exhibit. If a person is exhibiting white Prolific corn, every ear should be as nearly alike as possible. If exhibiting any other variety of corn, observe the same care in having all ears alike.

In making this corn exhibit our desire is to show to the visiting farmers and others attending the Farmers' National Congress that North Carolina can grow good corn. To do this we must exhibit the very best we have.

In shipping, wrap each ear of corn carefully with paper and pack lightly in a box of the proper dimensions so as to not permit the ears to be injured in transit.

For corn exhibits the State has been divided into three divisions, a first and second premium to be given to the best exhibits in each of the three divisions.

A GREAT STATE FAIR ASSURED

Everything Points to the Most Successful Fair in State's History.

The Daily News is glad to notice that everything points to a tremendously successful State Fair this year. We truly believe that this great annual institution will be more instructive and entertaining and more densely thronged during the week of October 18 to 23 at Raleigh than it ever has been in its history.

From what we see in the newspapers and from what we are hearing from various quarters, we base the belief above stated. Cotton is up and most of the farmers of the State are doing well. Official statistics show that North Carolina during the first half of the year 1909 made greater industrial strides than any other State in the Union.

As for the entertaining side of the Fair, Mr. George Harden, one of the State's foremost horsemen, vouches for the racing being the best ever seen in North Carolina.

Among the latter are Kemp Sisters' Wild West Show, which will give many free acts, including the overland stage coach; the Great Davenport, who dash over a slender wire eighty feet above ground on a wheel of fire.

Then the improvements at the grounds; the midway has been maintained in its former glory.

force from and after its ratification. This is a very important matter and the law should be complied with strictly and to the letter.

There will be more special trains than ever before, with the usual low fares and extra pay on regular. The street cars in Raleigh will charge only five cents to the grounds.

Augusta Doctor Shoots Cashier

Augusta, Ga., Oct. 8.—H. W. Shaw, a city physician and a local politician, shot and killed a cashier of the Union Savings Bank, four shots were fired, two taking effect, one in the left hand and one in the fleshy part of the left leg.

DR. BEAMAN BETTER. The many friends of Rev. Dr. Beaman, formerly pastor of the First Methodist Church, this city, will be glad to learn that his condition is rapidly improving.

Shaw surreptitiously ascertained from the bank information that a customer there had a credit to his account. Using this information Shaw garnished the account.

Shaw proceeded to the bank. He met Gray on the sidewalk. Gray moved toward Shaw, Shaw drawing his pistol and firing on the banker. The affair has caused an intense sensation here.
