

Heavy Corduroy

Colors Navy Blue, Brown and Garnet, 30-inch wide, - 75c Yd.

J. K. HOYT,

Ag't. Pictorial Review Patterns.

FIRE MONDAY MORNING OF THIS WEEK.

Destroyed a dwelling in Scotland Neck. The newspaper report says: "There was no insurance on either the house or the furniture, the insurance having lapsed a few WEEKS AGO." Are you certain about your insurance? If not, phone 59 and be made certain.

WM. BRAGAW & CO.,

First Insurance Agents in Washington, N. C.

Eastern Carolina

Teachers Training School

A State school to train teachers for the public schools of North Carolina. Every energy is directed to this one purpose. Tuition free to all who agree to teach.

Full Term begins September 24th, 1912.

For catalogue and other information address,

ROBT. H. WRIGHT, President,

Greenville, N. C.

NOTICE

Notice is hereby given to all persons that the partnership heretofore existing between the undersigned F. P. Whitley and M. Cherry, doing business as "Whitley & Cherry," has this day been dissolved. F. P. Whitley having sold his interest in the said business to D. W. Bell. The business will hereafter be conducted by the said D. W. Bell and D. W. Bell with whom all persons indebted to the said partnership should settle.

This September 26th, 1912.
F. P. WHITLEY,
M. CHERRY.

NEVER THAN SPANKING

Spanking does not cure children of bad habits. There is a constitutional cause for this trouble. Mrs. Summers, Box 10, Ure Dame, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

WHY YOUR

LIGHTING BILLS ARE HIGHER IN THE FALL AND WINTER THAN IN SUMMER.

More Evenings at Home. More Evening Entertainment. More Rooms Lighted. Back from Vacation. Late Bedtime. Dark Mornings. Evening Indoors. Early Twilight.

Washington Municipal Electric Plant.

Bicycles! Bicycles!

New Bicycles \$15 and up. We are agents for the Rayco, Standard, Bux Johnson, Columbia, Rambler, Emblem National and Dayton Bicycles. Sold for cash or on time. We also carry a full line of repairs at all times.

Butter	90c. to \$1 bus.
Field Peas	\$1 to \$1.25 bus.

TWO BIG ISSUES, SAYS COLLIER'S

The Tariff and the Proper Treatment of Monopolies.

WON'T TIE TO ROOSEVELT

"Actively Disagree" With His Views About Trusts and "Wastes of Competition" and Supports the Candidacy of Wilson and Marshall.

Collier's is out for Wilson and Marshall. It refuses to support Theodore Roosevelt, plus George W. Perkins, Elbridge H. Gary and the rest of the steel trust-harvester trust magnates.

Its open opposition to the third term ticket was indicated in the issue of Sept. 14. In the issue of Sept. 21 its reasons for espousing the Democratic cause are clear and forceful.

The leading editorial, "The Wastes of Competition," says:

"More and more the campaign is coming down to two pressing issues, the tariff and the proper treatment of monopolies. Collier's actively disagrees with the view of monopoly being urged by Messrs. Roosevelt, Perkins and Gary.

"They talk a great deal about the wastes of competition. The necessary wastes of competition are relative. Insignificant, and the wastes of unfair and destructive competition are wholly unnecessary. They will be largely eliminated when competition is regulated.

"The La Follette-Lenroot and the Stanley bills to perfect the Sherman law and the Newlands-Cummins proposals for an interstate trade commission are all directed in part to that end. The remaining wastes of competition may be likened to the wastes of democracy. These are obvious, but we know also that democracy has compensations which render it more efficient than absolutism. So it is in industry. The margin between what men naturally do and what they can do is so great that the system which urges men on to effort is the best system.

"The necessary wastes of monopoly, on the other hand, are enormous. Some of these can, of course, be eliminated by regulation. An efficient interstate trade commission, acting under appropriate legislation, could put an end to much of the oppression of which trusts have been guilty. It could prevent just discrimination. It could prevent ruthless and unfair use of power; but a government commission would be powerless to secure for the people the low prices commonly attendant upon competition.

"As no means exist for determining whether greater net earnings are due to greater efficiency in management or to excessive profits, large net earnings would be followed by compulsory reduction of prices, which in turn would create a sense of injustice suffered, paralyze individual enterprise and produce unprogressive, slipshod management. The attempt to secure low prices through price fixing would prove as impotent as the statutes which have sought to protect the public in railroad rates by limiting the dividends.

