

Violent Deaths Take Five Lives Last Week-End

Prominent Citizen Of Clinton Takes His Own Life With Pistol

HERTFORD PHYSICIAN DIES IN COLLISION

Greensboro Youth Drowns At Myrtle Beach; Surry Boy Is Killed In Crash; Negro Killed When Run Over Near Wendell

Violent deaths claimed five lives in North Carolina over the week-end, a survey revealed yesterday.

At Clinton, Faison C. Parker, 37 years old and popularly known died of a self-inflicted pistol wound. He was found mortally wounded sitting by a telephone upon which it was said, he had been talking to a young woman friend.

Dr. George E. Newby, 65-year-old physician of Hertford, died instantly in a crash of cars on the highway between Taboro and Rocky Mount. His nephew, W. A. Williams, and the occupants of the other car, R. L. Dunn and J. E. Hull of Edgecombe county, were seriously injured. Finding evidence of drinking, the coroner ordered Dunn into the sheriff's custody when he is able to leave the hospital.

Enjoying the surf at Myrtle Beach while on a weekend holiday with a group of friends, Oliver O'Neil Sigmon, 17, of Greensboro, was drowned.

A group of young people were returning from an ice cream supper in Surry county when their car overturned, killing Joe Bell, 16, of Sliam, seriously injuring Ernest Posey and inflicting slighter hurts on two other young men.

While trying to dodge one automobile on Highway 90 west of Wendell, George Wilder, 70-year-old Negro, was instantly killed when struck by a Norfolk Southern bus driven by W. T. Walker, who was absolved of blame by a jury empanelled by Coroner L. M. Waring.

Three women—Mrs. W. S. Greenwood, Lula Greenwood, High Point, and Mrs. D. C. Hunter, Winston-Salem—were injured when two cars crashed at an intersection in Mt. Airy. Eight other occupants of the vehicles were unscathed.

HERTFORD DOCTOR DIES IN CRASH NEAR TARBORO
Tarboro, July 28.—Dr. George Edgar Newby, 65, Hertford physician, was instantly killed and three other persons seriously injured as two cars collided on the highway between here and Rocky Mount this afternoon.

His nephew, W. A. Williams, of Hertford, who was driving the Newby car, was badly cut about the face and physicians said he possibly was suffering from internal injuries.

R. L. Dunn, 45, of near Leggett, in Edgecombe county, who was driving the other vehicle, sustained lacerations about the face and chest injuries. J. E. Hull, 65, of near Leggett, who was riding with Dunn, received facial cuts, a dislocated hip and internal injuries.

Dunn, who was said to be driving under the influence of liquor, was ordered held, following a coroner's investigation, to be turned over to the sheriff when he is able to leave the hospital.

Federal Jurist Backs Farm Act

Tennessee Jurist Upholds Constitutionality Of AAA Measure

Memphis, Tenn., July 28.—Processing taxes are legal under the welfare clause of the Constitution, District Federal Judge John D. Martin ruled in upholding the validity of the Agricultural Adjustment Act.

Martin, a life-long Democrat and President of the Southern Baseball Association only recently was appointed to the Federal Judgeship here by President Roosevelt.

The Judge, in his oral decision late last night, took cognizance that "certain district judges have pronounced the act unconstitutional and the United States Court for the first district in a two-to-one decision has so held," but that his court feels free despite such decisions "to pronounce independent views."

He held Congress has fixed the products to be taxed under the act, set up a sale of prices and therefore did not delegate taxing authority to the Secretary of Agriculture; that it was a tax and not a revenue measure.

Judge Martin's decision dis-

missed a suit brought by Jacob G. Lacroix, Memphis packer, to recover \$6,863 paid in processing taxes and denied an injunction to restrain the government from collecting a penalty of \$1,267 for failure to file a return within the legal time limit. The case is to be appealed.

"Consider the background of the act," Judge Martin said. "It was passed when an emergency existed. The situation was desperate, manifestly new measures were needed if prosperity were to be regained.

"No more serious problem existed than the predicament of the farmer. And so the Agricultural Adjustment Act was born. It remained unchallenged so far as its constitutionality was concerned for many months until improvement in the agricultural situation was noted.

"In the opinion of this court, reasoning practically, if any legislation has ever been necessary for the good of the United States and its farmers, it was the AAA.

"Concerning its constitutionality, the general welfare clause of the constitution gives legality to such a tax. The most serious question argued by counsel is whether the act is delegating a taxing power to the Secretary of Agriculture."

"Ma'am, here's a man at the door with a parcel for you."
"What is it?"
"It's fish ma'am and it is marked C.O.D."
"Then make the man take it straight back to the dealer. I ordered trout."

