Incompetency is the Allegation

Richmond, Va., Oct. 21.—Direct harges of incompetency in the Fedwal Department of Agriculture and of disregard of the rules of the bu reau of animal industry in the Pederal inspection of meat, were made by Mrs. Caraline Bartlett Crane, of Kalamazoo, Mich., in an address this afternoon before the American Public Health Association in convention

Mrs. Crane openly attacked the de partment for allegedly misleading the public into believing that the W. L. Vaughan W. A. Thompson meat inspected by Federal officials was passed upon justly and with the best interests of the public at heart. She stated that the standards of health- of animals slaughtered had decreased since the scandal in meat napection of 1906. She quoted from high officials in the department and bureau, giving people the assurance that the meat is always from animals free from disease, which fact she challenged. The matter of her address was taken into consideration by

the convention in executive session.

One of her most startling charges and one which evoked a spirited de-nial from Dr. M. Dorset of the Bio-chemic Department of the bureau of Washington, presented at the meet-ing, was to the effect that the de-partment of agriculture had caused to be issued, simultaneously with the annual rules and regulations, certain "serviceannouncements," which it "service announcements," which it nspectors and packers only. The ininspectors and packers only. The in spectors, she said, were warned no to show or give these "service an ouncements" to any other persons. Replying to Dr. Dorset's refutation

this. Mrs. Crane offered to show hotographs on pages of such pam hlets, which she had taken from : oklet she procured over night.