"The interstate commerce commission has been invoked as an argument in favor of licensing monopoly. That commission has stopped many abuses; it has practically put an end to corrupt and corrupting discrimination in rates; it has protected the shipper from oppression and arrogance and injustice; it has prevented unreasonable advances in rates; but it has secured comparatively few notable reductions in rates, except those involved in stopping discrimination between persons, places or articles. It has been powerless to reduce operating costs, and greater reductions in rates can come only with reductions in the cost of producing transportation. The injustice and corruption attending the earlier railroad period were extremely serious. But we must not forget that the sweeping reductions in American operating costs and rates belong to the earlier period of competition among railroads. In the ten years from 1889 to 1896, while competition among the railroads was active, the freight rate per ton per mile was gradually reduced from .941 to .724. The years 1899-1900 marked the great movement for combination or 'community of interest' in the railroad world as well as in the industrial world. The freight rate per ton per mile began to rise. In each of the eleven succeeding years it was higher than in 1899, and in 1910 it was .763.

"The deadening effect of monopoly is illustrated by the arrest of invention. When the shoe machinery trust, formed in 1890, resulted in combining, directly and indirectly, more than 100 shoe machinery concerns. It acquired substantially a monopoly of all the essential machinery used in bottoming boots and shoes, as well as many vices machines. It believed itself unassailable, and shoe manufacturers had come to regard their subjection to the trust as unavoidable. Nevertheless, in 1911 the trust found its prestige suddenly threatened and its huge profits impelled. It was confronted with a competitor so formidable that the trust, in flagrant violation of law, paid \$5,000,000 to buy him out. Thomas G. Plant had actually succeeded in developing in about five years, while the trust was solid from monopoly, a substantially complete system of shoe machinery which many good judges declared to be superior to that of the trust.

"George W. Perkins, apostle of the economic and social efficiency of monopoly, quoted to the senate committee on interstate commerce the statement that:

"The corporations that Mr. Edison's business inventions had made possible were today capitalized at \$7,000,000,000."

"The inventors' guild, an association in which Mr. Edison is naturally prominent, said in a memorial addressed to

For Children

While we always keep in mind the grown-ups we never forget the children. We call attention particularly to Woolen Norfolk Suits

Sweaters and Coats.

We love to put a nice pair of Shoes on the little tots, so give us a chance. Our affection for the little folks compels us to make prices that will get them the goods.

James E. Clark Co.
THE HIGH-ART CLOTHIERS.

THE PRESIDENT:

"It is a well known fact that modern trade combinations tend strongly toward constancy of processes and products and by their very nature are opposed to new processes and products originated by independent inventors and hence tend to restrain competition in the development and sale of patents and patent rights and consequently tend to discourage independent inventive thought, to the great detriment of the nation."

FIND A USE FOR SWEEPINGS

Street Refuse Makes Good Fertilizer If It Is Quite Free From OIL.

The United States department of agriculture has been conducting elaborate experiments to ascertain the value of street sweepings as a fertilizer. J. J. Skinner and J. H. Beattie of the bureau of soils tried samples collected in various ways upon wheat, corn and radishes and found that street sweepings were best, but not nearly so good as well-rotted stable manure; that machine sweepings were about one-third as good as hand and that decomposed sweepings were almost useless.

The reason for this was that the sweepings contained much lubricating oil. The experimenters made tests of sweepings from which the oil had been extracted and found that both hand and machine sweepings produced as good results as stable manure, while the decomposed sweepings were not far behind.

The department issues a bulletin warning farmers and gardeners that sweepings from which the oil has not been extracted will eventually impair the productivity of soil, unless through drainage the oily material is drained off or changed.

TRAINING THE YOUNG TREES

Work is More Needful Than Pruning in Orchard to Keep Them in Form and Balanced.

(By W. J. GREEN.)

Training the young orchard is more needful than pruning, and should consist mostly in shaping the trees or keeping them in form and properly balanced. Very often the side opposite the direction from now which the prevailing winds come, becomes heavier than the side towards the wind, and the removal of some of the branches and heading in of others becomes necessary.

Some shoots become too rampant and need checking to preserve the balance of the tree and others can be bent and tied to fill the open spaces.

Training Tree to Grow.

Work of this kind and the removal of water sprouts may be done in the summer. A bushy, or clustered habit of growth, is not uncommon even in quite young trees, and needs to be corrected by the removal of surplus branches.

