the bridegroom, Eve was the bride, and God, Himself, was the officiating minister. The story of that first marriage, when God gave Eve to Adam, comes to us with the freshness of Eden, itself.

Your Tax Information

WASHINGTON—The following tables show how stiff increases in the regular income tax and surtax rates and lower personal exemptions plus a new 5 per cent levy on all income above \$624, will affect individuals under the bill approved by Congress.

For purposes of the table, net income subject to the regular income tax is computed at 90 per cent of gross income on the assumption that taxes, contributions and other deductions average 10 per cent. The victory tax applies to all income above \$624 and is offset by the debatable portion represented in the post-war credit.

not entered their lives. That the woman should have been from the man's side is also of precious significance. Not from his head to rule him, nor from his feet to be his slave, but from his side, to be his comrade and friend, to reign as a queen with him in the exercise of life's glorious privileges.

Meacham explained that kudzu crowns are planted, usually during February and March. The crowns are set out in beds, similar to watermelons and about the same distance apart. The crop grows comparatively well on poor soils, but responds readily to applications of fertilizer.

Akron, Ohio, recently held a Give-a-Gun campaign to aid the scrap metal drive, fixing a quota of 12 1/2 lbs. per person — the amount of metal in a 30-caliber machine gun. A parade featured two 10-ton steam rollers, a 7-ton concrete mixer, several hearses.

KUDZU 'RESCUES' FARMERS AS OTHER HAY CROPS FAIL
Kudzu, a plant which was used principally as a porch vine until a few years ago, came the rescue of North Carolina farmers this year when other hay crops were ruined by rains in July and August. "The 1942 season was not very favorable for most hay crops," reports E. H. Meacham, Extension soil conservationist of N. C. State College. "Wet weather during the summer ruined many tons of hay before it could be properly cured. Such was not the case with kudzu."
