Harper-Cobb. The marriage of Mr. O. E. Harper of Rocky Mount, and Miss Cora Cobb of Tarboro, took place at the home of Mr. A. J. Corbitt, Sunday afternoon at half past three o'clock in the presence of a large number of friends.

Had Too Much Liquor. Rocky Mount—Stiff Hicks, of Rocky Mount, a citizen whose record in the municipality does not take as great pride in, was arrested at 11:30 Saturday with five suit cases loaded to the full with bottles of whiskey. It is said that he was arrested at Rocky Mount caught into the little game of Hicks, which is to make occasional pilgrimages to Petersburg or Emporia and to get in the train at Ball's hole and drive to Rocky Mount. On the occasion he had a horse and buggy all ready and waiting to "deliver the goods." He was locked up at Rocky Mount until this morning, when he was taken over to Nashville for trial.

Expect Big Building Boom. New Bern—That there will be a great building boom in New Bern during the approaching spring is the opinion of many of the local contractors and they are making arrangements to take care of this business. Already plans have been made for the erection of a number

LOST HIS BERTH: ENTERS SUIT

W. E. Turnbull is suing for Three Thousand Dollars Because Berth Was Given to Another.

(By Eastern Press) New Bern, Feb. 9.—One of the most interesting civil actions taken up thus far at the term of Craven county Superior court, now in session here, is that of W. E. Turnbull vs. the Pullman Company. In this suit, or rather suits, there being two actions, the plaintiff is suing the Pullman Company for damages in the sum of three thousand dollars in each case for inconvenience caused when the company failed to reserve a certain berth which he had engaged.

It seems that Mr. Turnbull engaged sections No. 3, upper and lower, for himself and wife from Goldsboro to Washington, D. C. He was late in reaching Goldsboro and as train did not wait for the train in which he was traveling. After arriving at Goldsboro he caught a special train and overtook the regular train at Wilson, where he demanded his berths and was told that one of them, lower three, was occupied.

The action grew out of this. The case is being hard fought and the outcome is awaited with interest.

Standard Time. Standard time was established by agreement in 1883, primarily for the benefit of the railroads.

FOOD FACTS. What An M. D. Learned.

A prominent physician down in Georgia went through a food experience which he makes public: "It was my own experience that first led me to advocate Grape-Nuts food, and I also know from having prescribed it to convalescents and their weak patients that this food is a wonderful restorer and restorer of nerve and brain tissue, as well as muscle. It improves the digestion and patients gain, just as I did in strength and weight, very rapidly."

"I was in such a low state that I had to give up my work entirely, and go to the mountains, but two months there did not improve me; in fact I was not quite as well as when I left home. My food did not sustain me and it became plain that I must change."

"I began to use Grape-Nuts and in two weeks I could walk a mile, and in five weeks returned to my work and practice, taking up hard work again. Since that time I have felt as well and strong as I ever did in my life."

"As a physician who seeks to help all sufferers I consider it a duty to make these facts public."

Trial 10 days on Grape-Nuts when the regular food does not seem to sustain the body will work wonders. "There's a Reason." Name given by Postum Co., Battle Creek, Mich.

of dwelling houses within the city limits and in the suburban residential sections and it is understood that work on these will begin as soon as is practicable.

Found of Unsound Mind. Kinist—Luther Sugg, a Glenfield farmer, was found to be of unsound mind by a jury Saturday. Some of Sugg's affairs needed attending to, and the action by a jury was necessary before the business could be taken in hand. Ralph Parker, a white youth of this county, has been locked up for insanity.

Magpie Daughtridge's Campaign. Rocky Mount—Mr. James E. Caraway of Waynesville, was here from Sunday to today at noon, when he left for his home. Mr. Caraway may be the State campaign manager for L. Ut-Gov. Daughtridge in his candidacy for Governor, as Mr. Daughtridge is anxious to secure his election.

Observe Home-Coming Day. Greenville—The membership of the Christian church will observe next Sunday as home-coming day in their church building. This is a day that is observed by many of the churches once a year when special programs are rendered by the choir and a sermon applicable to the occasion is delivered by the pastor or some visiting minister.

MANY DIE FROM PNEUMONIA

Ten Per Cent of All Deaths in United States Are Said to Be Due to Pneumonia.

Ten per cent of the deaths in the United States result from pneumonia. It is estimated that during the past thirty days this rate has been doubled in some sections. Tuberculosis and heart disease, each causing one-ninth of all fatalities, are the only diseases which outrank pneumonia among the legion of the men of death, out in certain cities pneumonia is steadily increasing and even has surpassed the mortality from tuberculosis. Seventy per cent of all cases occur between December and May. It is distinctly a cold weather infection, seemingly brought by wintry blasts, but especially prevalent during the winter season only because its victims are rendered more susceptible at that time by exposure, debilitating influences and the presence of predisposing infections.

