

Statement About AAA Amendment

Statement Issued Last Week By Secretary Wallace Assuring Farmers Of Determination Of Government To Carry Out Farm Program

County Agent J. E. Dodson received last week the following statement issued by Secretary Wallace with the approval of President Roosevelt assuring farmers of the government's intention of carrying out the provisions of the Agricultural Adjustment Administration.

"In cooperation with leaders of Congress, amendments to the Agricultural Adjustment Act are being perfected which are intended to bring the Act's provisions as to marketing agreements and licenses into line with the Schechter case decision and also to safeguard the farmer's voluntary adjustment program on basic commodities.

"These voluntary adjustment programs were not in the path of the Schechter case decision, and in no event could there be any question of the Government's ability to fulfill its contracts with farmers.

"Nevertheless, we have taken advantage of the decision to seek perfection in the law which will make certain the Government's authority to continue processing tax rates in accordance with amended provisions of the Act."

BUSINESS TRIP

County Agent J. E. Dodson and daughter, Miss Virginia Dodson, were in Raleigh Friday where they went to carry the applications of Brunswick county farmers for Bankhead allotments for this year.

FRIDAY CLUB MEETS

Mrs. P. O. Leggett was hostess to members of the Friday club at their last regular meeting. Mrs. J. W. Jelks was high scorer at bridge and received a pretty compact. Mrs. H. T. St. George cut the consolation prize, a box of dusting powder.

The hostess served delicious ice cream and cake.

ATTEND MEETING

Miss Annie Mae Woodside, superintendent of county schools, and H. W. Hood, representing the city government, attended the 1935 session of the Institute of Government held at Chapel Hill Monday and Tuesday.

BOARD EDUCATION CONFIRMS ACTION OF LAST MONDAY

Continued from page one
county superintendent of schools for the ensuing biennium.

Further consideration was given to the matter of increasing the committee at the Waccamaw school to five members as requested at the meeting of June 3 by R. L. Phelps. After due discussion by members of the board it was decided that the members of the committee remain as constituted at the former meeting.

A delegation of citizens of the county appeared before the board to inquire about the final decision regarding the appointment of the superintendent of schools. They were informed of Chairman Rourke's opinion regarding the previous action.

Notice was given to the board that M. B. Watkins did not wish to qualify as a committeeman for the Bolivia district. D. Leon Henry of Winnabow was appointed to take Mr. Watson's place on that board.

It was also ordered by unanimous consent of the board that vouchers be executed against the current expense fund in payment per diem and travel of board members for the last three meetings.

Plan To Establish Branch Fishermen's Co-operative Here

Continued from page 1.)
the state relief administration proposes to apply rehabilitation principles to those engaged in commercial fishing in North Carolina. Difficulties arise in the different characters of farmers and fishermen and their occupations, with the result that the cooperative idea was advanced as the only feasible plan by which money could be advanced to fishermen in need of aid with any degree of hope that the funds expended might eventually be repaired.

Under the plan the relief administration proposes to advance funds for the construction of suitable freezing and storage equipment to in a measure care for the glut and surplus catches, in addition the organization proposes to enter the market with seafoods products. The market, however, is outside the area served by the local wholesale fish dealers and will constitute sales

that are now being made by the local industry.

It is hoped under the plan to increase production of seafoods in North Carolina by approximately thirty percent.

Approximately 2,000 fishermen will be accepted as members. The quota in many sections has already been over subscribed.

ELECT FACULTY FOR SHALLOTTE

Continued from page one
community as a teacher.

Three new teachers were elected. They are Miss Brightie Holden of Supply to the primary department, Miss Susie Kate Swain of Shallotte to the primary department and L. P. Stack of Wilmington to the grammar grade department.

All elections were made subject to the approval of the county superintendent of schools and election was to the faculty of the Shallotte school district, no teachers being assigned to a special school.

The board organized by electing W. H. Varnam chairman and Floyd Kirby secretary. H. D. Williams is the third member.

