ADMINISTRATOR'S NOTICE Having qualified as administrator of the estate of L. W. Ganus, deceased...

Winnabow News Dr. R. E. Arp, Henry, James and Aaron Earp, Earl Smith and Mr. Selly of Selma came down Sunday to visit Mr. and Mrs. G. C. and G. E. Earp...

Miss Fannie Henry spent Wednesday afternoon and night with Mrs. Susie Zibdin in Wilmington. Mr. Charles F. Jones was a visitor Friday at the home of Mrs. J. L. Henry, his sister.

Mr. and Mrs. S. O. Craven spent Friday in Norlina on business and Friday night in Wilson with Mr. and Mrs. H. W. Craven. Sheriff David Jones and Messrs. Douglas Taylor and Harry Solomon were visitors here Friday on their return from the Kiwanis Convention in Charleston, S. C.

Friends will be sorry to learn of the death of Mr. Hulon Tharp, formerly of Town Creek late of Darlington, S. C. Mr. and Mrs. C. H. Zibelin, Mr. and Mrs. Webb Tharp and Messrs. Dillon, and John L. Tharp, relatives, motored down Friday to attend the funeral.

The family of Mr. Johnnie Swain held their annual reunion Sunday. There were about 40 present and picnic dinner was served. All enjoyed the day.

Mr. and Mrs. D. E. Goodson spent Saturday night and Sunday in Charleston, S. C. Mr. E. G. Goodwin, a student at the University of N. C. Chapel Hill spent the week-end with his mother, Mrs. E. G. Goodman.

Mr. and Mrs. T. S. Memory of Whiteville were visitors here Sunday afternoon. Mr. and Mrs. S. O. Craven, Mrs. Nellie Walker and Miss Hansie Williams spent Sunday with Mrs. Jannie Craven in Wilmington.

Dr. and Mrs. Victor Sullivan and Miss Mollie Eay of Wilmington were visitors at Mr. and Mrs. G. C. Earp's Sunday evening. Miss Hazel Shaw of Wilmington spent Saturday night and Sunday with the Misses Reids.

Mrs. J. C. Nichols, who has been spending sometime with friends, returned to Southport Thursday evening. The Lanvale Presbyterian Sunday School won the banner for attendance at the Sunday School convention at Southport Sunday. Reverend Shuford Peeler, who has charge of the convention, and Mr. Bodine and Mrs. Carrol from St. Andrews Presbyterian church in Wilmington stopped by here Sunday evening for awhile with Mr. and Mrs. J. L. Henry.

Mrs. Virda Green left Friday to visit relatives at Wrightsville Sound. Mrs. Johnson of Southport kindly took Mrs. Lizzie Holden, Mrs. Amanda Rabon, and F. H. Willard to Wilmington on Friday and had them fitted with reading glasses.

Mrs. Ethel Fulwood and Mrs. J. E. Harper were also callers at the Home during the past week. Among the visitors on Sunday were Mrs. Johnson, Mrs. Asa Cox, Miss Dorothy Fulwood, Mrs. Bessie Swan, Mr. and Mrs. Fred Smith and Miss Evelyn Smith, Mr. and Mrs. John Chadwick, Mrs. Harry Chadwick and Mr. John Zandie, from Shallotte, Mrs. Nanie Williams and Miss Gladys Williams, of Southport, Messrs. Onsbey, Samuel and Buck Smith, of Salem, N. J., and Mr. Joe Beck, of Winnabow, called at the Home on Monday. On his trip home Mr. Beck took Mr. Henry Flowers for a visit to his relatives.

The keeper, Mrs. B. C. Williams made a business trip to Shallotte Monday afternoon. Mr. W. J. Sear spent several days visiting friends in Wilmington, returning to the Home on Tuesday, of the past week.

Poker is no game for weak hearts, weak hands, or cold feet. A stock exchange is where they exchange stacks—stacks of money for stacks of experience.

FARM CHATS

With the haying season well under way the farmers are interested in saving some seed for next years crop.

Do not forget the garden seed such as okra, field peas, and the like. Pick a warm day when the pods are dry and pick and shell, storing in a wooden container or tight sack. Store in a dry place and if weevils appear close in a tight container and place two or three tablespoons of carbon disulfide in top of the pile. Let the seed stay closed twenty four to thirty-six hours away from the occupants of the home or any flame. Remember, the fumes from this fumigant are poisonous and explosive.

