

Veteran Weedman Visits County

E. J. Chambers, Fairmont Warehouseman Of 40 Years In County Looking Over Tobacco Crop

E. J. Chambers, veteran Fairmont tobacco warehouseman, senior member of the warehouse firm of Chambers, Reeves and Co., and dean of warehousemen of the Border Belt markets was a visitor in the county today. He has operated a tobacco ware-

house in Fairmont for the past 40 years. Mr. Chambers related that he solicited tobacco in this county 35 years ago, driving a horse and buggy, before the days of good roads. Part of way usually had to be covered on foot he said. Mr. Chambers is of the opinion that tobacco will sell good this season and grade for grade the average will probably be higher than last year's.

NAIL HARDWOOD TO STAY PUT

(Continued from Page 1) make up for the smaller diameter that must be used to reduce splitting. When the framing is a dense hardwood, a shorter nail, but of the same diameter, can be used because of the higher nail-holding power of the dense hardwood. In nailing dense hardwoods the nails should be set back as far from the end as possible, and blunt-pointed nails rather than long-tapered, sharp-pointed ones should be used to prevent splitting. Waxing nail points will

make them drive easier. A study of nails at the Laboratory has shown that a nail with a blunt point will not split the wood so badly as a common nail, and in denser woods is equal to the common nail in holding. It was also found that the old custom of putting a small amount of beeswax on the point of the nail materially reduced the percentage of nails that bent in driving.

TOBACCO CROP REPORTED LESS THAN IN 1940

Plants are irregular in size, but late June and early July rains restored soil moisture and growth is now evening up at a satisfactory rate. Recent rains have been excessive in some areas but no serious damage has been reported.

OTHER CROPS

"Peanut growers reported a five per cent decrease in acreage and a condition of 76 per cent on

July 1 compared with 81 per cent a year earlier. Soybean and cowpea acreages grown alone are up three per cent and 12 per cent respectively from a year ago. Sweet potato production is expected to be 18 per cent above the 1940 crop.