ELECTRIFICATION FIGURES GIVEN

(Continued from page one)

35.50; Total number of interested prospects, 200; Interested prospects per mile, 5.06; Estimated connected load in KW, 519.0; Estimated cost of line surveyed, \$73,075; Estimated connected load in KW per mile, 13.10; Estimated line cost in dollars per prospect, \$3.65; Estimated annual revenue, \$8,820; Estimated annual revenue per mile, \$223; Estimated annual revenue per prospect, \$44; Estimated annual consumption in KWH, 91,308; Estimated annual consumption, KWH per mile 2312; Estimated annual consumption, KWH per prospect, 457.

Coming from a modern system

stance was an army deserter, and against whom five warrants were out at the time my father attempted to make the arrest, did not serve his sentence and fulfil his debt to society.

"My brothers, sisters and I have given this matter serious consideration and thought if this man had served a minimum of the sentence, at least, we would be glad to sign a petition for a pardon, but in view of his escape and his failure to serve anywhere near the sentence which was rendered, and the suffering that we children have had as a result of the shooting of my father, prompts us to send this petition to you opposing the executive clemency."

B. R. Page Responsible For Many Improvements In Co. Schools

Continued from page 1.)

suade good teachers to serve the then lawful term of four months school teaching. With such conditions at school house and several miles walk over muddy paths to reach there each morning and then back to boarding place in the afternoon, one cannot blame teachers who preferred teaching in other counties. There were about four or five reasonably comfortable and equipped school buildings out of these seventy (mostly one-room structures) in the county at the above mentioned time.

Coming from a modern system

of well equipped brick buildings into conditions only partially described above, his first thought was to somehow help Brunswick county children in getting the same advantages children of other counties were enjoying, for said he, "Are they not as noble and precious and as capable of learning as any children in the state? Then, why keep them longer in the dark?"

Mr. Page began talking consolidation of schools. He caused State Board of Education to become actively interested. He begged and toiled day and night. He traveled many miles over bad roads into every nook and corner of the county, speaking and pleading with the people to give their vote in the proposed election for consolidated schools, while his wife, elected unpaid assistant superintendent, kept the office work going during his absence.

Southport had then the only high school in Brunswick county, with the present brick building only started. Defeated in the election, Mr. Page and the board of education and county commissioners were still hopeful, and they kept up courage and efforts until victory for consolidated schools was won. Four modernly equipped brick buildings, besides the one at Southport, were completed in due season. So impartial was Mr. Page in selecting school sites, that when redistricting in other counties became necessary some months ago, it was found to be unwise to make any changes in Brunswick county.

It is a long, long story of how Mr. Page succeeded in helping select committeemen for these consolidated schools, and by their help, secured efficient and better qualified teachers. The problem of busses and bus drivers together with the fears and forebodings of many interested but anxious parents and the struggle for a longer term of school, with local tax problems and getting schools standardized and on accredited list was no small job.

Mr. Page is a native of Sampson county, having been born there on June 4, 1882. He graduated from Bules Creek Academy in 1909 and from Wake Forest college in 1915. He had considerable teaching experience before going to Magnolia, including two years as principal of the consolidated school at Delway in Sampson county.

Following his resignation as Superintendent of Brunswick county schools Mr. Page served for four years as principal of the Leland high school. During the past two years he has served

as teacher in the Bolivia school. In addition to his intense interest in school work in this county, Mr. Page has been active in religious activities and has usually served as pastor of from one to four Baptist churches.

COMMISSIONERS IN SPECIAL MEETINGS

(Continued from page 1.)
sureties on Robinson's bond.
Members of the board approved a petition signed by J. D. Ward and others asking that a road be constructed from near Regan to the Waccamaw river near Old Reaves' Ferry. The distance of the proposed road is two miles and it is to follow the roadbed of the old Beaufort County Lumber Company road.

Two beer licenses were approved, one for Miss Agnes Child at Leland and the other for Adrian Clemmons at Shallotte.
