MOST IMPORTANT RECENT VICTORY

BRITISH MARCH ON TO BAUPAUME

(By United Press)

London, Sept. 25.—Combles, the key point to the whole German battle line from Baupauge to Peronne, has been captured. The British took the city after eighteen hours furious fighting north of the Somme. Haig announced this afternoon that the British had entered the city, overcoming the resistance of the enemy. The losses of the Germans are said to be most severe.

The British victory was achieved after three weeks of desperate driving against the German center and is the most striking single achievement of the whole Somme offensive. The capture followed day and night attacks and most brilliant of allied successes. The villages of Norval

and Lesboepfs by the British and Rancourt by the French, were also important victories in this campaign. Fifteen hundred prisoners have already been taken by the British and more are coming in. Large supplies of war material have also been taken.

Combles fell after thrusts by both the British and French drew them close about the German garrison, which made escape for the Teutons almost impossible. For weeks the Germans had used the town, with its wonderful system of fortification as a pivot from which to swing their attacks north and south to the allied lines. The British have also progressed in the direction of Baupauge, capturing strong redoubts.
