QUESTIONS ABOUT PORT PROSPECTS

Article Written In Form Of Questions And Answers In Order That People Might Get Idea Of Possibilities Of Local Harbor

For the benefit of citizens of Brunswick county and Southport who do not understand the efforts being made to bring about a modern port development the following questions and answers have been written following an interview with the Port Commission.

Q—What is the reason for seeking a modern port at Southport?  
A—Brunswick County—Southport harbor is one of the largest natural harbors in the country and the only one in North Carolina. It is therefore reasonable and good business to develop a natural resource that has been at our front door for many years.

Q—Who will benefit by the erection of a modern terminal?  
A—The entire state in general and Brunswick county and Southport in particular.

Q—Will any locality be injured by the establishment of a port at Southport?  
A—No, there is sufficient business now existing that does not pass through any North Carolina port to maintain the Brunswick County-Southport Port without reducing the traffic now passing through any existing North Carolina port. Neighboring towns will profit along with our own city and county.

Q—How is the money to be raised for the construction of the development?  
A—Bonds are to be issued by the Brunswick County-Southport Port Commission and sold to the Public Works Administration, the Reconstruction Finance Corporation or to private investors.

Q—What is the Brunswick County-Southport Port Commission mention in the previous answer?  
A—This Commission is a body of men authorized by the General Assembly for the purpose of securing funds, issuing bonds, holding property both real and personal and carrying on all the business of a port.

Q—If bonds are issued will the City of Southport or Brunswick county be responsible for these payment of the bonds, and is there any chance of taxes being raised?  
A—No, the Port Commission alone is responsible. The property of the Port Commission will be mortgaged and if the bonds and or other indebtedness is not paid the bond holders could take over and operate the port. No city or county property is pledged and no increase in the tax rate is possible unless the people themselves vote to raise them.

Q—Is a Port Commission necessary?  
A—Yes. The Port Commission is debt free and is at liberty to get funds by issuing bonds as the Commission is not in default on any bonds or interest.

Q—Will the city and county profit from the operation of a port if the Commission is successful in getting the establishment of a port?  
A—Yes. The act of the General Assembly states that after certain fixed charges are met the surplus is to be divided between the city and county. In addition to this, there will be a great deal of labor employed at the time of construction and other labor will be used for the unloading and loading of ships. The construction of a port will bring various kinds of industries here that will give work and increase the income of the county and city by increasing the amount of taxable property.

Q—Who can assist the Port Commission in its work?  
A—Each and every person who has the best interest of the city and county at heart. Our Senators and Representatives can also render a great deal of assistance; Representative J. Bayard Clark is already expending a great deal of effort in behalf of the Commission.

Q—Is there any local opposition to the work of the Commission?  
A—Yes. Every movement of benefit has opposition. There are short sighted persons who think that because there has never been a development here and that our efforts have failed that there can be no good in anything that the commission can do. These persons are usually the first to want to get something out of the efforts of others.

Q—How can the plain citizen help out in securing the Port?  
A—By boosting his town and county, by talking favorably about the plans and telling each and every person, especially residents of other towns and counties what a fine thing the proposed development is, and requesting the Senators and others in Washington to approve our plans.

Q—How can the plain citizen help out in securing the Port?  
A—By boosting his town and county, by talking favorably about the plans and telling each and every person, especially residents of other towns and counties what a fine thing the proposed development is, and requesting the Senators and others in Washington to approve our plans.

"CARDINAL RICHELIEU" SAID TO BE GEORGE ARLISS' BEST PICTURE

"Cardinal Richelieu," said to be the finest picture yet produced by that peerless English actor, George Arliss, opens tomorrow at the Carolina theatre, Wilmington, for a three day engagement.

The story opens with the feudal lords plotting against Richelieu because he has persuaded the weak ruler, Louis XIII, to issue a decree confiscating their lands.

Their leader Barades, the Queen Mother Marie and Louis' wife, Queen Anne, poison the King's mind against Richelieu and he is about to sign the Cardinal's dismissal when the latter slyly appears and frustrates the plan.

A charming love story is provided by Lenore, Richelieu's beloved little ward, and Andre de Pons, a fiery young conspirator against the Cardinal, whom Richelieu wins over and marries to the girl to outfox the profligate King's scheme to make her one of his courtisans.

When the sly Baradas convinces the impulsive youth that Richelieu had tricked him into the marriage for the King's convenience, Andre agrees to kill the Cardinal. Andre goes to do the deed, but Richelieu again wins him over and feigns death when Baradas' men break in.

While Baradas rushes to bring the news to the King, Richelieu learns that Queen Marie and Queen Anne are on their way to Spain with a secret treaty which will put Marie's weak son, Prince Gaston, on the throne. He overtakes them at an inn, gets the treaty and rides back posthaste to expose the conspirators and win back his place in the heart and the Court of Louis XIII.

