

TWELVE MEN FALL IN STRIKE RIOTING

BAYONNE IS SCENE OF MUCH RIOTING

OVER SIX THOUSAND EMPLOYEES OF STANDARD OIL COMPANY HAVE QUIT JOBS.

POLICE NOW ON GUARD

Four Policemen and Eight Strikers Fell in Yesterday's Conflict. Rioting is Expected to Continue. More Violence is Feared.

(By United Press) Bayonne, N. J., Oct. 11.—Police, armed with Winchester, are today patrolling the "Hook" district near the great Standard Oil Company plant where four policemen and eight strikers fell in yesterday's rioting.

The strike is fast assuming grave proportions. There is no sign of any agreement in the near future and it is feared that more casualties will result before peace is finally declared. The men claim that they have not been getting fair treatment and the feeling against the company is extremely bitter. Although the police managed to suppress much of the rioting today, there were still a number of smaller disturbances and several persons were hurt.

The men are for the greater part assembled on the streets in the plant section and it is feared that before night they will break out into further violence.

Six thousand strikers are out at the present time.

Those members present expressed themselves as greatly pleased with the selection made. Miss Campbell will assume her duties in the near future. Captain George T. Leach made a report on the trip of the Washington delegates to the waterway convention at Philadelphia last month. A. M. Dumas handed in a report upon the South Eastern Underwriters Association on the necessary changes that would have to be made to give Washington a second class rate. Some of these points the city cannot comply with at the present time. The matter was discussed at length and was finally referred back to Mr. Dumas again for further investigation. It was the opinion of those present that outside companies could be secured to carry local insurance at a much lower rate than that imposed by the Underwriters' Association. County Demonstrator J. F. Dodgers Have Outplayed Boston In Every Game Of the Series So Far

(By United Press) Brooklyn, Oct. 11.—Stung into driving action to uphold the honor of Boston, Bill Carrigan is ready to apply the goad to the Red Sox machine this afternoon to stop the Dodgers from carrying another championship crown from Beantown. With his infield kept hopping by the dashing attack of the Dodgers and the knowledge that his star slingers cannot hold down the batting average of the Brooklyn aggregation, Carrigan is demanding his men to tear into a victory and finish off the series in Boston tomorrow. The Dodgers outhit Boston through out the series and outplayed them yesterday in every department of the game. If the gritty Dodgers can win today's game, the odds will be in their favor. The Red Sox were outplayed and outgeneraled yesterday. Boston's "air-tight" field developed a number of holes. The two kings of nerve, Jack Coombs and Olsen, have put the Dodgers back in the running. The game started today with a record breaking attendance. Marquard started in the box for the Dodgers, while Leonard worked for Boston. Brooklyn tallied two runs in the first stanza and Boston made it three in the second, giving the fans enough indication that heavy batting was to be a feature of today's game.

CHICAGO POLITICIANS ARE MIXED UP IN BIG SCANDAL

(By United Press) Chicago, Oct. 11.—During all of last night, detectives from the office of State Attorney Hoyne guarded the City Hall vaults where the letters of Chief of Police Healey and Mayor Thompson are deposited. By their side sat policemen detailed by Healey. Hoyne's raid of the city hall was one of the most sensational performances that has ever occurred in a large city. He claims to have evidence that the administration, aided by the police, protected vice, gambling and Sunday saloons. If the offenders were "right, politically," Hoyne is the Democratic candidate for re-election. He is bitterly opposed by the Republicans.

"The allies are not vindictive," he said, "but they will demand from their enemies full reparation for the past and security for the future. This is not a time for faint-hearted and wavering counsels." Britain's expenditures at the present time amount to \$23,000,000 daily.

U-BOATS MAY HAVE TO QUIT U. S. COAST

CONFERENCE BETWEEN PRESIDENT WILSON AND LANSING WAS HELD LAST NIGHT.

DANGER TO U. S. CITIZENS

Submarines Have Complied With All Regulations But Their Presence is a Constant Source of Danger to American Ships and Lives.

(By United Press) Long Branch, Oct. 11.—Secretary Lansing left this morning for Washington after a long conference with President Wilson last night on the problems raised by the activities of the German submarines. While the U-boats appear to have complied with all the required stipulations, a larger question is whether the United States can tolerate further submarine activities outside her ports, which menace commerce and constantly endanger the lives of American men, women and children. There is a strong undercurrent of feeling against any such practice which might be contemplated by Germany. The details of the conference between Mr. Lansing and Mr. Wilson were not made public although it is known that matters have not yet been finally settled and that future conferences will take place.