Do not forget to save a good supply of soy bean, velvet bean and field pea seed for next year's crop. A planting saved may mean a crop made next year. As one farmer stated this past week, the soy bean is one of the most valuable and profitable crops.

The North Carolina State Experiment Station proves again the value of using waste materials for enriching land. Their results show that "Tobacco stalks and low grade tobacco leaves are relatively high in both nitrogen and potash. If kept dry and supplemented with phosphates they make an excellent fertilizer for grain and grass crops. Equal parts by weight of tobacco leaves and stalks and sixteen per cent superphosphate has approximately the same analysis as a two-eight-two fertilizer. The tobacco may be ground or chopped and mixed with phosphate or may be distributed in furrows and followed by the fertilizer. This is a fine top dressing for thin spots. Remember, do not use tobacco trash as it will spread disease.

Mr. David Sellers and Mr. Harry Robinson, of Supply, made a business trip to Clinton Friday. Mr. Willie Clemmons and Miss Oleta Mooney, of Supply, motored to Conway, S. C., Saturday night and were happily married.

Mr. and Mrs. Paschal Thomas, of Whiteville, spent the week-end with Mrs. Thomas' parents, Mr. and Mrs. G. W. Kirby. Mrs. Ike Davis, of Southport, had the misfortune to run in Mr. Earl Arp's truck Wednesday afternoon at the junction at Supply. The occupants of both truck and car escaped injuries.

Mr. and Mrs. H. C. Stone, of Shallotte, were Sunday afternoon visitors of Mr. and Mrs. Lee Clemmons. Mr. and Mrs. R. E. Sentelle and Mr. and Mrs. Doc Robinson, of Southport, were Sunday visitors at the Brunswick county stockade. Born to Mr. and Mrs. Bartley Potter last week a fine baby girl.

Supply Rt. 1 News

Miss Lula McCall and Mr. Edd Holden were quietly married Sunday afternoon at the home of Justice of Peace L. Fulford. Only intimate friends were present. The young couple will make their home in this community. They have a host of friends and relatives to congratulate them. The health of the community seems to be fine at present. A revival meeting is expected to be held at Oak Grove Baptist church next week the pastor Rev. Huggins announces. Everybody is cordially invited to attend. Mr. and Mrs. Bartley Potter announce the birth of a baby girl, Gloria Frances, on October 11.

Reverend and Mrs. Frank Potter, Mrs. Willie Potter and Mr. and Mrs. J. E. Robbins were visitors at the home of Mr. and Mrs. Z. V. Phelps last Sunday. Mr. and Mrs. Isaac Todd and children from Shallotte village were visitors of Mr. and Mrs. Ralph Todd Sunday. Mr. and Mrs. Olen Clemmons and children, Eva and Mazelle, of Sassa Pan were visitors in this community Sunday. Miss Delma Clemmons and Mrs. Dorothy Todd spent part of last week in Shallotte village with Mr. and Mrs. Isaac Todd. Mr. and Mrs. Lucian Holden of Boones Neck were visitors in this community Sunday.

"You are an honest boy," said the lady as she opened the roll of five one-dollar bills, "but the money I lost was a five-dollar bill. Didn't you see that in the advertisement?" "Yessum," answered the boy. "It was a five-dollar bill that I found, but I got it changed so you could pay me a reward."

Resettlement Administration Buys Land In Bladen County

Thirty thousand acres of run-down farm and wooded lands in Bladen County, near Elizabethtown and Fayetteville, are to be purchased by the Resettlement Administration for use as a demonstration forest, game refuge and public recreation ground, it was announced this week by James M. Gray, of Raleigh, Regional Director of Resettlement's Land Utilization Division.

The purchase area, for which an allocation of \$124,000 has been made, is designated as the Jones, Salter and Singletary Lakes project. Within the area are a number of state-owned lakes, making it admirably suited for recreational development. The project is viewed by Resettlement authorities as a demonstration of the proper utilization of this land.

