London, Sept. 27.—The unrus high for weeks has been smoldering Greece has at last burst into ame and a series of startling devel

opments is reported in dispatches today.

Having apparently failed in his stmost efforts to influence King Constantine in favor of hestilities against the Central Empires, former
Premier Ventelaos, the Allies "strong
man" in Greece, has left athems. He
fa reported to have reached Saloniti
and, it is said, will head the growing
revolutionary movement in -Macedonia and Crete.

The London Daily Telegraph has received a dispatch from its correspondent at Athens, G. J. Stevens, declaring that Veniselos has agreed to lead the revolutionary movement

HORSE RAISERS MAKE BIG MONEY

(By United Press)

(By United Press)

Chicago, Sept. 27.—The European war has caused such a scarcity of horses in the United States that farmers who raise the adaptable Belgish, whose weight range from 1200 to 1500 pounds, makes it an excellent envalry or police mount, are putting a high price on the animals, which at the present time is being accepted by the horse dealer. accepted by the horse dealer.
While thousands of Percherons

and Belgians, weighing from 1500 to 1800 pounds are at present employed in drawing cannon and ammunition wagons on the battlefields, they are not so commonly used here as the lighter animal. A cross between Percheron stock and the American horses makes an almost ideal general purpose animal, and a well matched team will bring from \$500 to \$600, team will bring from \$590 to \$600, where formerly a team could be purchased at \$206 to \$200. There is no importation of horses at this time and therefore, American farmers are abort of the adaptable Belgians, which in part accounts for the increased value.

BREMEN SEIZED, HE SAYS: MANY GEMS IN \$25,000,000 CARGO

Philadelphia, Sept. 26 .- The German merchant submarine Bremen has been captured by the English and is now tied up in Falmouth Harbor, according to Dr. R. Tait McKenzle, sculptor and director of the depart-ment of hysical schemios, in the ment of physical education in the University of Pennsylvania. He re-turned today to this city after sixteen months in a training camp at Aldershot, outside of London. Dr. McKenzie, who has been given the rank of major by the English.

said he heard the story of the Bre-men's capture just before he sailed Liverpool for New York. He added:

"The story reached me from a very reliable source. The Bremen is said to have a cargo valued at \$25,000,-660, consisting of dye stuffs and dia-monds. I heard of the capture thru prominent diamond expert in London, who was called in by the British Government to estimate the value of the diamonds in the cargo. He told me he knew some of the diamonds were famous precious stones that belonged in Germany." -

QUITE A MEAL, EVEN FOR STEWARD'S CLUB

(By United Press) Pittsburgh, Sept. 27 .- The Stewrds Club celebrated today with a Rhode Island Clambuke at Keystone Park, following the election of Frank A. Knapp, of this city as president of the international Stewards Asso-ciation and selection of this city for the 1917 convention.

On the bill of fare today were 4,500 lobsters, 4,500 chickens, 4,500 seabass, 40,000 clams, 8,000 crabs. 15,000 ears of corn, 30,000 potatoes and many extras. About 5,000 men were to participate in the celebration and no women. William F. Hammel, chief executive of the burgh club, was in charge.

PRETTY GIRLS AND OTHERS

After All, the One Who is "Nice" is Apt to Be the Most Popular With Everybody.

We all know the old joke of the pretty girl who is presented as saying to the komely girl, "It's too bad not to be good-looking, isn't tit" and the homely girl's response: "Yes, because one has to be nice, and that's hard;

one has to be nice, and that's hard; did you every try it?"

Of course we enjoy the reply, especially as we know how much greater the impression that is made by being nice, the Milwaukee Journal observes.

The pretty girl who doesn't think this necessary is away behind the homely girl who has really learned to be what we describe so satisfactorily and indefinitely by the word "nice."

But do we were think of this as any

definitely by the word "nice."

But do we ever think of this as one of the definite accomplishments of life that can be acquired, not so easily perhaps as a knowledge of algebra or his tory, but just as surely? Every day we meet someone, often several persons, whose lives exemplify the beauty of being nice. Very soon we learn to know them and we are ready almost without thinking to so a little out of

of being nice. Very soon we learn to know them and we are ready almost without thinking to go a little out of the way to see that we do meet them. They are not all homely girls; some of them are retty, and many of them are retty, and many of them are retty. All most of them are retty and many of them are retty and many of them are retty. All most of them are retty and many of them are retty and robustly often, there has come and probably often, there has come to these persons who make life brighter the question, "Does it pay?" Maybe they never recally proved that it did That deem't matter so much, for they have kept on with the cheery look, the pleasant greeting, the friend-liness and graciousless that are the world's greatest toy bringers. And that is enough to make them far better remembered and far more beloved than if they had been mamed the reigning beauties of their day.

HOW THE GRIPPE IS SPREAD

Gathering of Large Crowds in Badly Ventilated Places is One of the Chief Causes.

It may be interesting to a considerable number of persons to know that the handy term, "Is grippe," which is quite as expressive if deprived of the "la" and reduced to four letters, comes to us from the French verb "gripper," meaning to seize, clutch or nab, and all three of them terms in English are required fully to express the condition of the victim of the dread visitation. Even among physicians there is a tendency, to indefiniteness in naming diseases of the nasc-pharyngeal organs, nearly every kind of severe cold, influency, coryse or entarrh being called badly ventilated cars, moving pictures shows and other halls, and the contamination of the air which they have been shilled to breathe, by the coughing, sneeding and spitting of the common test of the picture of the picture of the common could type. Under direction of the New York bears of health the police of that city arreated in one week more than 1,800 persons for expectorsting in public places. Of these, 1,400 suffered conviction and fines, 1,400 suffered that opidenies of grippe as a clinical entity have been vecopylaced for almost a hundred years, but it was not until 1822 that the healfill wire discovered in the spulitum of the nufferer.
