An Announcement

On account of being late in going to northern market this season, we will not have a formal millinery opening. However, we will have on display, beginning tomorrow, the very newest models in ladies' headwear. Our prices will be moderate and we will have on exhibition everything that is shown by the largest and most exclusive shops. Before making your purchase elsewhere, we would advise an inspection of our models.

I. H. MORRIS.
 Successor to Jas. E. Clark

FLOOD PICTURES OF WESTERN NORTH CAROLINA ON TONIGHT

The scenes of the great flood that destroyed whole towns and villages in Western North Carolina, will be seen at the New Theatre tonight. In addition the second episode of "The Secret of the Submarine," and a Triangle Keystone Comedy entitled, "Better Late Than Never" will be on the screen. On Thursday night the 19th episode of "The Iron Claw" will be given and on Friday night "Mutt and Jeff" will be the opening attraction of the theatrical season.

Attended Anniversary Services.
 Fordyce Harding, of Greenville, and Walter Harding, of Grifton, attended the anniversary services at St. Peter's yesterday.

This is the Car of the GOLDEN Chassis!

See It!

You saw that GOLD Chassis, didn't you? Read about it anyway—that wonderful Studebaker SIX chassis finished entirely in purest GOLD that was the GREAT sensation of the Auto Shows in New York, Chicago and elsewhere!

Now come in and see "The Car of the GOLDEN Chassis"—the new SERIES 17 Studebaker SIX.

This famous Six that we have on exhibition exactly duplicates the chassis that was exhibited at the Shows—except of course that it hasn't the GOLD finish. But it is the same marvel of design and manufacture that kept the Studebaker exhibit so packed with people that you couldn't get near it.

It is the most powerful 6-cylinder car ever offered within hundreds of dollars of its price. You have to pay a third more to equal it in power and size. And no car at any price offers more basic quality of materials, more soundness of design or more perfection of manufacture.

Let us give you a demonstration today.