Only occupants witnessed the collision and none of them was able to offer an explanation. It was found, however, that the Dunn car sideswiped the other vehicle, which was headed toward Tarboro.

Call on us soon for a demonstration.

Superfex is available in five sizes—convenient, good-looking and built to give many years of satisfying service.

The cost of these advantages is small, as the only expense with a Superfex is a small amount of kerosene daily. Users say their costs are as low as \$10.00 a year—less than a dollar a month!

CONSTANT dependable refrigeration, right in the kitchen, where it is most convenient... foods that ordinarily spoil easily, kept fresh, wholesome and healthful... ice cubes when they are wanted... crisp salads... delicious desserts... chilled drinks... these are some of the benefits enjoyed by thousands of women who have placed Superfex Oil Burning Refrigerators in their homes during the past few years.

ABANDONED BABY RECEIVES GUESTS, POSES FOR PHOTO

Raleigh.—Joyce Angella Gray snuggled down in the crook of the nurse's arm, wrinkled her nose and looked mad.

She was having her picture taken in the children's ward at Rex Hospital yesterday afternoon—the baby who wasn't wanted.

After being jiggled around a bit, she inclined her head casually on forefinger and thumb and looked bored. Then she closed her eyes, smiled, and the picture was snapped.

Back in bed, temperamental Miss Gray began to squall when the photographer focused his camera again. She pedaled her thin legs up and down, flailed the air with her fists and sounded the yell with which she roused the neighborhood around John Swain's house on Glenwood Avenue Saturday night.

Joyce was left on County Commissioner Swain's front porch and she didn't like it. If P. B. Rogers, a neighbor, hadn't found her, she might have stayed there all night. The Swains were out of

town. Mr. and Mrs. Rogers called to see Joyce yesterday afternoon.

Raleigh police yesterday were searching for the mother who evidently abandoned the child, but reported little success up until last night. If her parents aren't found, Joyce will be turned over to the Wake County Welfare Department to be held for adoption.

Meanwhile, the baby seems to be enjoying Rex Hospital. Evidently undernourished, she's been gulping all the milk they give her. Yesterday afternoon she was snoozing in a crib that would have been large enough for all the Dionne quintuplets at her age.

Up until the time the photographer called, Joyce had received no visitors except some of the nurses and people who came to the ward to see other children.

Two youngsters in neighboring cribs conceded nothing to Joyce in the way of yelling. A young lady with a Kewpie curl seemed to think she was being neglected.

MOVIE THEATRE CARBON SURPASSES HEAT OF SUN

Schenectady, N. Y., July 28.—A discovery that man has surpassed the heat of the sun has been made with a camera at the General Electric Company.

In the movie theatre you see your favorite star on the screen by virtue of the light from the temperature of a flaming carbon arc which is 400 degrees hotter than the surface of the sun.

In some new welding arcs the heat flashes momentarily several thousand degrees above the sun. These discoveries are the result of accurately measuring for the first time the temperatures of the

A round-faced youngster kept quiet until the photographer's flash bulbs started popping and then he bawled.

Good homes are waiting for those babies. Joyce has none. All that was left with her on the Swain's porch Saturday night was a bottle of milk, a note giving the child's age and birthday and another note with feeding instructions. Joyce has a birthmark on her back, a small red spot over her spine.

hottest electric arcs—the of flame between two electrodes of various kinds of metal.

The highest previously measured heat was that of the tungsten arc, about 6,800 Fahrenheit, compared with 9,000 degrees of sun's surface. Nothing was known about the newly found arc temperatures, and it was commonly supposed they were much higher.

The common carbon arc, in most movie theatres, searchlights, and for illuminating the entrances at first night, has a temperature of 9,400 degrees.

The Tungsten arc burns at 300 degrees Fahrenheit. In certain welding arcs the hot stands at 10,300 degrees.

The camera reads the temperature by photographing a wave in the flaming gas of the arc. The sound is made by a loud spark at one end of the

J. S. MANN

I wish to thank the public for the loyal patronage and courtesy shown my store during my recent trip to Europe.

"Now I am back in the Harness", where my undivided attention will be given so this store will feature the best Quality Merchandise at reasonable prices. You will find the assortment and all sizes—large or small—narrow or long—equal to any city store. The partial list of National Exclusive Brands will be:—

- Hart Schaffner and Marx Clothes
- Florsheim . . Nunn-Bush . . Edgerton Shoes
- Star Brand Shoes— for the family
- Manhattan Shirts and Pajamas
- Interwoven Socks Archer Hosiery

I invite you all to inspect the greatest array of Fall Merchandise ever prepared in the history of my business.
