LET THE NEWS FOLLOW.

Parties leaving town should not fail to let The News follow them daily with the news of Washington fresh and crisp. It will prove a valuable companion, reading to you like a letter from home. News at the seashore or mountains will find The News a most welcome and interesting visitor.

MUST BE SIGNED.
All articles sent to The News for publication must be signed by the writer, otherwise they will not be published.

SOMETHING TO THINK ABOUT.

Washington business men, remember to think about the year that is closing about Christmas either.

Why do our people persist in purchasing inferior merchandise to the detriment of those at home, when the identical article can be purchased here for as cheap, or for as good, and often for out of ten cents more? It has always been an enigma to the Daily News. Washington can never hope to thrive as it should until this attitude, for it is one, pure and simple, of indifference with. We have had many a time in the past when the business men of this city have been so patriotic that they have here, in support of our industries, and always with interest, and with the understanding that they were not only supporting the industry, but also the people who were producing the goods. It is a patriotic and deliberate act to support the industry and the people who are producing the goods. It is a patriotic and deliberate act to support the industry and the people who are producing the goods.

What business man who will not do what he can to support his country?

Why can't the people of our city do this? They could make a better provision for the New Year. Renovate your car and then pay some attention to the community in which you live, where you secure protection for your wife and family.

Space forbids us to mention all the firms of our city, but, to particularize, we would call our readers' attention to the letter of Mr. W. S. Rhodes. We have heretofore that one as the head to be found anywhere, this is the opinion of those who use it and are competent of judging, yet, the Daily News hopes that a great many of the citizens will not purchase their home liquors, but prefer bread from some other source. In we do not do this, what are we doing? We are doing what we can to destroy an industry of our town, one which would thrive and flourish if we would allow them. Are we not doing this in our native land, in our own country? "Give us some out of Nazareth!"

The people of our city, in the North Carolina, do not support our industries, and do nothing to help them. They are doing what we can to destroy an industry of our town, one which would thrive and flourish if we would allow them. Are we not doing this in our native land, in our own country? "Give us some out of Nazareth!"

All work together for Washington and its every interest, then we can all boast of a town thriving, going ahead. Unless we do, it never one.

THE NEW ELECTRIC LIGHT

A practical demonstration of illuminating engineering will be given at Dr. Taylor's Drug Store on Main Street every evening between the hours of 8 and 10 o'clock.

The municipal electric plant has engaged the services of Mr. J. Norton Hall, of the Westinghouse Co., to carry out these demonstrations for the benefit of our citizens, proving to them that by the use of certain electric lamps their bills for general illumination will be greatly reduced.
