ODE TO THE OCEAN
By Susan Haines Morris
Ever onward in its flight
Unceasing through the weary night,
Lighted by the stars above
And the moon's refulgent light.

Majestic as it onward rolls
In each relentless hour,
The king of all the briny sea
It reigns with sovereign power.
Beneath the waters dark and deep
Without a ray of light,
Many a treacherous rock and reef
Is hidden from the sight.

The breakers roll across the sea
Where the stately vessels sweep;
But the pilot with chart and compass true
Fears not the stormy deep.

When the sea is calm and peaceful
And no ripple stirs its face;
The sunshine adds its lustre
To the glory of its grace.
It carries many a freighted ship
Across the waters blue,
And safely anchors them in port;
Before it bids adieu.

Second Largest Diamond Bought

American Buys Stone Insured for \$1,000,000

HARRY WINSTON, New York City gem-dealer, has bought the Jonker Diamond, world's second largest, from the Diamond Corporation, Ltd., of London, *The Literary Digest* reports.

Winston, saying that he "wanted the finest gem in the world," is reported to have paid £150,000 for the stone. It is insured for at least \$1,000,000 by the St. Paul Fire and Marine Insurance Co.

Cullinan Largest
The largest uncut diamond in history weighed 3,025 1/2 carats. It was christened the Cullinan Diamond, after the chairman of the company which discovered it.

The Jonker Diamond, uncut, weighs 726 carats. Emerald-cut, it would be the second largest cut stone—weighing about 425 carats. The uncut stone will be shipped to this country soon.

AT COUNTY HOME
On Saturday afternoon and evening, May 25, a large crowd gathered at the Brunswick coun-

ty home for a period of recreation. Games were played under the direction of Mrs. Orene Smith. Cake and lemonade were served. Miss Ruby Ludlum was voted the most beautiful girl present and Miss Earline Rogers was second.

Banned Books

Ireland Most Censorious Country; Boston Most Puritanic City

IRELAND is the most censorious country over printed works, Boston appears to be the most puritanic city, and China, or at least one of its provincial governors, found "Alice in Wonderland" objectionable, says *The Literary Digest*.

These estimations arise out of an exhibition of books which have been banned for moral, religious, or political reasons from the time of Confucius to the present. The exhibition is at the Junior League of New York City.

Historical Bans
The Chinese governor acted against "Alice in Wonderland" because he felt that to give animals human speech placed people and beasts on the same level and that, to him, was offensive.

Government By Mail

Long, Coughlin, and Townsend Fill Mail-Boxes and Ballot-Boxes

SENATOR HUEY P. LONG, of Louisiana, with his "share-the-wealth" program; Father Charles E. Coughlin, of Royal Oak, Michigan, with his National Union for Social Justice; and Dr. Frank E. Townsend, of Long Beach, California, with his old-age pension plan, account for much of the mail which travels over the country each day, reports *The Literary Digest*.

Most Senators occupy three rooms in the Senate Office Building. But Huey Long has five rooms. When his staff overflowed the normal Senatorial quarters, Senator Long moved some of his clerks into the corridor. As a result the Government allotted him, without extra charge, two more rooms.

At the peak, in April, Senator Long employed twenty-two clerks on the day-shift, and fourteen at night. The mail averages 60,000 letters a week.

Doctor Townsend had a paid force of fifty in the main office at Long Beach last winter. One thousand two hundred dollars a day was spent on postage-stamps. Father Coughlin hires 217 clerks.
