

New Boiler For Southport School

A new boiler has been ordered for the heating system of the Southport school building and will be installed before cold weather begins. Parents will be interested to know of this improvement, as there was considerable inconvenience last year as a result of poor heating facilities in the building.

Outstanding News
(Continued from page 1)

MAHATMA OUT

Rumors have reached London that a new political leader and foe of British government has arisen in India. The leader is Jawaharlal Nehru, educated at Harrow and Cambridge, and moving spirit of republicanism and independence since Mahatma Gandhi has abandoned his political crusades. Nehru's opposition to British rule, however, is expected to take a more definite and concrete form than that of Gandhi's passive resistance doctrines.

GOOD AS ANY

Adolph Hitler and his Reich reach a higher peak of importance in world affairs with the announcement that the rebuilt German army, by reason of its size and modernity, is probably as powerful as any in the world today. Visiting military officials from various countries class the new army as a powerful machine, "in modernity of spirit, training, weapons, officers, administration, barracks, regulations, uniforms, and equipment." The army is controlled by two factors: speed and standardization.

PEACE MEET FOLDS UP

A three-power conference which convened to suggest means of averting an Italo-Ethiopian clash collapsed in Paris Sunday, having done nothing toward its purpose. British, French, and Italian representatives were able to come to no common ground for discussion of the problem. There will hardly be other meetings of similar nature except at the League of Nations session which takes place at Geneva on September 4.

SPEAKS TO NATION

President Roosevelt, it was learned Monday, will go on the air at 9:30 (eastern standard time) Saturday night, when he addresses the young Democrats of America, meeting in Milwaukee. The address will probably consist of a recounting of the chief executive's stewardship up to the present time. Incidentally, he may use the opportunity to answer former President Herbert Hoover's demand that he state his attitude toward certain constitutional changes.

BECOMES FAMOUS

Isador J. Muller, who painted the last portrait of Wiley Post, is "sitting pretty." Muller, who was in financial straits, and who was facing eviction because of the unpaid rent on his studio, has become much in demand over night. He is engaged now in negotiations with a number of persons and groups for the Post portrait. In addition, he has been given a number of commissions.

COQUETTES IN CHURCH

Flirting in church doesn't pay, their parents had told Ruby Northingham, Opal Williams, Addie Hall and Lois Masterson, of Caledonia, Mo. But being from Missouri, the young ladies had to be shown, and they were—by Rev. G. T. Whitmer, pastor of the General Baptist Church. Incidentally, they also roped three boys into the trouble. Mr. Whitmer's complaint to a local magistrate resulted in trial of the seven young people last Wednesday of charges of "willfully disturbing a religious service." The boys pleaded guilty, paid fines, and were released. The young women were without means to pay fines, and were forced to ask release on parole.

LOSE "OLD HOMESTEAD"

The members of the Kappa Sigma Fraternity at the University of North Carolina are probably wishing that they had been less ambitious, or more independent financially. In 1930, to finance the building of a new house at the University, the fraternity gave a first mortgage on the new edifice. Later in the year they gave a second mortgage to the Jefferson Standard Life Insurance Company, of Greensboro. Now, because the first mortgage satisfied, there remains nothing for the payment of the second, the company is suing the endorsers of the mortgage. The Kappa Sigs "are in a spot."

DISHING IT OUT

During the last eight months, according to news releases of Friday, August 16, John D. Rockefeller, Jr., has made gifts amounting to some \$76,000,000, to charitable, scientific and educational organizations. What organizations and individuals are the

recipients of these gifts has not been announced, and Rockefeller maintains a discreet silence on the subject. It is known, however, that in event of his retaining the stock which he has recently given away, the anticipated federal tax law would have "soaked him plenty."

COULDN'T TAKE IT

Hungry, almost naked, and completely exhausted, two young men, Tom Vitos, 23 and Graham Ring, 19, returned to civilization last Thursday. They had made a wager with a druggist, William Rast, that they could live in the wilds for 30 days on their own resources. They got back to Tacoma after eight days' trial, and they face the unattractive task of piling bricks for Rast for a period of 100 days without pay. Trunks and gym shoes, they said, were not much protection on unexpectedly cold nights.

SOUTHPORT MAN SUICIDE VICTIM

Continued from page one
Willis, of Canavarel, Fla., and Miss Edith Carolyn Gaskin, of Southport.

Funeral services were conducted Sunday afternoon at 3:00 o'clock from the Trinity Methodist church in Southport with the Rev. C. A. Jones in charge. Members of the Brunswick County Post Number 194, American Legion, attended the funeral in a body and preceded the casket into the church.

Full military honors were observed at the grave. Under the direction of Commander Robert C. St. George members of the local legion post paid a final tribute to their deceased buddy. G. Vann Fesperman read the war record of the deceased, R. W. Davis served as chaplain and LeRoy Burnes blew taps. Members of the Coast Guard also were in attendance and the firing squad of the Naugatuck fired three volleys over the grave. The funeral, which was one of the most impressive ever conducted here, was attended by an unusually large crowd, including many out-of-town visitors.

CCC CAMP HOST TO MEMBERS OF THE CIVIC CLUB

Continued from page 1.) "America" and this was followed by a vocal selection by a group of boys from the camp. Guests at the meeting were introduced by President R. I. Mintz. Visitors included Robert D. Caldwell, district director of the PWA and Vernon Cunningham, also of the Fayetteville office. R. W. Davis introduced Judge E. H. Cranmer as the principal speaker of the evening. In a short but forceful talk, Judge Cranmer talked about men, declaring that the biggest thing in the world is a man.

