University of Wisconsin.

Shortly after 11 o'clock the president boarded his private car, which had been transferred to a station at the fair grounds, and the journey to the Pacific coast was resumed.

Cause of Bloody Milk.

Bloody milk may be caused by a variety of conditions. Dr. Schroeder declares that some claim that the cow, fighting flies, kicking and throwing the body to and fro, will tend to rupture the small blood vessels and thus cause the trouble. Others hold that the steady diet of green, succulent food and perhaps the derangement of the blood caused by certain weeds, bring on this trouble. The latter opinion the doctor is inclined to believe, for it has been his observation that many cases can be cured by changing the pasture or changing the feed. "We have cured cases of bloody milk," he goes on to say, "by giving sulphur and saltwater mixed—half and half in the feed. Whether or not this is a sure cure I can not say, but it might be worth trying."

Old Pan Process Bad.

By the old pan process of raising cream in the summer time much of the butter fat is lost, as it fails to rise. The milk is soured by the time little more than half the cream contained in the milk has risen to the surface, and that which has already risen is soured beyond the point where it makes good butter. In the summer a hand separator is needed to get all the cream. In the winter one is needed to get the cream separated from the milk as quickly as possible that the milk may go to the calves or pigs with the animal heat still there. There is no season of the year when the hand separator is not just the machine to have on the dairy farm.

Grow Dairy Feed.

To realize the best profit from dairy cows all the feed should be grown up on the farm.

Wait Till Cream is Rip.

When cream is not ripe for churning you will lose much of the butter fat.

POMPEIAN Massage Cream

CLEANSES WHERE SOAP AND WATER FAIL

Washing with soap and water makes the face look clean, but it cleans the surface only. It does not clean out the impurities in the skin that make it muddy and sallow. Pompeian Massage Cream goes through the surface. It sinks into every pore, reaches and loosens all foreign dirt and impurities that lodge in the pores. It is the only facial cream free from grease and that keeps the face free from it. Does not—cannot—promote the growth of hair on the face. Price 50c and \$1.00 per jar.

of the facts in the case—that electric lights do not smoke up your walls and ceilings and ruin your pictures and bric-a-brac; that electric lights require no matches, thereby avoiding all danger of fire; that there is no smell or smoke with electricity; that electric lights do not consume any of the oxygen in the air, and therefore do not make you feel stupid and "good for nothing" after staying for a while in a closed room where it is turned on?