For Tree Wounds.

In California the following mixture was used on trees three years ago and is still in good condition. One part of crude petroleum to three parts of resin; warm in separate dishes, mix and apply warm to cuts made by pruning or by cultivator injury. While this mixture is not better than grafting wax, it is much cheaper and is worthy of trial.

Neither electric currents nor one's neighbor's chickens should be allowed to roam at large.

Girls look as though they would have to grow a lot in order to fit their new fangled baggy overcoats.

Meanwhile other shaky dams holding back water that might destroy towns should be braced up.

An amateur has no business trying to fly. Let him hang his hat on a hanger, but don't go near the aero.

Edison is under the fire of the Germans because he says they drink too much beer. He might invent a substitute.

New York's death rate has reached a new low mark. We congratulate that city upon being such a poor place to die in.

A burglar who coughed like a motorcycle robbed a garage. What could he do if he were trying to rob a round house?

Yes, Claribel, as you say, the duke of the Abruzzi must be a very domestic man, since he has been sweeping the seas.

Since the duke of the Abruzzi has become such a popular hero in Italy they ought to let him marry the girl he wants.

Earle Ovington is going to try to carry mail by aeroplane from the Atlantic to the Pacific coast. It is hoped that he will assume no needless risks by reading post-cards on the way.

It is reported that women are going to wear smaller hats this winter. The milliners must have discovered that some of the women had big hats that were as good as new left over from last winter.

One of our correspondents wants to know if she is too old at twenty-two to take up the study of music. She is about twenty-two years too old to attack some of the popular songs with satisfactory results.

Washington has a new fashion so far as its cats are concerned. They are shaved in hot weather, and then they are homelier than even the singed ones.

FOOTBALL NOTES.

Wisconsin will close the season with a game with Iowa instead of Chicago, as has been the custom for some years.

The playing of Halfback Philoin, of Yale, resembles the work of his older brother, Steve Philbin, the old Eli wonder.

Sam White, the former Princeton star, who beat Harvard and Yale last year, is coaching the Tigers in picking up a loose ball.

The hoodoo of probation that has been hanging over Sam Felton's head since College opened has vanished, and Sam has joined the Harvard squad.

It costs \$15 a week to feed each man at the training table in the big colleges. The same player will pay about \$4 per when he has to settle his own board bill.

This is Merely to Announce the Arrival of the New Styles in FRENCH SHOES

The perfect fit, lasting shape, choice material

and custom workmanship needs no special mention. Our

J. E. French Shoe Customers

know these things, others can only know them by wearing the shoes. You will find them in Kid, Patent, Gun Metal, Tan, Pat. Colt in lace and Button.

Price \$4.00, \$4.50 and \$5.00

THE HUB

The Home of Good Clothes.

Stories of Two Clothing Merchants and Two Bootblacks That Carry Good Suggestions.

A writer on advertising subjects tells this story: A man advertised fur lined overcoats, reduced from \$50 to \$30. No reason for the cut was given. He sold very few.

The lease of another dealer in the same line expired, and he was ordered to vacate in two weeks. He advertised this fact, and announced that his fur lined coats would be reduced from \$50 to \$40. He sold all he had.

This incident illustrates the analytical capacity with which the public analyzes advertising to see if it is reasonable.

Still another hint from the same writer: A boot black was noticed one day shouting, "Shine, five cents." He was not very busy. Not far off was another stand occupied by a boy whose outfit and location were in no way different. It was Saturday afternoon. "Get your Sunday shine, five cents," he shouted, and he was hustling all the time.

This boy succeeded because he made the public realize that the service he had to sell was one of which they felt the immediate need. His appeal had timeliness, and it showed instinct for the news element in advertising. These incidents are full of suggestions to teachers for publicity.

"Advertising in publicity," Mr. Demeter said, "and the master painter should try to keep his name before the public as much as possible, and he will find the local newspapers best adapted. The papers will be willing to give him and his business a boost if he will furnish them with correct facts that do not reflect on or injure his competitor's business. He should not be slow in informing the local editor about his movements and ask him to make mention of it in his newspaper. For that reason, especially, he should spend the larger amount of money for advertising with the local papers and turn down the many free and schemes for advertising imposed on him by out-of-town fakes. Remember all his advertisements should bear the stamp of truth. Misrepresentation of any kind will not succeed."
