Forest Service

New And Improved Equipment Will Make It Possible To Do This Work At Small Cost To The Property Owner

County Forest Warden D. L Mercer announced this week that plans have been completed by the N. C. Forest Service to provide three tractor-plow units for presuppression fire line plowing in Brunswick county this year.

This announcement followed a meeting of county wardens and association rangers of district no. 8 held at the Forest Service District Forester W. L. Brewer, Jr., of Whiteville, outlined the policy which will govern the use of this equipment. Under the adopted plan these units will be available to plow fire lines for individual timberland owners for the actual cost of operation of the equip-

Establishment Of

Damage To Crops Varies In County

If you hear conflicting reports concerning the amount of damage that has been caused Brunswick county crops due to the recent rains, don't be inclined to discount any of them without due consideration. The fact is that some sections have been hard hit, while others have suffered little if any dam-

From recent travel about the county it appears that the tobacco in Smithville and Town Creek township has been the hardest hit. Many farmers have lost a major portion of their crop as leaves wilted right in the field.

Most of the farming in Brunswick takes place in Lockwoods Folly, Shallotte and Waccamaw townships, and this area has managed thus far to escape serious loss. The greatest threat to farmers in that sec- next spring. Purchase of the land tion now comes from the possibility of tobacco ripening too rapidly to be taken care of in available curing barns.