At the conclusion of the talk by the judge, there was another musical selection by the CCC boys. There appeared to be no business of major importance for consideration at the meeting and the regular business session was dispensed with.

The final feature on the program was the showing of a number of lantern slides with explanatory remarks by Zack Williams, educational director at the camp, and W. P. Killett, project superintendent. These slides showed the work being accomplished through the program of reforestation that is being conducted and also showed the beginning of the soil erosion work in the western part of the state. Guests were free to ask any questions they wanted to and the pictures were thoroughly enjoyed by everyone present.

RECORDER HEARS SEVERAL CASES

(Continued from page one) condition that the defendant remain of good behavior for the next 2 years and pay the costs of this action.

Holden Corbett, colored, was found guilty of closing a public road. Motion for non-suit offered by the defendant's counsel was denied and notice of appeal to Superior Court was given.

Donald St. George, white, was found guilty of being drunk and disorderly. He was sentenced to 90 days on the roads, this judgment to be suspended upon condition that the defendant remain out of Brunswick county for a period of 2 years.

EARLY EMPLOYMENT PROMISED PERSONS ON RELIEF ROLLS

(Continued from page 1.) real benefit to both the worker and the local communities. I realize that we must have the cooperation and interest of the local governing bodies if we are to do this successfully. It has heretofore occurred to me that there may be many useful types of work of a clerical, technical and professional nature in the various county and city offices for which the WPA would fur-

nish the labor if the local boards of county commissioners, boards of health and of education, city fathers, etc. were willing to furnish a proportionately small outlay of funds for such necessary material equipment as paper, mimeographed forms, typewriters, glue, book mending and binding materials, etc.

"There are probably many volumes on your court house shelves which are in need of repair; there may be statistical data which it would be helpful to have compiled for your auditor, clerk and register of deeds, or your county or city superintendent. Perhaps the health officer could use some trained and practical nurses, under his direct supervision of course, who would be paid from WPA funds."

Some of the types of workers which are to be used on the projects among the women follow: Dieticians, home economists, pattern makers, seamstresses, practical nurses, public health nurses, registered nurses, gardeners, landscape gardeners, librarians, vocational teachers, bookkeepers, clerks, file clerks, stenographers, typists, and mimeograph operators.

WHITEVILLE MART SETTING RECORD

(Continued from page one.) South as Dorchester County, South Carolina, more than 200 miles away, and as far North as Vance and Granville Counties, in this state, a distance equally as far.

During the past nine days the market's poundage record has been broken. The amount of money paid to the grower by Whiteville's warehousemen is far greater than any amount ever paid during a similar period and more satisfied patrons have been added to this market's long ever growing list.

Shivering with Chills

Burning with Fever
Sure Relief for Malaria!

Don't try homemade treatments or newfangled remedies! Take that good old Grove's Tasteless Chill Tonic. Soon you will be yourself again, for Grove's Tasteless Chill Tonic not only relieves the symptoms of Malaria, but destroys the infection itself.

The tasteless quinine in Grove's Tasteless Chill Tonic kills the Malarial infection in the blood while the iron it contains builds up the blood to overcome the effects of the disease and fortify against further attack. The twofold effect is absolutely necessary to the overcoming of Malaria. Besides being a dependable remedy for Malaria, Grove's Tasteless Chill Tonic is also an excellent tonic of general use. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle today at any drug store. Now two sizes—50c and \$1. The \$1 size contains 2½ times as much as the 50c size and gives you 25% more for your money.

All tobacco have been selling high, especially since Monday, when they took a skyward jump only equalled by a stratophoric flight. Every leaf on the stalk from the sand lugs to the tips have been selling high. Tobaccos from \$15.00 to \$40.00 have been stronger than the commoner grades, but there has been practically no dissatisfaction expressed over the price being paid for the cheaper or low grade tobacco. As for the markets' poundage

1,030,878 pounds of the leaf was sold here the first two days, opening week; 2,498,624 pounds was sold last week bringing the total poundage for the season up to 3,529,502 pounds and Monday's big record breaking sale of 758,774 pounds brought the markets sales up to 4,288,276. Tuesday's sale, which was not so far short of Monday's weighed out 700,056 pounds and gave the Whiteville market a seasonal poundage of 4,988,332, nearly one and a half

million pounds ahead of last year's figures. The average price paid to the grower has been equally as pleasing to both this city's warehousemen and those men who have brought tobacco here for sale. Of course the average price for a sale is always determined by the quality of the leaf and for that reason the average price reported by various warehouses differ. However, Whiteville warehouse have reported official averages of

\$26.04, \$28.03, \$24.63, \$23.81, \$25.68, \$24.53 and as \$22.16 per hundred. Many bacco growers have reported individual averages of thirty dollars per hundred or better.

I looked up Satisfy and it says—

SAT-IS-FY. Something that pleases, gives satisfaction; something that just suits. For example, you are pleased with a dress. As applied to cigarettes, it means one that is **MILD**—that is not harsh or bitter; one that **TASTES** just right.

Chesterfield... the cigarette that's MILDER
Chesterfield... the cigarette that TASTES BETTER