OPPOSITION TO SMALL BILL

Southern Pilots Are Fighting Mr. Small's Proposed Abolishment of Pilotage.

Washington, Feb. 9.—Maurice O. Long, of Norfolk, who is in Washington attending the national convention of Chambers of Commerce of the United States, today appeared before the House Committee on Merchant Marine and Fisheries in behalf of the Small bill, calling for the abolition of compulsory pilotage on barges in the United States.

Mr. Long contended that the bill will relieve the barges of a heavy burden and will mean lower transportation charges on water traffic along the Atlantic coast. He did not think a barge should be compelled to take on a pilot when he was not needed.

Winter in Russia. What winter can be like in Russia was discovered by Napoleon in 1812 and by Charles XII, of Sweden a century earlier. Charles made a successful drive into Russia in 1708, but winter overtook him in October. The cold was so intense that wood could not be made to ignite in the open air. Wine and spirits froze, birds fell dead on the wing, saliva congealed on the men's lips. Says one who went through that terrible winter with the Swedish army, "You could see some without hands, some without feet, some without ears, and some, unable to walk upright, but creeping along like quadrupeds."—London Standard.

GRAYSON ADVISER TO THE PRESIDENT

White House Doctor Man of Ability and Tact.

MAKING RECORD AT HIS POST

Has Elevated Position to One of Dignity and Honor—Regulates President's Office Hours and Sometimes His Statements to Reporters—Valuable as Diplomat and Practitioner.

Washington.—It's a sweet little job these days, being private and personal physician to the president of the United States. From a medical viewpoint it's not a particularly trying post, but the position embraces about fifty-seven other tasks, all calling for the tact, memory and general ability of a corporation counsel.

Slipping in and out of the White House, a little man with a keen, incisive eye and manner of speech, but with an affability of manner which immediately attracts attention, can often be seen these days. His name is Cary T. Grayson, and his name carries

Photo by American Press Association. DR. CARY T. GRAYSON.

with it the initials "U. S. N.," which means he is a member of the medical corps of the navy.

Grayson is the man who brought the position of presidential doctor out of obscurity and elevated it to a post of honor, dignity and efficiency in White House circles. Before Grayson came a White House doctor was a mysterious personage, little known and less cared about. Grayson combines this position with the one left vacant by the late Major Archibald Butt and fills both with complete satisfaction.

On the whole, the practice of medicine on the president of the United States is the least of Grayson's tasks. He's a sort of confidential family adviser to President Wilson, and he also regulates the president's office hours, and sometimes his statements to reporters. When the president is away from Washington, Grayson is often times the sole connecting link between the head of the American nation and the representatives of the American press.

In more ways than one this black haired, pleasant faced, affable mannered, efficient man has attained distinction and a record during the time Woodrow Wilson has occupied the White House. He is usually spoken of as "Dr. Cary T. Grayson, U. S. N.," the president's personal physician, "but that's merely the correspondents' method of repaying in formality the informal, graceful kindnesses of the president's doctor."

In size Grayson is a small man, but that doesn't apply to his ability. He has a long, straight nose, jet black hair and deep set eyes that twinkle with humorous appreciation half the time. Sometimes they don't twinkle, but that's when Grayson is "on the road" with his distinguished patient, and the responsibility of his position at such a time is apt to take the twinkle from any one's eyes.

The president is an indefatigable worker, and like all men of his temperament he has the habit of neglecting his personal health when involved in a deep and delicate problem. Grayson, however, is always hovering in the background, guarding him against overwork, driving him forth to the golf links or for an automobile ride, urging plenty of sleep, a careful diet and all the other details necessary to a president's health.

These are a part of his duties when the president is at home. Grayson's duties at such times become comparatively light, and he is enabled to take up his other work at the Naval hospital at Washington, where he has a regular quota of patients who demand his attention so long as he remains in the city.

But when the president takes to his private car for a swift whirl to New York, to Cornish or elsewhere, Grayson suddenly stands forth as the czar of the executive's private car. Grayson is strong on the point of exercise. He insists that the president take exercise at any and all times, and the president, fortunately, when the matter is brought to his attention, is always willing to exercise.

SAGE TEA KEEPS YOUR HAIR DARK. It's Grandmother's recipe to bring back color, thickness and lustre—Everybody is using it again. Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wavy and scraggly, just a few applications of Sage Tea and Sulphur enhance its appearance a hundred-fold. Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.
