Stabilization Members Need Cards To Be Eligible For Parity Prices

If Original Is Lost, Duplicate Should Be Obtained Immediately From L. T. Weeks In Raleigh; Parity Prices Not Available Without Card

"Farmers are urged to have their stabilization cards with them at sale time or they will not be entitled to the parity prices this season until renewing their membership," according to Dave S. Neilson, sales supervisor of the Whiteville tobacco market.

At a recent meeting held in Lumberton to familiarize the warehousemen, supervisors, and other interested parties, of the changes in the Flue-Cured Tobacco Stabilization Corporations policies for this season, it was learned that farmers must be more careful with their membership cards if they are to be granted parity prices. Neilson stated that if a farmer did not have his card at the time of the sale of his leaf he would have to rejoin the stabilization corporation by paying another \$5 for membership, unless he obtained a duplicate from Raleigh before selling.

The memberships that were issued last season were good for three years if the farmer still has his membership card. If not, he must apply to the stabilization office in Raleigh. Any grower who has misplaced his card may receive a copy of the same by writing to L. T. Weeks, Box 1672, in Raleigh, North Carolina. A new membership card will be issued for \$1 from the stabilization's office in the capital.

"If any growers who expect to sell during the first week in any market do not have their membership cards they must obtain them before they sell and pay the \$1 fee for re-issue, or pay \$5 and join again," stated the supervisor.

The Whiteville market will open on Tuesday, August 3, and all growers are urged to have their membership cards with them in order to avoid any unnecessary delay in their sales on the local market.

Immigrants admitted to the United States rose from 38,119 in 1945 to 108,721 in 1946.

Abraham Lincoln's parents had between 700 and 800 acres of land when he was born.

CATHOLIC INFORMATION
Must We Believe Our Priests

"I can subscribe to most Catholic beliefs," a Protestant gentleman recently remarked, "but I'll be darned if I'll believe them because some Catholic priest tells me I must."

Must! What slaves that word makes of us; but are we not willing slaves when it is truth we must believe.

The school child must believe that there is such a place as India—that there was such a person as George Washington—that there will be an eclipse of the moon on a stated date. So also must you and I, not because we have discovered these things for ourselves, but entirely on somebody else's say-so.

But religion! Haven't we soul freedom? Can we not believe as we like? Well, hardly. If we are thinking men we must believe in an intelligent, creative God. If we are Christians, we must believe in humanly inexplicable mysteries—a Trinity of a single Divinity—a Virgin Birth—a Man who was God—a Resurrection from the dead—an Ascension into Heaven. We could not discover these things for ourselves. We must believe on the say-so of some person or some book.

And so with the Catholic and his priests. The priest does not, and cannot, create religious truths; but he teaches them with the same God-given authority with which the Apostles taught and converted the world 1900 years ago.

"Go ye, therefore, and teach all nations . . . teaching them to observe all things whatsoever I have commanded you, and lo, I am with you always, even unto the end of the world." Amen" (Matt. 28:19-20, King James' Version).

And that is just what the Catholic priest has been doing for nearly twenty centuries—teaching all nations all things whatsoever Christ commanded; and so he will continue to do, with the promise of Christ being with him, even to the end of the world.

Must we believe our priests? We must! For us it would be unintelligent to do otherwise.

If it's anything Catholic, ask a Catholic!
