When the originators of this sys tem found themselves threateand they promptly surrendered—all save one. This one turned revolutionist, with the result that an army of severa! thousand men was soon in the Beld and Bluefields and the entire eastern coats of Nicaragua conquered.

Zelaya Sees the End That is the view of the situation as ARE CLEARING on the isthmus, where, to be sure there are many Nicaraguans natnrally very strongly opposed to the try. They are of the opinion that Ze laya sees the game is up, and is anxious to make his departure in safety from the republic. He would much rather stand in the eyes of the world as having been forced out by the United States than by his own people however; this is why he has provok-ed reprisals by the brutal shooting of Cannon and Groce.
