Nowadays the Tharksgiving broclamation of the state and national executives are brief compared to what they were in the early days of our republic. In the case of the latter he doesn't foreshadow his forthcoming annual message as was somewhat the vogue in President Washington's time. This is seen in the Thanksgiving proclamations is need by our great and good first president in the early part of the year sued by our great and good hist pre-ident in the early part of the year 1795, in which he appointed Feb 19 as "a day of public thanksgiving and prayer." The father of his country" was then 63 years of age and was serving his sixth year as president. It was a long document and covered quite a number of points. Of these,

In the preamble he mentions, as and after considerable additional the first subject, "demanding the public attention on this solemn occasion, our exemption from a forwar" and next proposes, as "an ob ject of gratitude" in the "increasing exemptions from a foreign war. traveled rapidly through the busi- Which propositions evidently reness district, hurling rocks through late to the settlement, through spethe windows of the American build-

FARMERS' OBJECT LESSON.

Increased Yield Per Acre Should Be Their Objective Point. If the man who makes two blades of

grass grow where only one grew be fore is a public benefactor, as the fore is a public benefactor, as the philosopher said, the Hon. Martin V. Calvin, secretary of the Georgia Stats Agricultural society, is entitled to still higher praise. Since he began to farm in 1878 he has been working to induce southern farmers to center their thoughts and energies on "a larger yield per acre at smaller cost of pro-duction."

In a recently issued booklet, from which the accompanying picture is taken, Mr. Calvin said:
"A year ago I instituted a compari-

son between the corn production of the nine cotton states and nine eastern and western states. The figures used ciated to the gross production of corr in those states. It was shown that the nine cotton states produced millions obushels more corn than the grant cas ern and western states mentio
