HERE'S ONE BILL

That Costs You No More Today Than it Did 25 YEARS AGO

Although your cost of living has steadily increased, here is one thing—an important thing in your life—that actually costs you no more today than it did twenty-five years ago. It's your telephone!

This record of low cost performance, in these times of rising prices, is enough alone to stand out like a beacon in the night.

In addition the service has greatly expanded and as more telephones have been added the relative cost of the user has steadily declined. Today you can reach many more people by telephone—the better to serve your needs for business or personal use.

This record—which stands out as an achievement—is becoming more and more difficult to maintain as the costs of everything going into the furnishing of telephone service continue to rise.