As originally planned, the project did not include Singletary Lake, one of the finest bodies of water in that area, but at the request of a large number of North Carolina civic leaders and civic organizations, the project was amended to include Singletary Lake. Options on approved acreage are now being accepted, Mr. Gray said. Owners of the land purchased will be paid by the Government when titles have been approved by the office of the Attorney General of the United States. All land being acquired by the government has been offered for sale voluntarily by the owners.

The Jones, Salter and Singletary Lakes Land was selected for a demonstration project because of the low agricultural fertility of the farming lands there and the adaptability of the lakes and woodlands to recreational uses. On other projects of a similar nature now being developed by the federal government, the improvements include telephone lines, roads, trails, lookout houses, fire towers, fences, bath houses, camp grounds, reservoirs and vacation cabins.

"The lands within the project are of such low productivity that the farmers and settlers in recent years constituted a relief load greater in extent than in any other rural section of the state," Mr. Gray said. "The development is designed to demonstrate the feasibility of giving stranded and former relief families a new start and of converting a non-productive area into a use that will benefit the people of that section and the state as a whole."

Preliminary development plans call for improvement of a number of lakes and the surrounding areas as recreational centers, the reforestation and restocking of the timber of the area in the varieties of timber peculiar to that section. Those farmers living on the poor land in the Jones, Salter and Singletary Lakes project area who request aid will be assisted by the Resettlement Administration in locating on better nearby farms.

Under the tentative development plans, the project will become self-liquidating through the sale of hunting and fishing permits and the production and sale of timber and forest products such as pulp mill stock, telephone poles, veneering stock, shingles and naval stores, Mr. Gray added.

Legume Crops Need Bacteria

When legumes are planted for soil-building purposes on a field where they have not grown for several years, the field should be inoculated with nitrogen-forming bacteria.

Without these bacteria, the legumes cannot absorb nitrogen from the air and are, therefore, of little value as a soil-builder, said I. V. Shunk, professor of botany at State College. The bacteria which affect some legumes will not effect others. Hence it is essential to inoculate the soil with the right kind of bacteria, he added.

One method is to take surface soil from a place where there have been legumes like those to be planted in the new field, and broadcast this soil over the field at the rate of 300 to 500 pounds per acre.

This had disadvantages, since the new soil may spread weeds or plant diseases. A good method is to introduce the bacteria through the use of commercial cultures, Professor Shunk pointed out. The cultures are inexpensive and may be obtained in liquid form, on solidified agar, or in soil or peat. The cultures can be placed in the soil where they will

ment plans, the project will become self-liquidating through the sale of hunting and fishing permits and the production and sale of timber and forest products such as pulp mill stock, telephone poles, veneering stock, shingles and naval stores, Mr. Gray added.

be near the roots of the legumes. Even if the new field has grown legumes in recent years, the amount of bacteria left in the soil may be small, and it is economically unsound not to inoculate the soil, the professor stated.

He also pointed out that when legume crops are cut for hay, the nitrogen in the plants is removed. Plowing under the remaining roots and short stubble will not help the soil very much.

Miss Sharp—The great men are all dead. Isn't it a pity! Mr. Smart (looking intently at her)—But the beautiful women are not.

Mrs. Cattermole—I believe I won't keep my rubber plant any longer. Mrs. Gingerpop—Why, I think it looks very nice. Mrs. Cattermole—Yes, but I've had it two whole years and it hasn't raised a single pair of rubbers yet. I don't believe it is going to bear.

More than 2,500 ears of corn were selected and entered at the recent Cleveland county fair by farmers of the county.

ITCHING SORE SCALY SCALP DRY BALD PATCHES CRUST. Most scalp troubles involve a parasite of some kind—a living organism that causes infection with resulting itch, scales, crust, thin and falling hair. Here, at last, is a treatment that not only destroys the parasite but helps repair the damage done. It is Dr. Porter's Antiseptic Healing Oil and it works wonders in correcting scalp and skin troubles. Stops itch almost instantly. Softens and removes crust. Cleanses and stimulates the whole scalp, making it white and wholesome and promoting growth of new hair. Dr. Porter's Antiseptic Healing Oil is made by the makers of Grove's Laxative Bromo Quinine and is sold by all druggists at 30c and 60c with guarantee of satisfaction or money back.
