THE TURNING POINT.
 In all lives, the highest and hallowed, there is a crisis in the formation of character and in the vent of disposition. It comes from many sources and from some which on the surface are apparently trivial. It may be a book, a speech, a sermon, a great sentiment of a book of philosophy. But the result is the same—a sudden revelation in connection of our secret purpose and a recognition of our perhaps long shadowed but now material conviction.

Nature's Fishes of Fame.
 Fancy and imagination are at a discount, and our young Gradgrinds want strict facts. It was different years ago, when boys delighted in "The Island Home" even though the author of that desert island story made the albatross come up from the depths of the sea, a beautiful glittering creature with fins and scales, and described a battle royal between a sperm whale and a thrashing shark and swordfish. Again, how popular was "The Swiss Family Robinson," in spite of the fact that in their wonderful island were found a lion, a polar bear and a kangaroo, and the whole family, though armed with guns, were blockaded for days by a sea constructor.—London Outlook.

Washington and Idaho To Go Dry
 Spokane, Wash., June 29.—Boyd P. Doty, head of the Anti-Saloon League in the State of Washington, and William J. Herwig, superintendent of the league in Idaho, declare that both commonwealths will be "dry" before the close of 1911. The former said also that the province of British Columbia will be saloonless within a few years, adding that then the only "wet" border of the State will be the Pacific ocean. They expect the liquor interests to make a hard fight, but believe that do candidate for the legislature will take a chance against the voters. Mr. Doty says that the league needs nine senators to win this year, while Mr. Herwig claims that only 100 saloons are left in Idaho, where 18 of the 23 counties are dry. Boise is the only one of the 13 cities in the State having a population of more than 500 that is in the "wet" column, he said, adding "and 250,000 of the estimated population of 300,000 live in "dry" territory. The league will endeavor to get the next legislature to outlaw all saloons."

 Those teachers who attend a reputable summer school for teachers will not be required to attend the institute.

A Woman's Great Idea
 is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and Kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion, good health. Try them. 50c. at Dr. Hardy's Drug Store.
