Of Hamburgs, Embroideries, etc., at cost, on Thursday and Friday, Oct. 21 and 22. Don't forget the days.

T. W. PHILLIPS & CO.

It's Fuel that's Expensive—Not the Stove

A Cheap, putty-jointed stove will waste more than its Original Cost in Fuel every winter.

As you know, fully one-half the carbon available for heat in soft coal is gas—the entire gas supply used for fuel and illumination in many cities and towns being made from common soft coal. The ordinary stove in burning soft coal allows this gas-half of the fuel to pass up the chimney unburned, thus wasting it as a heat producer.

Cole's Original Hot Blast Stove, by means of the patented Hot Blast draft and other patented features, making air-tight joints without the use of stove putty, distills this gas from the upper surface of the coal, utilizing it as a heat producer along with the fixed carbon or coke in the coal, thus burning all the coal. This is why

Cole's Original Hot Blast

Saves the Dollars and makes a ton of common \$3.00 soft coal or lignite do the work of \$9.00 worth of hard coal.

Your old stove and imitation Hot Blast are not air-tight, do not save the escaping gases and do not give you a warm house at night, because they are made with putty joints. You cannot afford to say to yourself, "My new stove will save me money." The price of a new stove every year. Not only that, but on top of the cost is the unsatisfactory result it gives. It is always out the coldest morning.

Even Heat Day and Night—Fire Never Out

Cole's Hot Blast is so perfect in construction that fire will keep all night, and when the draft is opened in the morning will burn two or three hours with the fuel put in the night before. No other stove does this. Fire, therefore, never goes out, and the rooms are kept at an even temperature all the time. Burns hard coal, soft coal, slack, lignite or wood.

OUR GUARANTEE

- 1—We guarantee a saving of one-third in fuel over any lower draft stove of the same size with soft coal or slack.
- 2—We guarantee Cole's Hot Blast to use less coal for heating a given space than any lower burner made with same heating surface.
- 3—We guarantee that the rooms can be heated from one to two hours early morning, with the soft coal or hard coal put in the stove the evening before.
- 4—We guarantee that the stove will hold fire with soft coal 24 hours without attention.
- 5—We guarantee a uniform heat day and night with soft coal, hard coal or lignite.
- 6—We guarantee every stove to remain absolutely air-tight as long as used.
- 7—We guarantee the feed door to be smoke and dust proof.

These guarantees are made with the understanding that the stove be operated according to directions, and set up with a good draft.

For Hard Coal—Saves Half

The extent of unburned gases in hard coal is shown by opening the magazine cover of a base burner when the extra oxygen supplied fills the entire stove with flaming gas.

The fact that no stove putty is used to make air-leaking joints, gives you perfect control over the draft on Cole's Hot Blast. The slow, economical combustion, and the large, positive radiating surface make it the greatest fuel-saving, hard coal stove made.

Would You Lose \$50.00 in Fuel to Save \$1.00 on the Cost of Your Stove?

That is what you do when you buy a cheaply constructed, putty jointed, showy made imitation stove. Like all successful inventions, Cole's Original Hot Blast has many inferior imitations. Avoid them. They all lack the patented features and careful construction, which make the Original Hot Blast a great success.

They do not have the same heating surface, which makes them worthless as fire burners. See the issue "Cole's Hot Blast from Chicago" on the feed door. None genuine without it.

WASHINGTON, N. C.

COACHMEN-TURN CHAUFFEURS.

Most Students in Motor Schools Have Sat on the Box.

The instructor of one of the largest schools of motor instruction in the country says that 50 per cent of his pupils are old coachmen sent by their employers to learn how to drive the new carriages. They make good chauffeurs.

The simple reason is that while they may not be blessed with a great amount of mechanical knowledge they know what a vehicle is, what it is for and that it should be treated seriously.

The same testimony, according to the Review of Reviews, is given by one of the large automobile manufacturing companies which has established a chauffeurs' school. This school makes chauffeurs out of any kind of material that purchasers of cars may ship in.

Most of the material, and the best in a general way, is composed of coachmen, old and young. They have had experience in caring for the carriages. They know how to drive on city streets.

Study Mysteries of the Air.

Man has been born of woman for centuries upon centuries, yet he is as little wise to the control of weather conditions as he is to the truth of what comes after death. Must it be ever so? Is prophecy, even as it may some time be perfected, to remain the ineffective substitute for the power to regulate?

The air throbs with wonders. It affords the medium of wireless telegraphy, perhaps of telephony. The mystery of how it absorbs and restrains or lets loose the elements that make for storm or sunshine is infinitely better worth attention than are the short-comings of a forecaster. Let some earnest seeker find a key to the riddle and see how the farmers and sailors and barefooted fishermen and master-bells and all the sons and daughters of time sit up and take notice.

The Stock Gambler's Voice.

As a rule, great manipulators have high, thin voices and take a distrustful view of securities. Their vocal peculiarity must be left as an arbitrary fact; as to their bullish slant of mind, it is easily accounted for. It comes of the fact that their services are more often solicited by men having something to sell than by men wishing to buy—in the ratio of about five to one. Nevertheless there is no instance of a bear manipulator having died rich; it is a bull's country.—Everybody's Magazine.