July suggestions for the orchard and garden, as recommended by Prof. M. E. Gardner, head of the horticultural department at N. C. State College, are:

Make additional planting of snap beans. Spray beans while they are affected by the Mexican bean beetle. Magnesium arsenate is good. Rotenone or pyrethrum dusts and sprays are also effective, but somewhat more expensive.

Spray the tomatoes with Bordeaux mixture to control leaf spot and blight. Plants for a fall crop of tomatoes should be set in July. Late Irish potatoes should be planted during the lat-

ter part of the month. Keep egg plants covered with Bordeaux mixture to control flea beetles and potato beetles. Cultivate all crops often enough to keep down weeds and prevent baking of the soil. A side dressing of some form of quickly available nitrogen will help vegetables whose growth has been slow.

After raspberries have been harvested, the old fruiting canes should be removed and burned. Frequent shallow cultivations should be continued until frost. Don't let up in the fight against insects and diseases in the orchard and vineyard. Spray protection is needed to aid the development of perfect fruit. Spray thoroughly at the right time with the right materials—

it pays big dividends. Fruit trees and grape vines which do not have a dark green foliage are lacking in vigor. A second application of quickly available nitrogen will be help-ful.

Attended Meeting In Bladen County  
C. Ed Taylor, local attorney, attended a layman's meeting at the Shiloh Methodist church near Bolton Sunday. He was one of the speakers on the morning program. Mr. Taylor was accompanied on his trip by his daughter, Miss Anna Taylor.

Timely Notes For Orchards, Gardens

Next Week  
A tip to Bernie fans! Turn off your radio and go to Wilmington to the Carolina theatre where you can see the old maestro himself in Paramount's "Stolen Harmony". It will afford you as much enjoyment as a month of listening to him. And even if you are not a Bernie fan, see him and be

converted. The picture plays Monday, Tuesday and Wednesday. Starred with George Raft in a film that is an adroit blend of comedy, melody and drama, Ben Bernie and his lads romp along with a brandnew Gordon and Revel score, scattering laughs and thrills every foot of the way.

"Stolen Harmony" presents the maestro in a role where he can act himself. He is the leader of a troupe barnstorming through the states in an enormous bus. Raft plays a saxophonist and dancer in Bernie's company. Only Bernie knows that he is a reformed ex-convict and that he has taken this job to turn straight. In the company is Grace Bradley who furnishes the romantic interest for Raft.

Money is missed and Raft is under a cloud of suspicion. But, in a thrilling climax, the entire band is kidnapped by a gang of desperadoes and forced to play for their lives. This is when Raft crashes through and saves his pals' lives at the risk of his own, winning the girl in the process.

Raft is superb in "Stolen Harmony", acting a role similar to the one which shot him to stardom in "Scarface". And Bernie and his lads emerge as full-fledged performers, deserting their instruments on occasion to clown and dance about with the girls who are part of the troupe.

COSTLIER TOBACCOS!

Refrigeration for Your HOME

PERFECT meals for you and your family are always within your reach, with no trouble, if you have a Superfex Oil Burning Refrigerator in your kitchen. No matter how hot the summer, your meats, fruits, salads and vegetables are kept constantly cool, fresh and appetizing within easy reach.

In its sanitary porcelain enamel lined interior, Superfex never allows milk or cream to sour or develop bacteria... with a Superfex, the butter is always firm and sweet, the vegetables crisp and fresh and it is easy to make cooling drinks for the family and friends.

Superfex can be used anywhere... it is not dependent on outside connections. For an hour or two every night the burners operate, then your refrigeration goes on for 24 hours. Users say the cost is around \$10.00 a year—less than a dollar a month.

Let us demonstrate Superfex to you soon.

YOUR CHILD AND THE SCHOOL By Dr. ALLEN G. IRELAND Director, Physical and Health Education New Jersey State Department of Public Instruction

The Swimming Hole Children should never be deprived of the pleasure, the exercise, or the safeguard which swimming affords. Although the familiar plea, "May I go swimming?" makes us a little squeamish, there are a few parents who don't see the importance of granting that wish.

It's folly to be always saying "No." And it's worse to scare the child. Probably the sensible move is to get acquainted with the swimming hole. Enlist the aid of other parents. Call upon the health department to test a sample of the water. There may be other departments that will help you rid the bottom of old tin cans, broken glass, and rocks. If not, organize a group of fathers to tackle the job. But if the hole can't be made healthful and safe, petition the police or town council to close it.

There are many instances where that "ole swimmin' hole" has been transformed into a place of beauty and a cause of community pride. Some of the worst places are now public parks where the whole family may enjoy a daily frolic in the water and a picnic supper. No one believes it can be done, until they try it. Many believe there is no such place near their town, until they look around. The effort will more than repay you.

Should a child's summer meals differ from those of winter? Next week Dr. Ireland will give advice on this problem.
