

SOCIETY

EVANS-THATCHER

Miss Claire Thatcher and Clyde Evans were united in marriage at Soldier's Bay Baptist church, Saturday, June 21st, at 11:30 o'clock. Rev. Woodrow W. Robbins performed the ceremony.

Mr. Evans is the son of Mr. and Mrs. Lonnie Evans, of the Ash community. Mrs. Evans, formerly of Raleigh, was Home Economics teacher at the Waccamaw school during the past session.

BLACKMON-REAVES

Mr. and Mrs. C. H. Reaves, of the Thmasboro community, announce the marriage of their daughter, Louise Reaves, to Lonnie Blackmon, of Whiteville, on Sunday, June 15th.

Shalotte Point Is Busy Place

Visitors Flocking There For Early - Summer Vacations And For Fishing Trips

Indicative of early in the year interest in Brunswick county beaches and coastal fishing points, the Anchor Hotel at Shallotte Point filled up all of its available accommodations Thursday and remained that way over the week-end. John W. Garner, who with Mrs. Garner owns and operates this nice little hotel, says that the outlook is for a continuous filling up of all facilities at the Point.

The hotel, together with cottages owned by the Garners, has 24 bed rooms available. W. Murray, John Chadwick and Jess Williams also have cabins and cottages at the Point that they make available to visitors. Sheephead are beginning to bite good around the docks and old wrecks at the mouth of the river.

BIRTHDAY PARTY

Mr. and Mrs. Charles Trott gave a surprise birthday party Sunday afternoon, June 22, honoring Mrs. Trott's sister, Miss Olive Hood. Guests were Mrs. Vine Leggett, Miss Loraine Hewett, Miss Eloise St. George, Miss Marion St. George, Mr. and Mrs. Robert Jones, Mr. and Mrs. Ed Mallison, Dr. and Mrs. B. W. Wells, Miss Emma Lou Harrelson, James McKeithan, Glenn Kauser, Lou Gilliam, Caroline and Martha Mallison and "Skeeter" Trott. Ice cream, cakes and other refreshments were served.

Patent Office Approves Fair Bluff Man's Invention For Fire Alarm

FAIR BLUFF, June 19.—Invention of an automatic fire alarm and extinguisher system by Dempsey Coleman, of Fair Bluff, Columbus county, was disclosed today by the inventor.

Mr. Coleman has just returned from Washington, D. C. where he went in connection with a working sample of his recent invention which was submitted to the U. S. Patent Office.

The new system has received the approval of the patent office, according to advices received by Mr. Coleman from Washington.

The alarm and extinguisher combination is entirely new. It is controlled by an electrical thermostat arrangement which begins functioning when a certain degree of heat is reached in a room by setting off an alarm bell at a central unit. There it indicates the room number or exact location of a building in which a fire is beginning. A chemical cartridge is exploded and a strong extinguishing chemical goes into action to put out the flames.

Mr. Coleman set to work in mapping out the new system following the disastrous Winecroft Hotel fire in Atlanta. Several hotel operators have heard the principles of the Coleman system, and have expressed interest in the invention.

California shipped more than 39 thousand cars of fruits and vegetables to New York City in 1946. New York State sent more than 35 thousand cars.

Paul Revere, Revolutionary War hero in the United States, was a silversmith whose specialty was fine silver beer tankards.

In 1909, U. S. people spent about three-fourths of their incomes for food, clothing and shelter.

In 1940, less than 15 percent of rubber consumed in the United States was produced from domestic sources.

The Pacific has only one-third the drainage area of the Atlantic because mountains lie close to most of its shores.

In 1946 more than a trillion dollars in checks were handled by U. S. banks.

Tabor City Man Victim Of Heart Attack In River

Clyde Manning Stricken During Swim And Goes Under; Body Recovered

Clyde Manning, 40, of Tabor City was stricken with a heart attack while swimming in Lumber River at Williamson Landing between Cerro Gordo and Evergreen late Friday afternoon and vanished under the water in the presence of his two young sons and two other youths who were with him.