The Prudent Man Foreseeth

the evil and provides his family with a jar of Vick's Croup & Pneumonia Salve and nips these dangerous troubles in the bud. Best remedy ever offered the public, and money back if not delighted. 25c, 50c and \$1.00 Jars.

STATE NEWS

Condensed Items of Interest Happening Throughout the State.

Persistent reports that L. D. Robinson, of Wadesboro, will resign the solicitorship in the Eighth judicial district are having the effect to bring out into the open a number of aspirants for this plum. It is learned that Lee county has endorsed Hon. A. A. P. Seawell, of Jonesboro, and that W. D. Siler, of Chatham, and R. W. Lemmond, of Union, are also getting ready to try for the appointment.—Greensboro News.

The Greenville tobacco market was today visited by several officials of the Imperial Tobacco Co. and the American Tobacco Co. Among them were H. W. Gunn, of Bristol, England, a director in the Imperial; G. W. Wells, of Bristol, vice president; E. W. Howard, of Danville, Va.; E. S. Cayton, resident U. S. director, of Richmond, and Robert Haskins, traveling representative, of Richmond, of the American Co., there was T. J. Walker, manager of the Richmond branch, and his secretary, Mr. Williamson.—Greenville Reflector.

The many friends in this city of Mr. Louis Leiberthorn, of Richmond, Va., will regret to learn of his death in that city Monday night. Mr. Leiberthorn was a salesman for the firm of Leiberthorn Bros. and while out on his last trip was taken ill in this city with an attack of typhoid fever and was confined to his room at the Gaston for several days. He sufficiently recovered to go to his home where he had a relapse which caused his death.—New Bern Journal.

A letter has been received in this city from Mr. Cecil Brothers, son of Dr. Brothers and who was on one of the Florida Keys during the recent destructive storm. Mr. Brothers writes that he and about four hundred others were on a small island about the size of a town square awaiting the storm of which they had been given warning. Finally, one of the men said "Here it comes," and a tidal wave could be seen approaching the island which swept entirely over it, submerging all the land about three feet except the concrete house where all took refuge. Several barges were swept out to sea by the wind which blew ninety miles an hour. Mr. Cecil Brothers is a Wilson boy and was here last summer.—Wilson Times.

Chief C. S. Roberts, of the sanitary department, has been looking into the ordinance governing the handling of meats, vegetables, etc., by dealers to find out if they are allowed to expose such articles on the outside of their places of business where they catch all the dust, and germs coming their way, and he has found a section which, under his construction, covers the case by placing a fine of \$10 on all dealers who offer to sell for food any meat, vegetables or other provisions exposed and in the fresh state in a house or elsewhere with unclean and unsanitary surroundings.—Charlotte News.

Hon. Samuel M. Gatts, of Hillsboro, was yesterday named by Governor Kitchin as the successor of Hon. Jones Fuller, of Durham, as the solicitor of the Ninth judicial district, the position having been vacated by Solicitor Jones Fuller who goes to Boston, Mass., as the attorney for the United Drug Company, the Rexall Company. Mr. Gatts received strong endorsements throughout the district and his appointment by Governor Kitchin is one that will be received with great satisfaction by his many friends. He is an able lawyer, a man who is regarded as one who will fill the position with the greatest satisfaction.—News and Observer.

The report came into the city last night of the murder of two men and the serious injury of a third in a poker game at a lumber camp at New Chills, just over the State line beyond Murphy. The details of the shooting

taken to Andrews early yesterday morning after the affair happened. The report as heard on the streets states that six men were engaged in a poker game at the camp at a late hour on Monday night. Two of these men were the Bateman brothers, of Lincoln county and a man from Cherokee county by the name of Nelson was a third member. The man who did the shooting, according to the report, was Pat Lovin. The other two members of the party are not known. It is understood that a dispute arose in the game between Lovin and the Bateman boys over a deal in revolvers which had been exchanged, and when they were returned the shooting began. One of the Bateman boys died instantly, and the other lingered for several hours. In the second mix-up which followed soon afterward Nelson was stabbed, but it is thought he will recover.—Asheville Citizen.

CONFESSES TO ASSASSINATION ON THE GALLOWAY

Fort Gaines, Ga., Oct. 27.—By Bynum, colored, consisted of the murder of John P. Bynum, was hanged here today at 11 o'clock. Bynum made a full confession on the gallows of the crime, which was a midnight assassination. The hanging took place

Board springing the lever. Bynum's neck was broken by the fall and in

AGENT BREAKS ARM.
 Mr. J. L. Hassell, agent for the N. & S. at Greenville, was so unfortunate as to break his arm at the wrist this morning when he jumped for the platform of a moving train. The injured man was hurried to Washington and taken to the Washington Hospital.

MRS. JORDAN DEAD.
 Mrs. Francis E. Jordan died at her home in Long Acre township today about 12 o'clock, age 56. She was stricken with paralysis this morning about 4 o'clock and never rallied. The deceased was the mother of Mr. Claude E. Jordan, of this city. The time for the funeral will be announced later in these columns.

WHAT WILL YOU GIVE FOR CHRISTMAS?
