Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crack on the subject of insalubrious habits.

LEAGUE TO MEET.

The Loyal Temperance League will meet tomorrow afternoon with Margaret Bailey on Fourth street. All members are urged to attend.

ALL STAR BILL AT THE BELLEMO

The Bellemo is offering a real all star bill today. Of course the "Diamond from the Sky" heads the bill, and this, the 24th chapter, entitled "The Mad Millionaire" is one of the most thrilling and sensational of any yet presented. This chapter also contains one magnificent scenic effects and one scene of a huge electric fountain taken at night without the aid of artificial lights, particularly beautiful.

Rupert Julian, who created such a favorable impression as "The Grandfather" in "Jewel" is featured in a thrilling war drama, "A White Feather Volunteer" in two reels. This production has a very strong plot, as well as superb acting and stage settings.

Two excellent comedies balance the bill: Billie Rhodes in a Nestor, "Circumstantial Scandal," and Victor Potel in an Imp, "When Beauty Butts In."

A LA MODE.

An Ultra Skating Suit For Her of the Fad.

"WANT TO GO!"

Belge colored nautic corduroy develops this smart costume, a short, full skirt and a three-quarter coat, with muff, scarf, cuffs and border of seal. The loose belt and novelty buttons give a girlish finish, while the top of the button boots are "tuffed" with seal.

SO FEMINE!

How Women May Powder Their Noses Without Giving It Away.

Women are acquiring more and more the habit of pulling a powder puff from every imaginable hiding place and powdering their faces in public. It makes one conspicuous, and the average woman does not approve, but she answers that one must powder, and in this day of rush and distance she cannot always take time to freshen up in the proper way.

It is surprising, considering that the handkerchief is very often a hiding place for the powder puff, that some ingenious woman did not think of this new contrivance before. Stitched flat on the center of the handkerchief is a neat pocket-like arrangement, which acts as a receptacle for the puff. The puff may be taken out when the handkerchief is ready to be laundered. The puff in itself is old in that it opens wide enough at the top to permit a generous supply of powder to be emptied in and fastens again with a snap.

When one feels the need of powder the center of the handkerchief, in which reposes the puff, may be gently patted against the face, while to all outward appearances the owner has only been using her handkerchief, and likewise if only the handkerchief is desired one need not apply the center. And to add to the attractiveness of this contrivance they are to be made in many different designs, plain and embroidered, the same as handkerchiefs, and the carrier may also exercise her individual taste by replenishing the puff with her favorite face powder.

Tulle Much Used.

Great quantities of tulle are being used on evening gowns this season not only for fashioning the gown, but for trimming purposes, in wisps of draperies, scarfs and in one gown as a train. A black and gold evening frock shows a wide piece of tulle caught across the back of the frock and held with jet bracelets to the wrists.

Queer freaks are to be seen among some of the latest importations. A midnight blue taffeta coat is lined with blue serge, reversing the order of things generally. In a rose and black velvet evening gown, where the waist portion is of the lighter shade and the skirt portion of the other, the lining of satin reverses the color, the rose velvet being lined with black and the black with rose. A venetian purple evening coat is lined for a depth of eight or nine inches with a flowered and brocade velvet ribbon, another proof of the ribbon craze.

A Waterfall in the Air.

On the road to the Fall from Honolulu, in Hawaii, is a waterfall that never reaches land. A thread of water leaps from the cliff a thousand feet in the air, but before it can gather force and carry itself to the bottom of the declivity the hungry northwest wind, burbling through the pass, picks up the streamlet and wafts it away to mist.

ROAD BANNING NEW PEACE TRIP

Says New Expedition Will Be on a Larger Scale Than the Oscar II.

Chicago, Feb. 8.—Henry Ford, of Detroit, who sent a peace ship to Europe, has a new peace plan. "I would like to tell you about my new plan but I must wait until my party has returned from Europe," said Mr. Ford today. He said he was perfectly satisfied with the results of his peace expedition.

Mr. Ford came here to attend a banquet given last night by the Michigan Society of Chicago. He said that his new coat to bring the strife in Europe to an end will be on a larger scale than the Oscar II expedition and that his recruits would be "personalities rather than personages."

"The new venture is along the same lines as the first one," continued Mr. Ford, "but on a larger scale. I shall include some of the people I had on the Oscar II. The people across the water were astonished when they saw the personnel of that party. They had expected to see a lot of 'high brow' and were surprised to find that they were just every day people. They wouldn't hardly believe me when I told them I could have brought thousands more of the same kind of people."

BRAZIL MAY OFFER BIG MARKET TO U. S. COTTON GROWERS

Rio de Janeiro, Feb. 8.—Brazilians now paying big prices for their cotton goods believe there is a cotton combine here, which is taking of the short northern Brazil crop to boost prices. The people believe a lower tariff would bring prices down. Legislation is now ready for passage looking toward this lower tariff and United States cotton growers may find a big market here to take the place of the European markets they have lost. Brazil wears cotton—not only wears it, but grows it. There are more than three hundred Brazilian mills manufacturing it. These mills employ 75,000 operators. Therefore, when a 2-years' drought in the northern states reduces the crop by half and a combine of buyers, protected by a 4 cents a pound import duty, corners this half and makes the textile industry pay an exorbitant price for it, the Brazilian sits up and takes notice.

AFTER LAGRIPPE—WHAT?

Coughs that "hang on" after lagrippe exhaust the strength and lower the vital resistance. F. G. Prevo, Bedford, Ind., writes: "An attack of lagrippe left me with a severe cough. I tried everything. I lost in weight and got so thin it looked as if I would never get well. I tried Foley's Honey and Tar and two bottles cured me. I am now well and back to my normal weight. Foley's Honey and Tar gets right at the trouble. It is a safe, reliable remedy." Davenport Pharmacy.

There's A Big Reason Why Paragon Typewriter Ribbons are the best

WE realized years ago, when we first started to make Paragon Ribbons, that they had to be the best—at whatever cost.

There was a special reason—the Remington Typewriter.

We make the Remington and we make the ribbon. We started to make the ribbon for the Remington. No writing machine can do better work than its ribbon; therefore none but the best ribbon is good enough for the Remington Typewriter.

So you see that Paragon Ribbons had to be the best—not only for their own sake but for the machine's sake. This double incentive has produced the best ribbon—the ribbon that outsells them all.
