**Two Neutral North Carolina Newspapers Speak For The People Regarding The Cancellation Of A Court Term!**

*The following editorials, BOTH OF THEM WRITTEN ON THE SAME DATE, were published by two different North Carolina newspapers, neither of which have any interest in Robeson County's Court Terms.*

**THEY PRESENT THE HUMAN SIDE OF THE ISSUE.**  
**THEY SPEAK FOR THE RANK AND FILE CITIZEN**

From  
**GREENSBORO DAILY NEWS**  
May 7, 1948

From  
**THE DUNN DISPATCH**

**OTHERS BESIDES LAWYERS INVOLVED**

No disposition has the Daily News to barge into the argument over cancellation of the May Term of Robeson County Superior Court down in the seventh congressional district where at least one of the candidates for the seat to be left vacant by Representative Bayard Clark is essaying to make it a political cause celebre. But there does seem to be an element of general public interest and accountability in the incident.

Robert Young of Harnett County has charged that the term was cancelled in order that Solicitor Ertel Carlyle, his Robeson County opponent for the congressional nomination, might give his full time to campaigning down the home-stretch. While Mr. Carlyle dismissed the allegation as "political propaganda," friends assert that the term was called off because of heavy farm duties in Robeson at this season of the year. They point out that because of the late Winter planting season in Robeson, a predominantly agricultural county, falls just at the May term of court and that farmers should not be interrupted at this time. Officially the term was cancelled by Governor Cherry at the unanimous request of the Robeson County Bar Association.

Without going into the merits of the argument or becoming a party to any of the political implications, the Daily News does think that this matter of cancelling terms of court, especially if and when a docket awaits disposal and defendants may be lounging in jail awaiting determination of their guilt or innocence, should be approached advisedly and dealt with gingerly. Fairness, the expedition of justice and the public interest should be determining factors. It seems to us that court business, schedules, procedures, et cetera, are left too largely to lawyers, their wishes, recommendations and conveniences to subordination of the general public and its consideration as such. After all the courts are essentially public business in which plaintiffs, defendants, witnesses, jurors and other lay folk have a transcending stake.

Consideration of the Robeson County bar for farmfolks of the community is duly appreciated. But wouldn't it have been better if farm organizations, say, Grange, Farm Bureau, county agent, board of agriculture or what have you had taken the initiative in asking for or at least concurred in such a cancellation? What we are talking about now is not the seventh district congressional contest but the manner in which lawyers run a branch of the government which the general public established, pays for and patronizes.
