Newsy News as Told To the News Readers Of Neswy Points

JAKEVILLE ATOMS.

(Being a candidate the Jakeville Atomizer has got to make some speeches. Like the other candidates he can't make a speech but can make a noise. For obvious reasons his speech is very short.)

Feller Citizens: I am running for office. Am running because I can't get there by walking. Men used to walk into office—on their merits—but that day is past. Eureka!

My object is neither to parry politics nor to introduce new and needed legislation. I shall attempt neither of these things, because I want to be both popular and prosperous. My object is this: I want to be honored by my countrymen; I want to lie in the shade of the political cocoon tree; I want some of the oily nuts that the monkeys are throwing down. Pro bono publico.

Of my qualification I am not ashamed. I can use a stub pen, but not a stub scythe, with that sweeping whole arm movement which inspires confidence and carries a suspicion of ability; I can mix hot air and borrowed phrases so cleverly that one passes for oratory and the other for statesmanship; I know how to stand in a group of prominent men with my feet thirty-six inches apart, with head thrown back, and abdomen protruded until it is the most conspicuous part of me. Of my abdominal sufficiency I am especially proud, for I have observed that a big bay window has more to do with success in politics than a big head. Excelsior!

My record is above reproach. When as a boy I used to go fishing on Sundays, I always carried home the biggest string of fish; when there was a barrel of hard cider in my uncle's cellar I knew how to get all the boys in the neighborhood down there and back without getting caught. On these occasions my leadership was supreme and my popularity immense. Since I have become a man of affairs I am surprisingly clever. Once upon a time two neighbors had adjoining watermelon patches. One neighbor had an exceptionally large and juicy melon which grew within ten feet of the line. The other neighbor told me if I would help him move the line eleven feet over on the other fellow's side he would give me half of the melon. I pulled the job off beautifully, and then we pulled the melon. Of course somebody raised a howl, but it did not disturb me; for I looked upon it as a legislative act against which an humble citizen had no right to prevail. Prosperity.

NEWS FROM SMALL.

Cotton picking is on now in full blast, but the crop is not as large as last year.
Mr. Bryna Scott and Miss Bettie Dixon have been visiting in Pamlico county they were accompanied by Misses Amanda and Grace Scott and Mr. Benj. Dixon.
Mr. Raymen Gaskins and Miss Lillie White, were on our streets smiling at each other Sunday p. m. and the other sporting couples were too numerous to mention.
Mr. H. A. Gaskins, of Pamlico, is visiting at the home of his cousin, Mr. B. D. Rowe. He is an ex-Confederate and highly respected citizen.
Mr. W. J. Harris is preparing to build a residence at this place. Let the good work go on.
Messrs. B. D. Rowe and T. L. Hardy made a business trip to Belhaven last week.
I think our candidates have decided to go to work as we don't see them on our streets much lately.
You just ought to see Mr. B. B. Thomson selling goods for Mr. E. C. Capton at Small. I tell you he is a hustling clerk.
Mr. J. A. Hardy and Mr. J. K. Haladix have both been renominated to succeed themselves so you see some of our candidates can wear smiles.
Uncle Bill Dowdy is still wearing that broad grin we wrote about some time ago he is having his cotton picked.
Now we wish to thank Jakeville Jake for the very kind and flattering remarks he made about Small and to assure him that he is on the right track and if he can't make a public speech he can write some very good advice which ought to be taken by every section of our county, as our

future depends on how we educate the rising generation. Yes, we need able speakers who can shake our people as the dry bones in the valley were shaken and I believe if they could once be shown the necessity of an education they would rally to its support with the zeal of a crusader, and if Small has been a pioneer in the work we are proud of the fact and we are going to push on, but we would love to know that every section in our county was working side by side with us and not dragging on behind. We want to live to see the time when every white boy and girl will be in some good school at least six months in the year. Jake, come to see us and if you can't make a speech we will fix you a good place to sit down and will give you a good time anyhow. Write some more, maybe you will get the indifference out of somebody.