Manning was hauling sand for Woodrow Grainger and had the party of four boys with him. After loading the truck, the group decided to take a dip in the water.

Hot from their labors, the quintet went out into the river and Manning's younger son, Wayland, got out into deep water and called for help. Heroically, Manning exerted himself to get the boy back to shallow water and then suddenly went limp. His body floated downstream for about 120 yards and then sank. Watching helplessly the small boys saw the victim's body disappear.

His son, J. C., said his father made no outcry. They hurried to a nearby field in search of help, but the body was not recovered until several hours later. It was located about 30 yards from the point where Manning was last seen.

Coroner Hugh Nance examined the body and came to the conclusion that Manning was the victim of a heart attack.

With the Tabor City man at the time he was stricken were his sons, J. C. and Wayland, and two boys, Bob Watts and Robert Allen.

Surviving are his wife, Mae Anderson Manning, five children, Leon, Hazel, Kitty Jo, J. C. and Wayland; two sisters, Mrs. Lee Duncan and Mrs. A. P. Odum, of Hamlet; four brothers, Ralph, of Tabor City, Archie, of Durham, Ernest, of Galena, Kansas and Eldred, of Savannah, Ga.

Funeral services were conducted from the home Sunday afternoon at 4 o'clock by Rev. Ralph Baxley and interment followed in the Lebanon cemetery near Williams Township School.

Man With Broken Neck Still Alive

Hugh Blackman, Of Whiteville, Route 3, Injured In Dive From Pier

Hugh Blackman, 22-year-old truck driver whose neck was broken in a dive from a Lake Waccamaw pier Thursday night, still clung tenaciously to life today and may recover.

In Columbus County Hospital where he was carried shortly after the accident, Blackman's condition apparently was unchanged but hopes were held out that he will live.

The young resident of Whiteville, route 3, was in the company of friends at the Lake Thursday evening about 9:30 and sustained the broken neck when he struck the water after a dive off the pier.

Home Games

Whiteville's American Legion Juniors will play Laurinburg today and Wilmington on Wednesday in the high school park for their only home games of this week. If the locals can capture these two tilts while Wilmington is losing theirs, they could end up the third week of play with a four game lead in the league.

With Radcliffe making his appearance on the mound for the locals Friday, a much needed rest was given to Cal Davis, Rude Williams, and with the exception of the three innings he worked, Cole Jacobs.

Flue-Cured Market Dates Will Be Fixed Tomorrow

15-Member Committee Will Meet In Raleigh To Settle Tobacco Regulations

Dates for opening of the flue-cured tobacco markets will be fixed tomorrow at a meeting in Raleigh by a 15-member committee representing growers, warehousemen and buying interests.

J. Cox Lanier, executive secretary of the Tobacco Association of the United States, announced that the committee also would determine the weight of baskets, speed of auction sales and the number of hours markets will operate per day.

The Tobacco Association opened a meeting in Raleigh Thursday in joint convention with the Leaf Tobacco Exporters Association. The leaf exporters group elected officers for the coming year and among others named James Roundtree, of Lumberton, who is well known on the tobacco markets of Whiteville, Clarkton, Chadburn, Tabor City and Fair Bluff, on the executive committee.

Mrs. Louise K. Anderson, attractive Tabor City woman, today became the first woman juror in the history of Columbus County Superior Court.

Liquid helium boils at 427 degrees below zero Fahrenheit.

The harbor of Sydney, Australia, extends inland 13 miles.

West Point is the oldest military post in use.

The state of Washington is 5,215 miles of railroad.

Bees are often more important to farmers as pollinators than honey gatherers.

Grasshoppers destroyed in the United States valued \$400 million from 1936 to 1946.

World consumption of oil hit a peak of 30.6 million in 1936.
