WASHINGTON, NORTH CAROLINA, NOV. 13, 1916.

And tonight, we're going to have the biggest celebration that Washington has ever known.

Reports received this morning indicate that every part of the county is going to be represented by large delegations at tonight's festivities.

When it comes to real work, we'll have to hand it to Messrs. Radcliffe, Archbell and Cave. They made about 400 torches Saturday for tonight's procession and it took them nearly all day to do it.

**OUR AURORA FAIR EDITION.**

We are presenting the Daily News to our readers today in somewhat enlarged form. The reason for the increase in size is the Aurora fair, which is to be held on Tuesday, Wednesday and Thursday of this week. There are twenty pages and we hope that the result of our labors will be to send a large crowd from every part of the county to Aurora on one of the days of the fair. We are confident that they will have a good time and we know that their visit will be appreciated by those who have worked hard to make the fair a success.

We desire to call the attention of our readers to the large number of advertisements in today's paper. The response of the business men of Aurora and Washington, when asked whether they desired space, was most gratifying. They ALL wanted it. We only started working on this edition on Friday and were therefore forced to rush through with it in a hurry. This prevented us from seeing a large number of local business men. There is no question but that we could have easily gotten out thirty-two pages or more, if we had only had the time.

And, again—let's all go down to Aurora during the fair and see what the people of that section have prepared for us all.

**AN IMPORTANT MESSAGE TO BUSINESS MEN.**

Friday afternoon there appeared a small announcement in this paper, stating that the arrangement committee for tonight wanted about 300 tin cans for the purpose of making torches for tonight's procession and offering to pay a cent apiece for them. The article was not given any special prominence, but was placed in a corner of the page.

Saturday morning, bright and early, boys began to arrive at the Daily News office with tin cans. They brought them in barrels, in bags, in wheelbarrows and in wagons. In an hour the committee had all the cans they wanted. But that didn't end it, for the boys kept on coming. If the committee could have used them, they would easily have been supplied with 1,000 cans. It just shows that the Daily News is read thoroughly and that advertising in its columns pays.

About two weeks ago, Mr. John G. Bragaw, Jr., received a small amount which was sent in by some person for the relief of the Armenians and Syrians. Mr. Bragaw suggested that there might be other people in Washington who would like to contribute and offered to act as treasurer so that they would have a place to leave their money. The only publicity that was given to the matter was through the columns of the Daily News. Last Saturday \$39.50 had been contributed without any solicitation from Mr. Bragaw. It just shows that the Daily News is read thoroughly and that advertising in its columns pays.

A few days ago, Walter Credle came into the Daily News office and said he had a stove to sell and wanted to place an advertisement in the paper. The ad. was written up and the next day Mr. Credle sold the stove to one of the men who worked in his own store and who knew nothing about the stove until he had seen the advertisement. It just shows that the Daily News is read thoroughly and that advertising in its columns pays.

And the moral of all this, Mr. Business Man, is—put your figure out for yourself; we believe you can do it better than we can.

**TONIGHT'S CELEBRATION.**

Democrats of Beaufort county are going to celebrate tonight the re-election of President Woodrow Wilson to this "glorious democratic Democracy," as Captain George Hill would say. There is going to be a long parade, speech-making and other features. It promises to be a hilarious time for the old town and everyone is cordially invited to take part.

On occasions of this kind some people are apt to forget themselves in the joys of celebrating and are liable to do things which they would not do under ordinary occasions. We trust that they will use a little restraint tonight and will not carry things too far.

For example, it might be a good idea to be careful of the torches, and not wave them around too promiscuously. The waste is liable to fall out and fly in the face of someone nearby.

Another suggestion is that the celebration is not carried too far into the night. There are a few women and babies in town who are not able to join in the jollification and they might appreciate it more if they were allowed to get a little sleep.

The committee on arrangements also hopes that the audience before the speaker's stand will be orderly and quiet in order that the words of the orators may be heard.

Last, but not least, it is probably unnecessary to remind some of our friends that this is a dry state.

**HAVE YOU HELPED ANY?**

Have you contributed toward the Armenian relief fund? Are you warm-hearted enough to give a few cents that you will never miss toward the relief of pleading thousands or are you so cold and indifferent that you will see people starve and suffer the agonies of starvation rather than go the slightest bit out of your way to help them?

Can you smoke a cigar, or buy ice cream or enjoy other luxuries while you are realizing that there are people who would give their very souls for the food that the money you throw idly away would bring them?

See Mr. John Bragaw, Jr., today and make your contribution to the Armenian and Assyrian relief fund.

Columbus, O., Nov. 13.—After testifying that her husband kept pigs and chickens in their home, and that he would not let her even sweep the house because she would wear out the broom, Mrs. Mary Rolison, of Lincoln County, was granted a divorce from Alva A. Rolison.

**DRINK HOT WATER IF YOU DESIRE A ROSEY COMPLEXION**  
 Says "we can't help but look better and feel better after an inside bath."  
 To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, our fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of inconspicuous material in the form of ashes, so the food and drink taken each day leave in the assimilatory organs a certain amount of indigestible material, which if not eliminated, brings on various ailments which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.
