County Farmers Busy With Crop

Growers Are Busy This Week Setting Out Tobacco And Cultivating Corn And Other Crops

Hundreds of Brunswick farmers are this week engaged in the dual tasks of cultivating corn and transplanting tobacco and a large percent of the Brunswick corn crop appears to be up and growing nicely, much of it four and five inches tall.

The cultivated fields are looking pretty. In fact all corn fields look that way, with a generally good stand prevailing.

Tobacco transplanting got underway last week with a good sized number of farmers getting out a few acres. This week the work became general. The plants average an unusually good size and apparently there will be ample for all needs. The crop is getting started on its way about two weeks earlier than usual.

WANTS FARMERS

County Agent A. S. Knowles is very anxious to get around 20 interested Brunswick farmers to attend the Field Day at Willard on April 21st. The meeting will begin at 10 o'clock and the main object is to study dairying and pasture work.

Supply; and Janie Hines, who will work through the colored schools at Supply and Bolivia.

High Times

(By Cheer Leaders)

News, gossip and fads are always plentiful in Southport high school, especially now since everyone has a touch of Spring fever. Here at school we are in contact with the news of baseball games, socials and various other activities and we know that you all would like to hear about them, too, so here we go with the news for this week.

We'll give you one guess what the new fad among Southport high school students is. It's none other than yo-yo's. It seems that the boys have gone yo-yo crazy during this past week. They may be seen between classes, at lunch, in the afternoon and always at night trying to learn new tricks with them. As for ourselves, we can't seem to find out how this fad got started but believe us it has and is in full force. Our boys are doing such a good job with them that now you can see some of the girls using their talent with them too. Someone evidently is becoming a millionaire. The homeroom teachers have collected so many yo-yo's that you need not be surprised to see them walking down the street in a daze with a yo-yo in their hand.

Our regular Saturday night dance consists mostly of the young people. Looks like our older folks have deserted us. Sue Williamson didn't show up this week because of a bad case of

chicken pox. If you want to see something funny, you should see her now. Because the people are drifting away from the dances, there isn't going to be another until April 30. So come on, folks, lets all go and have a good time.

Seen Around: Several of our better yo-yoists are Richard Brendle, who can do anything, Jimmy Ratcliffe, Janice Swan, our girl who wouldn't miss a dance, Jackie Marsh, who often finds the string as long as she is, Danny Harrelson and Bertram Burris, who should be able to yo-yo since they can play those complicated looking saxophones. Sunday our local team went to Winter Park for a tough game.

This is indeed school news because several of our boys play on the town team. Billy McDowell, who has played baseball for the American Legion team in Whiteville, and also played on our town team last year for awhile, is really a left-handed whiz. Douglas Watts, Gene Russ, Tommy Bowmer, G. W. Fisher, Bobby Spencer, Richard Brendle and Jimmy Ratcliffe are also important members of our town team. We saw Karen and Nancy Swan, Latitia Hickman, Mary Ann Lougin, Kay Moore, Elizabeth Lupton, Stuart Arrington and Eulene Stidham enjoying this exciting game. We see the band students bringing their instruments to school. They had a week's vacation when Mr. Stevenson was away last week. Even his band students were glad to see him back. It doesn't seem like school, without our musical director in the building some place and "Hot Chocolate", his car, out front. We see Patricia Adams, Gloria Hewett, Catherine and Rebecca McCracken practicing for the Baptist Easter cantata. Now more than ever we see flocks of young people going to "Oliver's" for lunch. It's easily understood when you try their food. Billy Doshier and Charlie Trott still get a laugh out of the speech Charlie made at the wonderful banquet the Lion's club gave the team and cheerleaders. Not that this is a secret, but we believe that Boyce Spencer has the longest fingers any place around here. If you haven't seen them, please do. Sunday afternoon saw Joan Marie James walking home from Eulene's. You'd never believe it but Darrell (Crow) Fisher and Ed Hanson are really studious boys. We couldn't put the paper out unless we mentioned the play the Senior Class gave. It was awfully good and our seniors in the play, Betty Jean Helms, Leroy Stanley, George Stanley, Maxine Doshier, Ula Garner, Jimmy Davis, Barbara Price and Jimmy Ratcliffe, really played their parts well. Monday morning we saw J. B. Helms play-

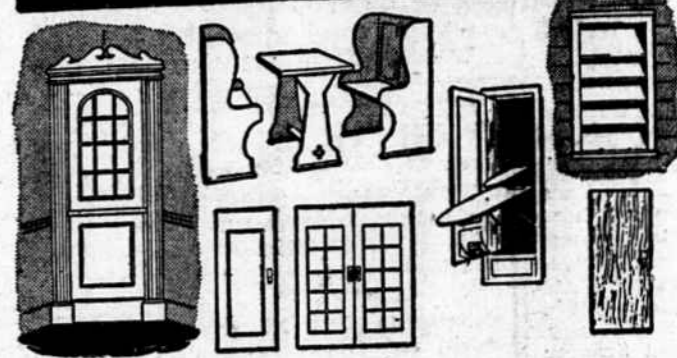

ing with a snake during civics class. Also in civics class we see everyone with half-closed eyes because of our school's new schedule. On Friday night we saw the everyone on their way to the school building to see the Senior class play, "Tons of Trouble". For those who couldn't make it we'll say you missed something big and it turned out great. We saw Stuart Arrington trying to teach Bernice Phelps some new steps in dancing. Impossible, Stu. We saw Karen Swan's and Harriett Corlette's faces turning red when they were told to be seen in detention hall after school. We say Bobby Spencer Sunday night

swimming over his favorite song, is now first on the Hit Parade "Cruising Down the River" which We'll see "yo" around.
