STATE NEWS

Condensed Items of Interest Happening Throughout the State.

Hon. Francis D. Winston is now in Baltimore. He goes there at the invitation of the State Democratic executive committee to make speeches in the campaign there in favor of the amendment pending before the voters. He will address the people of Baltimore and in other parts of the State.—Wilson Times.

News has been received here that Ed. Hall, colored, who lived near Navassa, was drowned Thursday night while hunting coots between this city and Navassa. The supposition is that he fell out of his boat and was overcome by the swift current in the river. It was in a remote location and it was not learned here whether the body had been recovered.—Wilmington Star.

While cleaning out an old well near Mr. C. G. Wood's place, below Centerville, a small town near this place, the body of a colored child was found in the well. From the condition of the body it was supposed to have been dead for some time. The coroner left here this morning to hold an inquest over the body.—Charlotte Observer.

Bishop A. W. Wilson, of Baltimore, has announced that the date of holding the N. C. Conference of the M. E. Church South at Raleigh, has been changed from December 1 to November 24. This is on account of the recent death of Bishop Seth Ward, and makes room for others to do his work. The Western North Carolina Conference will meet at Hickory on November 17, with Bishop James Atkins presiding.—Greenville Reflector.

Mrs. Susan Rumley, widow of the Rev. Jno. Rumley, who has been dead for some years, dropped dead Monday night at her home on Marsh street from heart disease. Mrs. Rumley was a lady who was beloved by all who knew her. She leaves two grown sons and two daughters. Mrs. Rumley was born Oct. 8, 1841, being 63 years of age at her death. Funeral services were held on Wednesday at the Ann Street M. E. Church, by Rev. McCracken.—Beaufort Look Out.

A sub station of the Asheville post-office is to be established in the depot section January 1. The station will be located in storeroom No. 372 of the Montford hotel, and will be completely equipped with all postoffice furniture and lock boxes and will receive and deliver mails in its territory almost as if it were independent of the Asheville office. It will start business with two clerks and will later have its own carriers. It will do a general money order and registry business.—Asheville Citizen.

Yesterday afternoon at her home in Jacksonville, N. C., Mrs. Hafford Willis, the wife of a prominent citizen, shot and instantly killed a colored man named Henry Williams. Mrs. Willis was sitting upon the porch and was cleaning her husband's gun when Williams started up the steps. The woman rose and in rising from her seat she in some way released it and the entire load of shot took effect in the negro's face. Mrs. Willis was taken before a magistrate and given a preliminary hearing, but the evidence was not sufficient to convict her and she was released.—New Bern Journal.

AN EXCEPTIONAL GENTLEMAN. "I concede to you," said a man in a discussion on American politeness, "that the Southern man is a gentleman, but that is all." "But I know the Western man is," replied his friend. "Take President Taft; he is from the West, and I say he is an exceptional gentleman." "Exceptional?" snorted the man. "How can he be an exceptional gentleman?" "Well," suavely replied the friend, "I saw President Taft recently get up and give his seat to three ladies!"

Allen's Minstrals, after a year's absence, have returned to the city. They opened on Lee Circle last night to an immense audience which packed the tent to its utmost capacity and the only reason there wasn't more was because there was no more room. Mr. Allen tries to give the public the worth of its money, and judging from the tumultuous applause last night everyone seemed more than satisfied. The company will remain at Lee Circle the remainder of the week.—New Orleans Picayune.

WE DIE BY WHAT WE DON'T DIGEST.

That we die by what we digest, not by what we eat is a truism; and it is equally true and equally important that we live by what we digest and die by what we don't digest. Every morsel of food consumed beyond the physiological needs of the system must putrefy more or less, and become a source of auto-intoxication, self-poisoning. This is admitted by all scientific authorities to be the fundamental predisposing cause of disease—"retained waste."

This is not denying the importance of mental influence nor the existence of germs, but worry, anger, fear in general are determined largely by the physical condition, and there is no soil for the propagation of any germ in blood not poisoned by fear or by the waste from superfluous, undigested food. Thorough mastication avoids putrefaction in the colon by obviating the necessity for bacterial growth, and thorough tasting determines when enough food has been eaten, and simple food with whole-some thought simplifies digestion.

CHAPTER MEETING.

There will be a meeting of Moyer Chapter, No. 53, R. A. M., at the Masonic hall this evening at 7:30. All companions are requested to be present.

COTTON MILLS CLOSING DOWN

Some of the Largest in North and South Carolina Are Stopping.

Charlotte, N. C., Oct. 23.—Yesterday morning some of the largest mills in the piedmont section of the Carolinas inaugurated a one or two weeks' curtailment and if conditions do not improve it is likely that this period of curtailment will be considerably extended.

The first North Carolina plant to inaugurate the curtailment plan is the Tarboro mill, and the Henrietta mills, the biggest plant in the State, employing three thousand operatives, will follow suit. It is probable that the Carolina mills, under the same management, will shut down in a few days.

The seven big mills in Spartanburg county, South Carolina, shut down last night. These are the Whitney, Spartan, Clifton, Glendale, Arkwright, Lockhart and Pacolet. They consume about two hundred thousand bales of cotton annually and employ ten thousand operatives. The mills have run two weeks on five days' time, but the present shut-down is complete and for an indefinite period.

There is now a feeling among the manufacturers, that the curtailment proposition, having been sanctioned by the American Cotton Manufacturers' Association, can be put in practice by the mills without thereby injuring their standing in the least, and as it has been pretty generally agreed that curtailment is the business-like course to pursue, the movement is gaining strength as it progresses.

Keep the Kidneys Well

Health is Worth Saving, and Some Washington People Know How to Save It.

Many Washington people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. The following statement leaves no ground for doubt.

J. Savage, Church street, Tarboro, N. C., says: "For some time my kidneys were disordered, the passages of the secretions being scanty and painful. I had sharp pains across my loins and if I stooped suddenly, sharp twinges caught me across my back and I could hardly straighten. After using a number of remedies without obtaining relief, I procured Doan's Kidney Pills. They removed the aches and pains in my back and regulated the passages of the kidney secretions. I am pleased to recommend Doan's Kidney Pills in return for the benefit I have derived from them."

For sale by all dealers. Price 50 cents.—Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.
