"I know from experience that a well-edited 'home paper' is read from cover to cover by literally everyone in the community it serves"

That is the statement of Owen B. Winters, prominent advertising executive and successful publisher. In Brunswick County, where The State Port Pilot is recognized as a "household necessity," that statement is known to be true.

Did you ever see a handbill on a reading table?

NO!

Did you ever see a picture of the new hat you wanted come into the home via radio?
