The Union Meeting a Record Breaker for City--People Greatly Aroused

at the Methodist Church is destined to be a record breaker. Last night every pew was filled and the aisles reowded, all eager to again hear Dr. Black. Prior to the sermon each

The union meeting now in progress; each morning from 11 to 12. It is specially desired that more of the business men of the city turn out to the morning services.

The sermon last night was from the text, "Prepare to meet thy God," and what a sermon it was. No evening a song service is conducted, and what a stronger appeal has ever been made under the direction of Mr. Burr. Last stronger appeal has ever been made in Washington. The speaker seemed to throw his whole soul in his theme: ing and soul inspiring. Evangedist this backed up with his magnetic manner, held his large audience best singers, rendered music thrillings and soul inspiring. Evangedist this backed up with his magnetic manner, held his large audience him wherever he goes and the choir and others are just beginning to familiarize themselves with the beautiful songs of Zion, and they are singing as never before. Mr. Burrlast night sang most touchingly and sweetly, "Prepare to Meet Thy God."

At the prayer meetings held in different parts of the city yesterday afternoon, it was reported last night that there were 120 in attendance. It is to be hoped this number will be increased today. After the services last night there was a meeting of the business, men, and efforts will be made looking toward an increased attendance upon the services condition.

SHIP EXCEEDS 21 KNOTS

Splendidly on Her Trial Trip.

Rockland, Me., Nov. g .- The battleship North Dakota, the second American Dreadnought to be tried on the Rockland mile course, arrived today in readiness for her trials, which unomeially reported that the fastest of these runs exceeded 21 knots, although the full steam pressure was not being used, and that she easily will exceed the contract requirements to f21 knots, as did her sistership, the Delaware, tried here two weeks ago.

Delaware, tried here two weeks ago. of 21 knots, as did her sistership, the Delaware, tried here two weeks ago.

The turbines worked in first class condition, both during the runs and on the trip to Penobscot Bay, and the ship showed no vibration. The big fighting machine jogged along in the run to this port and made use of a fittle of the fuel oil, partly in the of an experiment, and it worked \$at-isfactorily. Fuel oil with not be used the standardization trial, which will be held tomorrow, but as in the case of the DelawaFe, it will be used on a two hour test afterward.
